UNIVERSITY OF ST. THOMAS HOUSTON

2026-2027

The University of St. Thomas makes every effort to include in the Graduate Catalog accurate and current information on policies, programs and courses. However, the University reserves the right to make changes considered expedient for its general well–being or that of any of its constituencies. Furthermore, the provisions of the Graduate Catalog do not constitute an irrevocable contract between any student and the University, and all provisions of the Graduate Catalog remain subject to revision at any time for any reason and without prior notice.

Note: For archived copies of previous catalogs, please contact the university library at circulation@stthom.edu or the university registrar at registrar@stthom.edu.

The University

The University of St. Thomas (UST) is Houston's Catholic University, committed to the religious, ethical and intellectual traditions of Catholic higher education.

Mission Statement

We are the University of St. Thomas, the Catholic University in the heart of Houston. We are committed to the Catholic intellectual tradition and the dialogue between faith and reason. By pursuing excellence in teaching, scholarship and service, we embody and instill in our students the core values of our founders, the Basilian Fathers: goodness, discipline and knowledge.

The University of St. Thomas is a comprehensive university, grounded in the liberal arts. Committed to the unity of all knowledge, we offer programs in the traditional liberal arts, professional, and skilled-based disciplines. Graduates of the University of St. Thomas think critically, communicate effectively, succeed professionally, and lead ethically.

History of the University

The University of St. Thomas admitted its first freshman class, 40 men and women, on September 22, 1947. Of the ten faculty members, four were members of the Basilian Fathers, to whom the work of founding and operating the University had been entrusted. The Basilians, a congregation founded in France in 1822, had been working in the Diocese of Galveston–Houston since 1900, when they established the College of St. Thomas, now St. Thomas High School.

Bishop Christopher E. Byrne of Galveston–Houston had long hoped that a Catholic university might be established in his diocese, and in May of 1945 he announced that such an institution was about to become a reality. For that purpose the T.P. Lee mansion, located in the 3800 block of Montrose Boulevard, was purchased as a home for the new University, to which a science building and classrooms were soon added. From here a series of non–credit courses was taught from November 1946 until Easter 1947 to introduce students to what would be the University of St. Thomas.

With experience that was both practical and theoretical, the Basilian Fathers, led by Father Vincent J. Guinan, first president of the University, and Father Wilfrid Dwyer, vice president, shaped the initial curriculum. Influenced by the writings of Cardinal John Henry Newman as well as by their Basilian experience in Canada at St. Michael's College, the Pontifical Institute of Mediaeval Studies and Assumption College, they determined that all students should pursue a broad program in liberal studies intended to serve as a solid basis upon which to build their lives and their careers in the community.

As a Catholic institution of higher learning, the University of St. Thomas is inspired by the teaching of Pope John Paul II'sapostolic constitution Ex Corde Ecclesiae, and abides by the application norms prescribed by the American Bishops. Because of the University's institutional commitment to the Church, "Catholic ideals, attitudes and principles penetrate and inform its activities in accordance with the proper nature and autonomy of these activities," (Ex Corde Ecclesiae, 14). In its teachings and research, the University of St. Thomas is dedicated to the cause of truth and fosters the integration of knowledge, the dialogue between faith and culture, the ethical and moral implications of learning and the unique orientation to all study given by theology.

Basilian Tradition

The Basilians at the University of St. Thomas, by their spirituality, philosophy of education and esprit de corps, promote a lively sense of the University's mission as a Catholic institution. Among the distinctive characteristics of the Basilian approach to higher education are:

- Recognition of the continuing significance of the Catholic intellectual tradition in shaping Western civilization;
- Commitment to an integral Christian humanism that embraces the liberal arts as well as all other areas of knowledge;
- Fidelity to the authoritative teaching of the Church;
- Respect for the contribution of St. Thomas Aquinas to the Church's intellectual life, especially to philosophy;
- Healthy respect for the life of the mind, a passion for the discovery of truth in every area and a conviction that faith must begin and end in a knowledge that bears fruit in love; deep appreciation of human dignity that calls for the education of the whole person: physically, intellectually, morally, socially and spiritually;
- Close association with and availability to students;
- Genuine concern to assist students who are economically or otherwise disadvantaged;
- Willingness to provide counseling and pastoral care, especially through sacramental celebration;
- Collaborative spirit that gratefully recognizes that the University is a common intellectual venture of students, faculty, staff and administration as well as other supporters and friends;
- Trust in God's grace and a willingness to carry out whatever labors are required for the good of the University without seeking recognition. In all their endeavors, the Basilian Fathers seek to enrich the University of St. Thomas with their presence, their talents and their prayer.

Commitment to Faculty Excellence

Pursuing excellence in teaching, scholarship and service is a hallmark of the University of St. Thomas. In keeping with this commitment, the Center for Faculty Excellence was established. The mission of the Center is

to provide faculty with resources and services that foster and support their success in teaching, research and service throughout all stages of their careers. The directors and participants of the Center for Faculty Excellence seek to develop a community of teachers and scholars to work collaboratively with all sectors of the University to accomplish that mission. Activities of the Center include conducting new faculty orientation, supporting faculty development workshops, facilitating faculty study days, hosting forums to discuss teaching practices, and providing support for individual members of the faculty.

SACSCOC Accreditation Statement and Other Accreditations

SACSCOC Accreditation Statement

The University of St. Thomas is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, masters, and doctoral degrees. The University of St. Thomas also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of the University of St. Thomas may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

All SACSCOC-accredited universities must apply for reaffirmation of accreditation every ten years.

The following programs at UST are accredited:

School of Arts & Sciences

- BS in Biochemistry and Chemistry: American Chemical Society (ACS)
- BS in Cell and Molecular Biology: American Society for Biochemistry and Molecular Biology (ASBMB)

Cameron School of Business

- All Business Programs: Association to Advance Collegiate Schools of Business (AACSB)

School of Education and Human Services

- MS in Clinical Mental Health Counseling: Council for the Accreditation of Counseling and Related Educational Programs (CACREP)

Peavy School of Nursing

- The baccalaureate degree program in nursing, master's degree program in nursing, post-graduate APRN certificate program and Doctor of Nursing Practice program at the University of St. Thomas are accredited by the Commission on Collegiate Nursing Education (http://www.ccneaccreditation.org).

University Seal

UNIVERSITY OF ST. THOMAS HOUSTON

The colors of the University of St. Thomas are red and gold. On the seal, the golden cross of our faith symbolizes the divinity of Christ the King, while the background of red is for the humanity of Christ.

The dove and rayonnant sun in the first quarter are symbols of St. Thomas Aquinas. In the second quarter, the star is for the "Lone Star State" and for the Mother of Christ under the title "Star of the Sea." The hyacinth in the third quarter reminds us of San Jacinto, the river and battlefield near Houston where Texas won its independence. The second dove in the last quarter is the symbol of St. Basil, patron of the Basilian Fathers, who founded the University of St. Thomas.

Thereby, on the shield, St. Thomas and St. Basil, Doctors of the Western and Eastern churches, respectively, represent the universality of the Church. The motto, "Crescamus in Christo," reminds us that as we advance in knowledge and wisdom, we should also grow in love and service of Christ.

Admissions Policies

Graduate Admissions Overview

The University of St. Thomas admission process begins when the university receives the application and all supporting documents required by the program. Applicants must have earned the equivalent of a Bachelor's Degree from a regionally accredited institution to be eligible for graduate admission to the university.*

Complete applications require submission of all supporting documents, official test scores and transcripts from all institutions attended. Each graduate program has additional specific admission requirements. Once all application materials are received, the graduate program will review the application and make an admission decision. Final admission decisions are at the discretion of the graduate program dean or director.

Readmission of Discontinued Students

Students on inactive status for four consecutive regular (fall/spring) terms will have their enrollment discontinued, barring any program-specific procedures. Students on discontinued status will be required to complete the full admission application process.

Dismissed students will not be considered for readmission until one year has elapsed from the time of dismissal.

