

ENGR 4144 : Electrical Engineering Capstone Laboratory

This course – in combination with the Electrical Engineering Capstone course [ENGR 4344](#) -is an upper level capstone treatment of an engineering design project from idea over design to realization. The project involves application of analytical, experimental, and computational techniques to the chosen topic from the electrical engineering field according to student and faculty interest and is executed by a team of students. This course is dedicated to the realization of the project designed in the [ENGR 4344](#) course.
