

ENGR 4344 : Electrical Engineering Capstone

This course – in combination with the Electrical Engineering Capstone Laboratory course [ENGR 4144](#) -is an upper level capstone treatment of an engineering design project (from idea over design to realization) and is executed by a team of students. The project involves application of analytical, experimental, and computational techniques to the chosen topic. Topics are chosen from the electrical engineering field according to student and faculty interest. This course is dedicated to the idea and design part, the realization of the project will take place in [ENGR 4144](#), the Electrical Engineering Capstone Laboratory.