**A limited number of mature applicants who do not hold an undergraduate degree may be admitted to the Master of Divinity or Master of Arts in Pastoral Studies degree programs. Admittance may be granted on the basis of non-credit theological study and/or experiences in ministry. These studies and experiences must demonstrate knowledge and skills that are equivalent to those of persons holding baccalaureate degrees.*

Information for All Applicants

Required Documents

All applicants are required to submit the following documents:

- Graduate application
- Application fee of $35
- Official Transcripts, in a sealed envelope, from all previous institutions of higher education attended. For applicants that received a foreign degree, a transcript evaluation will also be required. See International Applicants section for more information.

In addition to the items above, each graduate program has its own set of admission requirements. See table below:

Program	Letter of Recommendation	Interviews	Test Scores	Essay/Writing Sampl	Resume/Work History Verification
DNP	Required	Required	GRE/MAT optional	Required	Required + proof of RN license
RN-MSN				Required	Required
MSN				Required	Required + proof of RN license
MBA, MIB, MPA, MSA, Optional MSB, MSF	Optional		Optional (Recommended if undergraduate GPA is below 3.3.)	Optional	Optional
MCTM	3	Required	GRE (Recommended if undergraduate GPA is below 3.3.)	Required	Required
MEAM					
MASPP	2			Required	Required
MFA				Required	
EdD	3	Required		Required	Required
MEd, MAT			GRE or MAT test if GPA between 2.75-2.99	Required	
MACEL		Required	GRE or MAT test if GPA between 2.75-2.99	Required	
MASE					
MSCHMC	2	Required	GRE if GPA below 3.0	Required	
MDSA	2			Required	Required
MSADS	2			Required	
MAFC	3	Required		Required	
MLA	2	Required		Essay	Recommended
MPPA	2		GRE	Required	Required
MSM		Audition	GRE		
MAT	2				
MAPS	2			Required	
MASE					
MDiv	2				

Program	Letter of Recommendation	Interviews	Test Scores	Essay/Writing Sampl	Resume/Work History Verification
JPII	1			Required	
MA Philosophy	3		GRE	Required	
PhD Philosophy	3		GRE	Required	

Graduate Examinations

Some programs may require an official graduate test for admission into their programs. Applicants should check with their program at www.stthom.edu/gradadmissions to verify if a test is required for admission. Official test scores must be received directly from the testing agency. The following tests may be required by the graduate programs:

GRE Services – 1-800-GRE-CALL or www.ets.org/UST Institution Code: 6880
GMAT Services (Cameron School of Business) – 1-800-GMAT-NOW or www.mba.com/UST Institution Code: JGH-49-57
MAT Services – 1-800-622-3231 or www.millersanalogies.com/UST institution code: 2256

Deadlines

Applications should be submitted by the priority deadline to guarantee review by the graduate program. Applications may be reviewed after the deadline on a case by case basis.

Admissions Decisions

After receiving the admissions application, fee, transcripts, and other required supporting documents, the graduate program will review the application and make an official admissions decision. Graduate students can be placed into one of the following categories:

Regular Admission – Student has submitted all of the required documents for admission and met all of the program's admission criteria.

Conditional Admission – Student has either not submitted all of the required documentation for admission or has not met all of the admission criteria. Graduate programs may have additional requirements upon admission for students admitted in this status.

Denial of Admission – Student has not met the criteria for admission into the program.

Acceptance Deferral Policy

A one–year deferral may be granted to admitted students who request to defer enrollment in writing for up to one year due to serious medical difficulties, military service, serious and unforeseen family emergency, or to make a volunteer service commitment not to exceed two semesters.

Readmission

Applicants who decide to defer their application must do so in writing prior to the intended start date and have two years to reactivate it, barring any changes to the graduate program admission's standards. Supporting documents and the application fee will remain on file during this period. After two years, a new application must be submitted.

Changing Degree Programs

Students who wish to pursue a different degree after being accepted to another UST graduate program, must submit a new application and any supporting documents required by the new degree program. The new degree program will make a separate admissions decision and admission is not guaranteed.

Second Master's Degree

Students who wish to pursue a second master's degree program from UST must submit a new application and any supporting documents required by the new degree program. Students will not be required to submit new transcripts or pay an additional application fee. The new degree program will make a separate admission decision and admission is not guaranteed. The student must meet the degree requirements of the new degree program to which they are admitted. Students are not permitted to seek the same degree more than once.

Immunization Requirements

Texas law requires students under the age of 22 (unless they are enrolled in a fully online program) to submit proof of a Bacterial Meningitis vaccine within the last 5 years or submit the appropriate exemption form. The immunization record can be submitted to the Office of the Registrar. Records can be emailed to immunizations@stthom.edu or faxed to 713.942.3498.

Please contact the Office of the Registrar at 713.525.2150 or immunizations@stthom.edu for questions concerning the Bacterial Meningitis vaccine or the exception process.

For students living on campus, proof of Tdap, MMR, and a negative TB test (skin or blood test) is also required. Please contact Residence Life at 713-525-3836 or residencelife@stthom.edu for any questions concerning housing immunization requirements.

For specific immunization requirements for undergraduate nursing students, please see the Bachelor Science of Nursing (BSN and ABSN) Progression Policies page.

Admission of Graduate International Students

Transcripts

International applicants should provide the diploma/degree certificate, which contains the original seal or signature of the school's registrar/officer. To ensure timely processing, these items should be submitted at the time of application. All international applicants must possess the equivalent of a U.S. Bachelor's Degree.

Transcript Evaluation

The University requires a GPA evaluation of all foreign transcripts. The Registrar's office will provide a GPA evaluation of foreign credentials for students who have applied to the University of St. Thomas. These evaluations will be an internal document, permanently retained in the student's record, for the sole purpose of admissions at UST. The results of the evaluation will be available to review upon request. If there is a disagreement about the conclusion of the evaluation, the student will be asked to have an outside evaluation performed at their own cost, by a NACES-approved evaluation company. Alternatively, the student may choose to decline UST's internal foreign credential evaluation and provide an academic credentials evaluation conducted by a NACES-approved evaluation company at his or her own expense.

If a program requires or a student wishes to transfer specific course credit(s), a course-by-course evaluation would need to be performed by a NACES-approved evaluation company.

Should an applicant choose an external evaluation company, the university prefers one of the following:

- World Education Services/212-966-6311/www.wes.org
- Global Credential Evaluator's/979-690-8912/www.gcevaluators.com
- Span Tran Educational Services, Inc/713-789-6022/www.spantran-edu.com
- SDR Education Consultants/713-460-3525/www.usteducation.sdr.credentialconnection.com

- Any other National Association of Credential Evaluation Services (NACES) evaluation service, http://www.naces.org

English Proficiency

International applicants, except those who are from countries where English is the only official language, those that have earned a degree from a regionally accredited US institution, or those that earned a degree in a country where English is the official language of instruction, are required to submit proof of English proficiency. *The University of St. Thomas prefers the following options to verify English proficiency:

- Test of English as a Foreign Language (TOEFL) www.ets.org/toefl UST institution code: 6880
- The TOEFL is required for MED applicants seeking Texas teacher certification
- International English Language Testing System (IELTS): www.ielts.org
- Level 112 issued by the English Language Center (ELS) in Houston, TX: www.els.edu/houston
- Pearson PTE Academic http://pearsonpte.com/PTEAcademic/Pages/home.aspx

Please note that exceptions to the requirements above may arise if the university has an existing MOU agreement with a partnering international institution.

Admission of Veterans or Dependents of Veterans

The University of St. Thomas is approved to offer eligible veterans and dependents of veterans the academic courses of study published in the University catalog and bulletins. Eligible students must apply for admission to the University following the procedures for their appropriate academic category.

The Director of Veteran Services is the first point of contact for students who are veterans or dependents and can be reached at 713–525–2101. The Director of Veteran Services will assist the eligible applicant in processing the documents pertaining to veteran educational benefits, including the initial application for benefits. Once admitted, continuing students who receive these benefits are required to contact the Veteran Success Center each semester prior to or during the registration process. The veteran/dependent must also have the approval of the Veteran Success Center when making changes to his/her approved courses during any semester of enrollment.

