Networking Technology

Associate of Applied Science

Program

AAS Networking Technology

Practically every organization in the world relies on a solid network of computers to function. Network administration professionals perform essential support work managing and maintaining computer networks.

The **100% online** Associate of Applied Science in Networking Technology gives you the knowledge and skills to set up, monitor and troubleshoot local area networks (LANs) and wide area networks (WANs).

While it can take 4 years or longer to earn a bachelor's degree, you can complete coursework on your schedule and **earn your associate degree within 2 years**. You'll finish the program empowered with highly marketable skills for a rewarding **career in network administration**.

This is a 60-hour program, with each course representing 3 credit hours. Dual credit opportunities are available for Cybersecurity, Drug and Alcohol Counseling, Electronic Technology, General Business and Networking Technology.
