

## 2023-2024 Catalog

### Neuroscience

Minor

**Academic Department**

Biology

(Offered jointly by the Department of Biology and the Department of Psychology)

The minor in Neuroscience is an integration of course work from both biology and psychology with focus on neuroscience and central nervous system functioning. This collection of courses from Biology and Psychology develop students' understanding of nervous system structure and function, train them in the scientific method and prepare them post-graduate training in neuroscience.