Graduate Transfer Credit (A.04.05)

Scope

All faculty and graduate students.

Purpose

To allow the consideration of transfer credit from regionally accredited colleges/universities.

Policy

The University of St. Thomas accepts transfer credit from regionally accredited universities toward the completion of graduate degrees. The specific transfer credit rules this policy governs are published annually in the relevant academic catalog. Amendments to these rules may be proposed by Deans or Program Directors as needed, following best practices in their respective academic fields. These amendments are sent to the Graduate Council for final review and approval. All rules ensure that at least one-third of the credit hours required for a graduate or a postbaccalaureate professional degree are earned through the University of St. Thomas.

The Registrar maintains a table showing the maximum number of transfer credits accepted into the different graduate programs at the University, to be found here: Graduate Transfer and Credit Limits.

Transfer courses must be equivalent in content and credit hours to the University's listed curriculum requirements. Completion of a Graduate Transfer Credit Approval Form with the needed approval is required to be considered for transfer credit. Students wishing to receive transfer credit from foreign institutions must submit translated copies of syllabi or valid documentation from a NACES-approved evaluation company. Students who are currently enrolled and wish to enroll in a class at another university for transfer credit at UST must obtain prior approval from the director of the program in which they are enrolled.

The graduate program may exempt a student from certain core/required courses with substitution to avoid duplication of content and to permit the student to broaden his or her educational background by taking an alternative course. Such course exemptions are considered by each graduate program director based on an appropriate group of closely related college-level courses completed with a grade of B or higher.

Students who already hold a graduate degree from the University of St. Thomas may be required to complete as few as 24 hours to obtain a second master's degree from the University. The specific number of hours required can be higher depending upon the specific courses completed in the prior graduate program and the specific requirements of the second degree.

Credit for Prior Learning (A.04.06)

Scope

All students.

Purpose

The University of St. Thomas (UST) acknowledges the value of what students have learned outside formalized collegiate study, including through work and military experiences. UST defines Credit for Prior Learning (CPL) as translating students' prior education, career, or military experience into credit toward classes in their academic degree program at UST *(In accordance with SACSCOC Standard 10.8, UST publishes policies for evaluating, awarding, and accepting*
credit not originating from the institution. The institution ensures (a) the academic quality of any credit or coursework recorded on its transcript, (b) an approval process with oversight by persons academically qualified to make the necessary judgments, and (c) the credit awarded is comparable to a designated credit experience and is consistent with UST's mission.).

Policy

Through its CPL program, UST grants university-level credit for the successful completion of one or more of the following, up to the maximum of credits accepted at UST:

- Credit by Examination/Standardized Exams
- Evaluation of Non-College Education and Training
- Discipline-Specific Challenge Exams

- Discipline-Specific Portfolio Assessment

Refer to UST Transfer Credit policy for graduate programs and for undergraduate programs for maximum accepted credit by transfer into UST degree programs.
Credit for prior learning will not satisfy the University's residency requirement for a student's degree program.

Students will not receive credit for prior learning and credit for equivalent UST courses, transfer courses, or any other source of equivalent credit. For example, a student who received credit for ACCT 1341—Principles of Accounting I through completion of the course at UST or transfer credit will not receive credit through a prior learning assessment for the same course (ACCT 1341).

A student seeking credit for prior learning within their chosen degree program at the University should consult with the Office of Academic Advising and/or the chair of the academic department offering the program to discuss the exact degree requirements.

The Procedures for determining and awarding Credit for Prior Learning are available at: Credit for Prior Learning Procedures.

Credit by Examination/Standardized Exams

Please refer to Credit by Examination policy (A.02.01).

Evaluation of Non-College Education and Training

UST recognizes the value of learning that occurs in formal instructional programs offered by non-collegiate entities and informal experiences, such as voluntary work (for example, marketing work for a non-profit organization). When available, UST relies on the evaluation of such programs from reputed and established organizations (for example, the American Council on Education (ACE).

If such evaluation is unavailable, students should submit materials following the guidelines for Discipline Specific Portfolio Assessment; please see the section below.

Discipline-Specific Challenge Exams

Challenge exams are developed and administered by UST's academic departments. Each department determines courses for which they would offer challenge exams. The cost is set by the Office of Academic Affairs in consultation with the Business Office and reviewed annually.

Discipline-Specific Portfolio Assessment

A student may prepare and present a portfolio of work reflecting the knowledge and skills gained outside of the classroom. Each department determines courses for which they would accept portfolios for assessment of prior learning. The portfolio will be evaluated by faculty or external subject matter experts, as determined by the department chair or program director, to assign credit for prior learning. The Office of Academic Affairs, in consultation with the Business Office, sets the cost for portfolio assessment, which is reviewed annually.

Finances

Graduate Tuition and Fees

Tuition and fees are subject to change. Please refer to our Student Financial Services webpage at www.stthom.edu for current tuition and fees information.

Graduate Tuition per school for academic school year 2026–2027 (please contact St. Mary's for their tuition)

MBA, MIB, MPA, MSA, MSADS, MSB, MSF, MBAE, MCTM, MAIPC	per credit hour $1,236
MEAM and MFA	per credit hour $638
MA and PhD – Philosophy	per credit hour $499
MDSA, MASPP and MPPA	per credit hour $531
MLA	per credit hour $499
MEd, MACE, MACEL, and MAT	per credit hour $636
MAFC, MSM, MASE, MAPT and JPII	per credit hour $432
MSCMHC	per credit hour $744
DNP	per credit hour $531
EDD	$53,082
RN-MSN, MSN	per credit hour $319 for 5000 level $531 for 7000 level
Audit	$100/credit hour where allowed

To calculate the per–course tuition charge, multiply the second digit in the catalog number by the appropriate per credit charge. For example: HIST 5313 would have a charge of 3x1163=$3,489.

Fees

Activity Fee: *	
Full–time (9 credit hours or more)**	$140
Part-time (less than 9 credit hours)	$83
Summer term	$27
Application	$35
Company Deferment	$75
Diploma (copy)	$50
International Student Fee (each term)	$112.50/yr
International Student Insurance	$1,990
Late Registration	$50
Late Payment Fee	$200 - $1000
New Graduate Student Fee	$250
Official Transcript Fee(each)	$11.25
Parking Fee Fall	$400/yr
Same Day Transcript Fee (each)	$25
Technology Fee Graduate - Students	$310

*Audit students are not required to pay activity fees.

**The following programs are considered full-time based off 6 credit hours or more): Master of Arts in John Paul II Studies and Master of Fine Arts in Creative Writing.

Room and Board

For information on room and board rates, contact the Director of Residence Life at 713–525–3836 or residencelife@stthom.edu.

Payment of Accounts

Students should check the status of their account online through mySt Thom via the University website at www.stthom.edu and logging into their mySt Thom. The jUSTPay button, accessed through the Student Self Service link, provides access to make online payments, set up direct deposit, set up a payment plan, view a bill and set up an authorized payer. Tuition, fees and other charges not covered by loans, grants, scholarships or other means must be paid by the payment deadline for the term for which the student is registering. Students not meeting these deadlines or making these arrangements for payment may be subject to administrative dismissal from the University. The University also reserves the right to dismiss students administratively should they not honor payment arrangements.

The University of St. Thomas e–mail account is the University's primary means of contact with the student, who should check it regularly for important University updates.

Refunds

Refunds will be made to students officially withdrawing according to the schedule posted on the University of St. Thomas website under Academic calendars. https://stthom.edu/registrar/

Students may set up direct deposit for refunds via their mySt Thom account by accessing the jUSTPay link through their Student Center page. Direct deposit refunds will be processed Monday-Friday. Paper checks will only be processed on Wednesdays and will be mailed out to the student address on file. Students will not be able to pick up refund checks from the Cashier's Office.

Payment of Tuition and Fees

Terms and Conditions

By enrolling at the University of St. Thomas, students understand that they must follow the formal add/drop and withdrawal procedures of the University and that non– attendance does not automatically withdraw them from a course or from the University. Furthermore, enrollment indicates that students agree to pay all collection expenses, including reasonable attorney's fees, which the University may incur if they do not fulfill the payment obligations as set for them by their enrollment. The cost of collection expenses may be up to 50% of the balance due.

