

NURS 7113 : Transformational Nursing Leadership: Clinical Applications Seminar

This course provides DNP students with a structured platform for exploration and integration of their experiences in their DNP courses, their applications in clinical practice and their individual population health specialization initiatives. Through group discussion, guided by faculty coaching, students will revisit the core conceptual threads of the DNP program and refine their integration of the threads into their clinical experiences and program specialization activities. The seminar is required when students are enrolled in the clinical practicum course (7X14), and provides a mechanism for managing progression through DNP clinical practice experiences and a focused process facilitating students in identifying and analyzing the challenges associated with transformational nursing leadership.
