

# ENGR 3352 : Transport Phenomena

Fundamental principles of heat, mass, and momentum transport relating to chemical engineering. The focus is on topics in conduction, convection, radiation, fluid flow through pipes, mixing flows, and diffusion.

**Credits** 3

**Course ID**

009014

**Requisites**

[ENGR 3352](#) Prerequisites: [PHYS 3336](#), [PHYS 4193](#)

**Semester Offered**

[Spring semester](#)