Payment or payment arrangements are due prior to the start of the semester. Tuition, fees and other charges not covered by financial aid or other means must be paid by the due date. Students not meeting payment deadlines, not making sufficient payment arrangements or not honoring payment arrangements made will be subject to a late payment fee and/or administrative withdrawal from the University.

Cash or Checks

The University accepts cash and checks with the proper identification. Checks returned for any reason will be charged a $30 returned check fee.

Credit Cards

Credit card payments (American Express, MasterCard, Visa and Discover) may be made online via mySt Thom at www.stthom.edu through a third–party servicer. A convenience fee will be assessed for each credit card payment. The University of St. Thomas does not accept credit card payments directly.

E–Checks

E–check payments are available online via myStThom at www.stthom.edu without a convenience fee. E–checks are utilized with the banking information available on most paper checks.

Payment Plans

The University offers a monthly payment plan option administered by a third party for tuition, fees, campus housing and meal plans. The plan is an interest-free way to pay educational expenses in monthly installments during the academic term. There is a $50 participation fee for each payment plan and a $30 missed payment fee when applicable.

Payment plans must be set up prior to the start of the semester. Payment plans are set up online through the student's myStThom account via the University's website at www.stthom.edu. The student must be registered for the term and have a balance for the term to set up the payment plan. Any anticipated financial aid for the term is deducted from the charges, and the balance is divided among monthly payments for the rest of the term. Payments are made directly via direct debit or direct credit card charge. Credit card payments will be assessed a convenience fee for each transaction. Students who fail to fulfill the obligations they have agreed to under a payment plan are ineligible to enroll in the payment plan in subsequent semesters and may be administratively withdrawn from the University.

Company Deferments

The University allows students to defer tuition and fee charges until the end of the term if they are eligible for employer tuition reimbursement programs. At the time of registration, eligible students must submit to the Office of Student Financial Services a letter from the employer certifying eligibility for the program for the current term as well as the percentage of reimbursement granted. Any percentage of tuition not covered by the employer reimbursement must be paid at the time of registration. Students are required to sign a promissory note and pay a non–refundable $75 fee per deferment by cash or check. Students who fail to fulfill the obligations they have agreed to under a company deferment plan are ineligible to enroll in a company deferment plan in subsequent semesters and may be administratively withdrawn from the University.

Financial Aid

The University of St. Thomas believes that qualified students who wish to attend should not be prevented from doing so for financial reasons. Through financial aid programs, the University seeks to put educational costs within the reach of every student qualified for admission. Although the University expects students and families to finance the cost of education to the fullest extent possible, it makes every effort to assist those who need help.

Eligibility for each type of assistance varies, depending on the source of funds. All students attending the University who meet the eligibility requirements listed below qualify for some form of financial aid. Assistance offered by UST includes institutional and state grants, low-interest federal loans and work study.

The Office of Scholarships and Financial Aid has counselors available to assist students as they complete the application process. For additional information concerning application procedures, the determination of need, or financial aid programs, contact the Office of Scholarships and Financial Aid at 713–525–2170 or by e–mail at finaid@stthom.edu.

All students who believe they will need assistance to attend UST are encouraged to submit financial aid applications. Application procedures are outlined below.

Applying for Financial Aid

To apply for financial aid, all applicants must complete the Free Application for Federal Student Aid (FAFSA). The FAFSA form is available beginning Oct.1. Normal processing time of the FAFSA by the Department of Education is approximately 1 week.

FAFSA on the Web is a free U.S. Department of Education Website for completing a FAFSA online and submitting it via the Internet. Students must file the Free Application for Federal Student Aid online at www.studentaid.gov. UST's school code, 003654, must be entered on the form. The FAFSA is signed electronically after the student (and parent, if applicable) first obtains a U.S. Department of Education ID, also at www.studenaid.gov

Applicants selected by the Department of Education for verification must also submit additional documents to the Office of Scholarships and Financial Aid, which may include IRS Tax Transcripts and Verification Worksheets, before any offer of financial aid can be prepared.

Other supplemental information will be requested as needed by the Office of Scholarships and Financial Aid. Students must have a completed financial aid file with all necessary documents, be regularly admitted to the University, and have met the minimum Satisfactory Academic Progress before any financial aid awarding may begin.

Financial aid awards are not made prior to admission to the University. Students are encouraged to pursue admission at the earliest possible point but should not wait for an admission decision before beginning the financial aid process.

Eligibility Requirements

Students seeking need–based financial aid must:

1. Have a high school diploma, Home School Equivalent or GED equivalent
2. Be admitted as a degree–seeking student
3. Be enrolled for at least half–time (6 credit hours, minimum)
4. Be a U.S. citizen or eligible non–citizen (I–551, I–151, I–94, I–688) or have certificate of naturalization
5. Maintain satisfactory academic progress (details in following section)
6. Not be in default on a federal loan or owe a refund on a federal grant

Satisfactory Academic Progress (SAP)

At the University of St. Thomas, all students applying for federal financial aid must meet the satisfactory academic progress academic progress guidelines have all elements and components of the regulation. This policy is as follows:

Satisfactory academic progress for financial aid purposes is defined as meeting all of the following:

1. Successful completion of 75% of all credit hours attempted
2. Minimum grade point average
    1. Undergraduate – first semester GPA, 1.70-1.99; second semester Cumulative GPA, 1.80- 1.99, third semester Cumulative GPA, 1.90-1.99, fourth and subsequent semesters Cumulative GPA, 2.00 and above.
    2. Graduate: 3.00 Cumulative GPA
3. Requirements for degree must be completed within a specified time: 180 credit hours attempted for undergraduates and 54 credit hours attempted for graduates.

"W", "I", and "F" grades will be calculated into the GPA as credit hours attempted with zero qualifying points earned. Courses passed with "P" grades will be counted into courses attempted but not into the GPA.

Grants (Graduate)

Grants are awarded on the basis of financial need and do not require repayment. Grant funds are provided by the University of St. Thomas and by the federal and state governments. Financial aid award packages will include grant funds whenever regulations, University policies, and funding levels permit.

Tuition Equalization Grant (TEG): A state–sponsored program for Texas residents who meet state–specified eligibility requirements. Maximum award amount is established annually. TEG awards are contingent on state appropriations.

Teacher Education Assistance for College and Higher Education (TEACH) Grant: For students who agree to serve as a full–time teacher for a minimum of four years in a high–need field in a public or private elementary or secondary school that serves low–income students. Grant will be converted into a Federal Direct Unsubsidized Stafford Loan for any student who does not fulfill the teaching obligation within the required timeframe.

Loans (Graduate)

Loans are often a part of a financial aid offer. The following long–term, low–interest loan programs provide students with an opportunity to defer the cost of their education.

Federal Stafford Loan: Unsubsidized low–interest, long–term loans provided by the William D. Ford Federal Direct Loan Program. Students must be enrolled half-time (6 hours to receive loan). Repayment begins six months after graduation or when the student ceases to be enrolled at least half–time.

Graduate Plus Loans (PLUS): Credit-based low-interest loans available to graduate students based on educational cost.

Jewish Family Services Loan Fund: A short–term, interest–free loan program available to all students for any related educational expense. The maximum loan amount is $300. Applications are available in the Business Office.

Work-Study/Campus Employment

The work–study program provides on– and off–campus jobs for students who need help to meet a portion of their living and educational expenses. Funding for the work-study programs is provided by the federal and state governments as well as the University of St. Thomas. Work-study awards are based on need.

- **Federal Work-Study:** A federal program that provides on–campus jobs for qualified students based on demonstrated need and is awarded by the Office of Scholarships and Financial Aid. Students receive paychecks for work performed.
- **Texas College Work–Study Program:** A state funded work-study program for eligible Texas residents. Students receive paychecks for work performed.
- **Campus Employment:** A number of positions are available on campus for students who desire to work. Such positions can be secured through the Career Services Office and are not part of financial aid awards.

Financial Aid Appeals (Graduate)

Students who do not meet the satisfactory academic progress guidelines will be notified and will receive additional information regarding appeals. Students who believe that extenuating circumstances have affected the denial of financial aid have the right to appeal in accordance with the Financial Aid Appeal Process. In order to appeal, the student must complete an appeal form. All appeals must be submitted prior to the twelfth day

of classes (census date) for the term in which the student is seeking financial assistance. The Financial Aid Appeal Committee will review the appeal forms and will decide whether to reinstate student eligibility. The committee reserves the right to restrict the number and types of courses a student may take.

Following a reinstatement, the Office of Scholarships and Financial Aid will review the student's grades at the end of the period of reinstatement. The student will be required to complete each semester with a 3.0 GPA. A student who fails to meet this requirement will be denied financial aid for the upcoming semester, and appeals will not be accepted a second time. Repeated appeals are considered a violation of the intent of the satisfactory academic progress guidelines. If a student's appeal is denied, the student will be required to successfully complete 6 credit hours (of an academic nature) using his or her own financial resources before the committee will review the student's academic transcript again.

The decisions of the Financial Aid Appeals Committee are final, and subsequent appeals for the current academic term will not be accepted. The Financial Aid Appeals Committee's decisions may stipulate conditions and restrictions. If they are not followed explicitly, individuals forfeit their financial aid eligibility for the remainder of the academic year.

The Financial Aid Appeals Committee is scheduled to review completed appeal forms prior to the academic year or pending term. Students wishing to participate in the appeals will be notified of their eligibility to appeal and must submit the Scholarship appeal form or the Financial Aid appeal form to the Office of Scholarships and Financial Aid by the date listed on their notification.

REPAYMENT POLICY

The federal government mandates that students who withdraw from all classes may keep only the financial aid they have "earned" up to the time of withdrawal. Title IV funds that have been disbursed in excess of the earned amount must be returned by the University and/or the student to the federal government.

The Office of Scholarships and Financial Aid will perform a calculation to determine the amount of aid earned by the student that he or she may keep (for example, if the student attended 25% of the term, the student will have earned 25% of the aid disbursed). The unearned amount (total aid disbursed minus the earned amount) must be returned to the federal government by the University and/or the student. Thus, the student could owe aid funds to the university, the government, or both. The Office of Scholarships and Financial Aid will notify and provide instructions to students who are required to return funds to the government.

EXIT INTERVIEW

Loan recipients who graduate, withdraw from the University, or who cease to be enrolled at least half–time are required to complete an exit interview. It is the student's responsibility to complete his/her interview. Loan exit interviews must be completed online at studentaid.gov, under the loan repayment menu.

REVISION AND CANCELLATION OF AID

The University reserves the right to review, revise or terminate financial aid awards at any time due to changes in the student's financial and/or academic status; failure to comply with federal/state laws and regulations, including financial verification/audit procedures; or University policies, including those expressed in these publications, The Student Handbook or The Financial Aid Policies and Procedures Manual. In addition, financial aid awards are subject to revision should the annual allocation of funds to the University from the federal government or the State of Texas be reduced below anticipated funding levels or should limitations be placed on funds intended for student financial aid purposes.

PROFESSIONAL JUDGMENT

While the method for determining a student's need for federal student aid is defined by law, the law does give the financial aid administrator the opportunity to use his or her professional judgment in some limited circumstances. Special circumstances might be loss of employment, reduction of earnings, estrangement from parents, divorce or death of parent/spouse. If students believe they have a special circumstance that should be reviewed, they are encouraged to visit with their financial aid counselor.

AID DISBURSEMENT PROCEDURE

Financial aid funding is posted to the students account upon verification of enrollment and continued satisfactory academic progress (see Satisfactory Academic Progress), with the exception of Work–Study funds, which students must earn through actual employment. All financial obligations owed to the University will be deducted from any accepted student assistance. Financial obligations are the total amount owed regardless of any existing plan. The Business Office will issue any resulting credit balance to students via direct deposit to their bank account, or by check.

Since refunds may not be available until after classes have begun, students should be prepared to pay any initial expenses from other sources.

Repayment Policy

The federal government mandates that students who withdraw from all classes or otherwise fail to complete any attempted classes during a semester may only keep the financial aid they have "earned" up to the time of withdrawal or non attendance. Title IV funds that have been disbursed in excess of the earned amount must be returned by the university and/or the student to the federal government.

The Office of Scholarships and Financial Aid will perform a calculation to determine the amount of aid earned by the student that he or she may keep (for example, if the student attended 25% of the term, the student will have earned 25% of the aid disbursed). The unearned amount (total aid disbursed minus the earned amount) must be returned to the federal government by the university and/or the student. Thus the student could owe aid funds to the university, the government, or both. The Office of Scholarships and Financial Aid will notify and provide instructions to students who are required to return funds to the government.

Exit Interview

Loan recipients who graduate, withdraw from the University, or who cease to be enrolled at least half–time are required to complete an exit interview. It is the student's responsibility to complete his/her interview. Loan exit counseling should be completed online, at studentaid.gov under the Loan Repayment tab.

Revision and Cancellation of Aid

The University reserves the right to review, revise or terminate financial aid awards at any time due to changes in the student's financial and/or academic status; failure to comply with federal/state laws and regulations, including financial verification/audit procedures; or university policies, including those expressed in these provisions, The Student Handbook or The Financial Aid Policies and Procedures Manual. In addition, financial aid awards are subject to revision should the annual allocation of funds to the University from the federal government or the State of Texas be reduced below anticipated funding levels or should limitations be placed on funds intended for student financial aid purposes.

Professional Judgment

While the method for determining a student's need for federal student aid is defined by law, the law does give the financial aid administrator the opportunity to use his or her professional judgment in some limited circumstances. Special circumstances might be loss of employment, reduction of earnings, estrangement from parents, divorce or death of parent/spouse. If students believe they have a special circumstance that should be reviewed, they are encouraged to visit with their financial aid counselor.

Aid Disbursement Procedure

Financial aid funding is posted to the student's account upon verification of enrollment and continued satisfactory academic progress (see Satisfactory Academic Progress), with the exception of Work–Study funds, which students must earn through actual employment. All financial obligations owed to the university will be deducted from any accepted student assistance. Financial obligations are the total amount owed regardless of any existing plan. The Business Office will issue any resulting credit balance to students in the form of a refund. Refunds are not generally available until three or four weeks after classes have begun, students should be prepared to pay any initial expenses.

University Life

Athletics

In 2006, UST returned to intercollegiate athletics by launching a women's volleyball program. After one season, the Celts were joined by a men's soccer team. The University further expanded its athletic offerings and now sponsors 19 intercollegiate teams along with Cheer and Dance.

The University was formerly a member of the National Association of Intercollegiate Athletics (NAIA) and the Red River Athletic Conference (RRAC) until the fall of 2019 when St. Thomas began competing in the National Collegiate Athletic Association (NCAA) and Division III. After receiving an official invitation to join the Southern Collegiate Athletic Conference (SCAC), UST became a full-time official member of the SCAC in the 2023–2024 academic year.

The UST Athletic Department remains committed to creating a first-class environment by recruiting, developing, and retaining outstanding student–athletes who maximize their potential intellectually, socially, and athletically while at St. Thomas. The department provides the necessary resources and leadership for student–athletes to succeed in competition and in the classroom. UST proudly graduates champions.

For more information about athletics, contact the Athletic Department at 713–831–7214.

University of St. Thomas Athletics: www.ustcelts.com

Bookstore

The bookstore is owned and operated by Follett Higher Education and is located in Moran Center to serve UST students and faculty. In addition to textbooks, new and used, it sells school supplies, clothing and various other items.

Hours of Operation
Monday - Thursday: 9:00 a.m. - 6:00 p.m.
Friday - Saturday: 9:00 a.m. - 3:00 p.m.

Holidays, summer hours, and extended hours will be posted on the school calendar and bookstore website.

Campus Ministry

The Office of Campus Ministry provides liturgical worship and spiritual activities in the Catholic tradition at the Chapel of St. Basil, the heart of the University of St. Thomas. Students are encouraged to get involved in campus liturgical programs, retreats, Bible studies, and volunteer service experiences to integrate more fully their spiritual and academic development. All members of the University community are invited to participate in the services of Campus Ministry.

At the beginning of each Fall semester, the campus–wide traditional Mass of the Holy Spirit draws the campus community together to dedicate the academic year to the wisdom and guidance of the Holy Spirit. At the beginning of each Spring semester's campus–wide Mass of St. Thomas Aquinas the campus community prays for the guidance of the patron of the University of St. Thomas.

The Basilian Fathers and visiting priests celebrate two daily Masses in English, two Sunday Masses, and a weekly Mass in Spanish throughout the academic year. The Sacrament of Reconciliation is offered five days a week.

Campus Ministry sponsors weekly Eucharistic Adoration, that is fundamental to UST campus spirituality and growth. Students, faculty and staff participate by spending an hour of Eucharistic Adoration each week praying the Divine Mercy Chaplet and Rosary throughout the academic semesters.

In the R.C.I.A. (Rite of Christian Initiation for Adults) program during the academic year, Campus Ministry prepares student, staff and faculty for their reception of the sacraments of Baptism, Confirmation and Holy Eucharist at the Easter Vigil, and for deeper study of the Catholic faith.

Campus Ministry supports these UST Catholic student groups: the Knights of Columbus, Celts for Life, Augustine Without Walls, Theology of the Body, Bible Studies, and the Society of Macrina. Campus Ministry also collaborates with other UST departments to assist University members in current issues and volunteer service activities.

The Chapel of St. Basil the Great

The Chapel of St. Basil is the center of the University's spiritual life and mission. The location of the Chapel of St. Basil and the Doherty Library at opposite ends of the academic mall represents faith and reason in dialogue at this Catholic University.

The Chapel's name is derived from St. Basil the Great, the patron saint of the Basilian Fathers–– the Catholic religious congregation that founded the University of St. Thomas. The Basilian Fathers are dedicated to education and evangelization through the charism of Jesus Christ, the teacher.

Designed by Philip Johnson, the Chapel is a prominent place of prayer and worship for the University community. The Chapel of St. Basil is world renowned for its post–modern architecture that creates a sacred silence of space. As such, the Chapel attracts national and international visitors interested in this Houston landmark. Tours may be booked through the Campus Ministry Office by phone: (713) 525–3589 or email: campusministry@stthom.edu.

Career Services and Testing Center

Career Services offers a variety of activities, events and services to assist students and alumni with career planning and job searching. In addition to services directly related to career issues, Career Services also works

with students who need assistance in selecting academic majors. The Career Services office oversees the Student Employment Program and, in collaboration with the Office of Alumni Relations, manages Insights, a mentoring program that matches graduating students with UST alumni. For more information, call 713–525–3160, or visit www.CeltCareers.com.

Career Services available include:

- Career counseling
- Career resource library
- Résumé writing assistance
- Interview skill development
- Job search correspondence
- Career assessments
- Online job and internship listings
- Job fairs and other career events
- On–campus recruiting
- Salary information

The Testing Center administers academic makeup tests and tests for students granted special accommodations by the Committee for Academic Accommodation. For more information and to view the complete testing policy, visit www.CeltCareers.com. To schedule a testing appointment, visit the Testing Center on the second floor of Crooker Center or call 713–525–3160.

Counseling and Wellness Services

Counseling and Wellness Services (CWS) provides various services for students related to transition to college, emotional adjustment, mental health, developmental issues, academic skill–building and crisis intervention. Counselors will assess the nature and extent of a student's concern and make appropriate recommendations.

- **No–Fee Services:** All services are provided with no extra fee to currently enrolled University students. Ongoing counseling services are available for students only. However, faculty, staff, and students are welcome to use CWS for brief consultation and to obtain educational information and referral services.
- **Confidentiality**: All counseling services provided are confidential except where state law mandates. The staff abides by the ethical standards of the American Counseling Association. Records maintained by CWS are not available to a third party without the student's written permission. CWS records are not a part of UST's academic or administrative records.
- **Consultation and Counseling:** CWS offers brief consultation, ongoing individual counseling, and group counseling for students who are experiencing personal concerns, academic performance issues, family concerns, relationship matters or other emotional distress. Services typically follow a short–term, brief intervention model.
- **Community Consultation and Referral:** CWS acts as a resource to members of the extended UST community about concerns for the emotional well–being of others. A list of mental health resources is maintained and the department will assist students in connecting with appropriate resources. Faculty and staff may also contact the department for referral information.
- **Education and Training:** CWS offers workshops and campus events to educate on a variety of topics pertaining to mental health and academic success. CWS maintains a small donated library and offers free self-help materials. The department website offers information about a variety of wellness and mental health matters.
- **Academic Support:** CWS provides counseling and workshops on issues such as time management, test anxiety, and improving concentration and study skills.
- **Crisis Intervention:** CWS is typically available for students experiencing a mental health crisis requiring immediate attention during regular business hours. If there is a psychological crisis after–hours, students

may contact Campus Police at 713–525–3888 to reach an on–call counselor, go to a local hospital emergency room, or call 911. There are certain University holiday breaks (Spring, Fall and Winter Breaks, Thanksgiving, Easter) when the University is closed and on–call counseling crisis services are not available.

For an appointment or additional information, contact Counseling and Wellness Services at 713–525–2169.

Disability Nondiscrimination Policy (S.01.01)

Scope

All Students.

Purpose

To comply with Section 504 of the Rehabilitation Act of 1973.

Policy/Procedure

1. Counseling Services for Students

Counseling and Disability provides various services for students related to personal and emotional adjustment, mental health, developmental issues, academic skill-building and crisis intervention. Confidential services are provided at no cost for currently enrolled University students, are generally short-term, and follow a brief intervention model. Counselors will assess the nature and extent of a student's concern and make appropriate recommendations. Services offered include initial assessment, consultation, individual and group counseling, crisis intervention, academic support, campus outreach, and referral information. More information is available at www.stthom.edu/counseling. For an appointment or additional information, contact C&DS at 713-525-2169 or 713-525-6953.

2. Disability Services for Students

Counseling and Disability Services also provides academic accommodations for students with disabilities. If a student has a documented disability, reasonable and appropriate academic accommodations for students who qualify under Section 504 of the Rehabilitation Act of 1973 are available to ensure equal access to programs and opportunities at the University. Disabilities may be defined by the following:

- learning disabilities
- health impairments
- physical limitations
- psychiatric disabilities

Students should set an appointment with professional staff at C&DS to review the nature and history of the disability as well as present concerns related to the educational environment. For information regarding the procedures required to obtain academic accommodations at UST, please refer to the UST Undergraduate Catalog or visit our website at: www.stthom.edu/counseling. For an appointment or additional information, contact C&DS at 713-525-2169 or 713-525-6953.

3. Disability Nondiscrimination Policy

It is the policy of the University of St. Thomas not to discriminate on the basis of disability in admission and access to, or treatment or employment in its program or activities, as required by Section 504 of the Rehabilitation Act of 1973, as amended, (involving disability discrimination), and the implementing regulations. If you have any questions regarding this policy, please contact the following persons:

Section 504 Coordinators

- Primary for Students: Executive Director of Counseling and Disability Services (713) 525- 3162

- Primary for Faculty and Staff Employees: Associate Vice President for Administrative Services (713) 525-3813
- Secondary for Students: Vice President for Student Affairs (713) 525-3570
- Secondary for Faculty and Staff Employees: Vice President for Finance (713) 525-6960

University of St. Thomas
3800 Montrose Boulevard
Houston, Texas, 77006

If you believe you may have been discriminated against in violation of this policy, please immediately contact the Section 504 Coordinators, the Office of Human Resources or the Office of Student Affairs for a copy of the University's Discrimination Grievance Procedures.

4. Discrimination Grievance Procedures

The University of St. Thomas has adopted an internal grievance procedure providing for the prompt and equitable resolution of complaints alleging any action prohibited by Section 504 of the Rehabilitation Act of 1973, as amended (involving disability discrimination). Information will be kept confidential to the extent possible. The Section 504 Coordinators will maintain the files and records related to all complaints filed, the written findings, and resolutions. The Executive Director of Counseling and Disability Services will maintain files and records for students; the Associate Vice President for Administrative Services will maintain files and records for faculty and staff employees. Federal law strictly prohibits any retaliation against a person who exercises the right to file a complaint of discrimination. Retaliation is prohibited whether or not the complainant prevails with the complaint. Charges of retaliation shall be treated as separate and distinct from the original complaint of discrimination and may be filed utilizing this grievance procedure.

5. Complaints

a. Disability Discrimination of Students. Complaints by students involving disability discrimination should be filed with the Section 504 Coordinator. The Section 504 Coordinator for students is the Executive Director of Counseling and Disability Services. Location: Office of Counseling and Disability Services, Crooker Center, second floor. Telephone: (713) 525-3162

b. Disability Discrimination of Faculty and Staff Employees. All disability discrimination complaints by faculty or staff employees should be filed with the Associate Vice President for Administrative Services. Location: T.P. O'Rourke Hall, first floor Telephone: (713) 525-3813

c. Discrimination Grievance Officers. The persons designated above to receive complaints under these procedures shall be referred to as Discrimination Grievance Officers. If the designated Grievance Officer is the accused party, the complaint may be filed with the other Grievance Officer or the Vice President for Student Affairs (for students) or the Vice President for Finance (for faculty and staff employees).

d. Complaints by Mail. Complaints may also be mailed to the appropriate Discrimination Grievance Officer at the following address:

University of St. Thomas
3800 Montrose Boulevard
Houston, TX 77006

The complaint and its envelope should be marked "Confidential."

6. Procedure for Complaints

a. Contents of Complaint. Complaints must be filed in writing with the Discrimination Grievance Officer and must contain:

1. Name and address of the person making the complaint ("Complainant").
2. A brief description of the alleged discriminatory action or actions.
3. The date or dates of the alleged discriminatory actions.
4. The person or persons alleged to have engaged in the discriminatory action or actions.

b. Deadline for Filing the Complaint. The complaint must be filed with the appropriate Discrimination Grievance Officer within 30 days after the Complainant becomes aware of the alleged discrimination. (Processing of allegations of discrimination that occurred before this grievance procedure was in place will be considered on a case-by-case basis, or under other appropriate grievance procedures.)

c. Informal Resolution. The Grievance Officer will notify the appropriate Vice President of the complaint, if deemed necessary. If the accusing individual is a student, the Executive Director of Counseling and Disability Services will address the complaint. If the accusing individual is a faculty or staff employee, then the Associate Vice President for Administrative Services will address the complaint. The Grievance Officer shall determine whether the matter may be promptly resolved informally (for example, when the complaint arises from miscommunication between the parties, or when the accused party admits wrongdoing and agrees to take appropriate corrective action). Informal resolution will be attempted as soon as possible and need not wait for the written response of the accused party, unless deemed appropriate by the Grievance Officer. If the Associate Vice President for Administrative Services is the accused party, the Complainant will contact the Vice President for Finance instead of the Associate Vice President for Administrative Services. If the Executive Director of Counseling and Disability Services is the accused party, the Complainant will contact the Vice President for Student Affairs instead of the Executive Director of Counseling and Disability Services. If the area Vice President is the accused party, the Grievance Officer will contact the President instead of the Vice President.

d. Response. The accused party will be provided a copy of the complaint and will provide the Grievance Officer a written response within five business days after receiving a copy of the complaint. The Grievance Officer may waive the requirement for a written response if the matter has been informally resolved.

e. Investigation. If it appears that the matter cannot be informally resolved, the Grievance Officer will proceed with the investigation. The investigation may be informal, but shall be impartial and as thorough as appropriate under the circumstances. The Complainant and the accused party shall be given an opportunity to submit evidence relevant to the filed complaint. The Grievance Officer may also interview persons who the officer believes may have knowledge bearing on the matter and may require the Complainant or accused party to provide additional documentation, information or evidence that the officer deems appropriate.

f. Determination and Resolution. The Grievance Officer will prepare written recommended findings as to the validity of the complaint and will, after consultation with the area Vice President, recommend resolution of the complaint, if any ("Recommendation"). The Recommendation will then be given to the area Vice President, who will make the final decision and communicate the decision to the Complainant and the accused party ("Determination").

g. Reconsideration. Either party may appeal the Determination by filing a notice of appeal ("Notice") with the President of the University. The Notice must be filed within five business days after receipt of the Determination, and must include a copy of the Determination and a description of the issues being appealed. Copies of the Notice shall be provided by the appealing party to the Grievance Officer and the appropriate area Vice President. The Grievance Officer will provide a copy of the Notice to the other party. The other party may file a rebuttal statement to the appeal within five business days after receipt of the Notice. The President (or designee) shall review the matter and take any appropriate action, including, but not limited to affirming, modifying or reversing the Determination or requiring that additional investigation be performed. The President shall provide a written decision to both parties, the appropriate area Vice President and the Grievance Officer.

Emergency Preparedness

Emergency Notification System:

The University of St. Thomas utilizes an Emergency Notification System (ENS) to communicate important alerts and emergency response information to students, faculty and staff. The ENS system will enable campus leaders to schedule, send and track personalized voice messages to as many as six phone numbers per person, and immediately sends messages via four different modes of communication: voice messages, text messages, email messages, and messages to TTY/TDD receiving devices for the hearing impaired. Update your contact information via the University's portal, mySTThom to receive Emergency Alerts.

Access and Disability Services for Students

Access and Disability Services (ADS) provides academic accommodations for students with disabilities. The University abides by the Americans with Disabilities Act of 1990 (ADA) and the ADA Amendments Act of 2008, Section 504 of the Rehabilitation Act of 1973 and other legal mandates that stipulate qualified students with disabilities receive accommodations to provide equal access to programs and opportunities at the University. If a student has a documented disability, reasonable and appropriate academic accommodations for students who qualify under the law are available.

Disabilities may be defined by the following:

- learning disabilities
- health impairments
- physical limitations
- psychiatric disabilities

Students should set an appointment with professional staff at ADS to review the nature and history of the disability as well as present concerns related to the educational environment. For information regarding the procedures required to obtain academic accommodations at UST, please contact the ADS Office.

Jerabeck Activity and Athletic Center

The John D. Jerabeck Activity and Athletic Center (JAAC) is the focal point for the University of St. Thomas intercollegiate athletics, campus recreation, and physical fitness activities. It houses the Department of Athletics, the Department of Recreational Sports and the Department of Health Promotion & Wellness.

The JAAC has a basketball/volleyball arena with bleacher–seating capacity for more than 800 spectators, three racquetball/handball courts, men's and women's locker rooms, a weight room, a fitness room, a dance room and several large classrooms. Outdoor facilities at the JAAC include a swimming pool, a half–court basketball court and a sand volleyball court.

The JAAC is open seven days a week, excluding holidays. The University encourages its entire community of students, faculty, and staff to participate in the many activities that the JAAC offers.

Sport Clubs

The Assistant Director of Recreational Sports is responsible for managing the recognition of and advising of sport club activities. Questions concerning sport clubs should be forwarded to the Sport Club Association President at 713–525–3874 or to the Assistant Director of Recreational Sports at 713–942–5036, recsports@stthom.edu. Following is the current list of recognized sports clubs:

Coed Cheerleading
Coed Fencing Coed Martial Arts Coed Running
Coed Sand Volleyball Coed Table Tennis Coed Tennis Coed Ultimate Frisbee
Coed Biking Men's Basketball Women's Soccer

John H. Crooker University Center

Crooker Center serves as the hub of campus life, providing a welcoming space for students to connect, relax, and engage in co-curricular activities that support their academic, social, and personal development. The center features comfortable lounge areas, dedicated study spaces, and offices for student organizations. In addition, Crooker Center houses several key student support offices, including the Dean of Students, Student Activities, Academic Advising, Tutorial Services, Campus Ministry, Career Services, Counseling and Wellness, and Dining Services. Whether you are seeking academic guidance, personal support, or opportunities to get involved, Crooker Center is the place where student life comes together.

Libraries

The Robert Pace and Ada Mary Doherty Library, the main University library, has over 250,000 volumes and access to over 340,000 electronic books, 175 databases, and access to over 180,000 periodical titles. The library provides various study areas, including silent reading areas, for students and faculty. The Doherty Library uses the Horizon automated library system and has online resources available through the library Website (http://library.stthom.edu). The Doherty Library participates in the TexShare cooperative library program. TexShare allows students to have borrowing privileges at most university and college libraries in Texas through the use of a TexShare card.

The Hugh Roy Marshall Graduate Philosophy Library, especially strong in resources for the study of Thomism, contains approximately 11,000 volumes in the area of medieval philosophy, theology and history. This collection supports the graduate program of the Center for Thomistic Studies, stressing a historical understanding of Aquinas texts and a rigorous rethinking of this thirteenth–century wisdom in the light of twenty–first–century problems and realities. The Graduate Philosophy main collection is located on the first floor of the Doherty Library and all students can consult it. The Special and Reference collections of the Graduate Philosophy Library, located in Doherty Library's second floor Hugh Roy Marshall Room, has restricted access.

The Music Resources Collection is located on the first floor of Cullen Hall, it contains more than 3,000 scores, both vocal and instrumental.

The Cardinal Beran Library at St. Mary's Seminary is an integral part of the University's Graduate School of Theology, offering resources in person and online. It has approximately 71,000 volumes including eBooks, current subscriptions to 144 journals, 9,500 bound volumes of periodicals, 1,500 pamphlets, and 650 audio-visual items. Special collections include primary resources of eighteenth and nineteenth century Catholic writers and a collection of historical pamphlets for catechesis of the laity. The library has been the beneficiary of the personal collection of former Bishop Wendelin J. Nold and the Blessed John Henry Newman resources from UST scholar Fr. Richard Schiefen, CSB, as well as books from retired Bishop Vincent M. Rizzotto and Archbishop Emeritus Joseph A. Fiorenza. Theological titles in Spanish and Vietnamese are obtained when available. Additionally, the library offers a Catholic fiction collection of over 600 titles. To access the resources available in the Cardinal Beran Library, go to: www.smseminary.com/library.

Parking and Bicycle Regulations

The Moran Center Parking Garage, located at the corner of West Alabama and Graustark (entrance on Graustark) is available to students, employees and visitors. Parking permits are available each semester as well as a daily parking rate. Permits may be purchased on line.

Street parking is available on and around campus. Be sure to follow all parking regulations and signs.

The University promotes bicycling for ease and the health and environmental benefits. For the safety of the University community, we have adopted the following regulations:

- Bicycles must be parked only at bicycle racks.
- Bicycles may not block pedestrian traffic nor be chained to stairwells or arcade columns. Violators may have their bicycle chained ($25 removal fee) or removed by Security. The University will not be held responsible for damaged locks.
- Riding a bicycle on principal pedestrian sidewalks, through building walkways (inside or outside), or other pedestrian paths is not permitted. Riders are expected to dismount when using pedestrian-only walkways.
- UST Security bike patrol officers are exempt from these limitations when performing official duties.

For information, call the University Police and Security at 713-525-3888 or email security@stthom.edu.

Student Affairs

The Division of Student Affairs supports the mission of the University and the Basilian Catholic tradition through programs, policies, and services that offer valuable learning experiences and promote development of the whole person. Student Affairs is comprised of the following offices: Campus Ministry, Career Services, Counseling and Disability Services, the Office of the Dean of Students, Health Promotion and Wellness, Intercollegiate Athletics, Residence Life (which includes Guinan and Young Halls), Recreational Sports (including the Jerabeck Activity and Athletic Center), Student Activities, the Office for Student Success, and the University Police Department.

The Mendenhall Achievement Center, located on the second floor of Crooker Center, was established at the University of St. Thomas in 2008 as the result of a gift to the University from Trini Mendenhall, the former owner of Fiesta Mart, Inc., and a former board member of the University of St. Thomas. The Center is comprised of a professional support team that works collaboratively to provide a comprehensive approach designed to assist students with achieving their goals.

Services within the Mendenhall Achievement Center include Academic Advising, the Career Services and Testing Center, Counseling and Disability Services, Tutorial Services, and the Office for Student Success. In addition to its central location, students benefit by having these support services in one location.

The Office of Student Affairs, located on the second floor of the Crooker Center, also helps coordinate the Student Government Association, the Student Activities Board, the Council of Clubs, and management of the Crooker Center, and oversees the Code of Student Conduct. The Office of Student Affairs issues UST Identification Cards; schedules room reservations for the Old Bookstore in Crooker Center, as well as the Crooker Center corridor spaces; and keeps students aware of campus events and activities through semi–weekly email announcements. Offices of the Vice President for Student Affairs, the Assistant Vice President of Campus Life, and the Dean of Students and Assistant Vice President for Student Success are located in the Office of Student Affairs.

For information on any of the above, or if you have concerns or ideas, please contact our office at 713–525–3570.

Student Organizations and Activities (Grad)

The Graduate Student Association's (GSA) mission is to represent and support the interests of the University's current and future graduate student community by supporting scholarly activities and providing leadership, service, and social opportunities for its members. The GSA exists to enrich the experience of the University's graduate students and interested undergraduate students. The GSA accomplishes these objectives by responding to the changing collective needs of our primary constituents. The GSA is designed to serve all UST students. The Graduate Student Association includes the Graduate Senate, Graduate Clubs System and the Graduate Programming Board.

There are a variety of student clubs and organizations on campus for both undergraduate and graduate students. To find a complete list of clubs and organizations on campus, visit the Office of Student Activities in Crooker Center. Additionally, there are clubs and organizations specific to students in the various graduate programs on campus.

The University of St. Thomas provides technology to its students for academic and personal use. UST students can utilize high speed Internet access from a campus–wide network. UST's wireless network covers the majority of the campus and allows for guest access as well.

The University offers several online services to students, including Webmail, registration, access to class schedules, grades, online payment services, and an online learning management system for distributed and distance learning initiatives. Student organizations and clubs are eligible for web space and email accounts.

Most classrooms have integrated instructor stations and media projection systems that are permanently installed. Several classrooms are equipped with student computer workstations.

The primary student computing lab, located in the Doherty Library for ease of access, provides computers and printers that access common instructional applications. In addition, computers designated for student use are available in the Tutorial Services Center, Language Lab, Guinan Residence Hall, and several other departmental laboratories, such as Chemistry and Psychology. Students may also use their own computers with the wireless network.

Tutorial Services Center

The goal of the Tutorial Services Center (TSC) is to help students become more self-sufficient and confident in their learning skills. Grounded in the Catholic intellectual tradition and the University's commitment to educating the whole person, the TSC supports students in developing the knowledge, habits, and confidence needed for academic and personal success. To support this mission, the TSC partners with **Knack Tutoring** to provide comprehensive peer tutoring for students currently enrolled at UST. Tutors meet specific academic requirements, are recommended by UST faculty, and complete structured training to support students in a variety of academic subjects and general writing skills. Through our partnership with Knack, tutoring is available both in person and virtually, making academic support accessible and flexible for all students.

In addition to helping with course content, tutors support students in strengthening core academic skills and understanding broader concepts. Tutors guide the writing process by identifying areas for improvement such as thesis clarity, grammar patterns, organization, and development. Students at all levels use tutoring to refine their work, gain feedback, and build confidence in their learning.

The TSC offers workshops throughout the semester on topics such as thesis development, paragraph organization, the research paper process, and writing successful essay examinations. Workshop information is shared through Instagram, signage outside the Center, and weekly Campus Announcements.

The Tutorial Services Center is located in **Doherty Library, Room B03**. Tutoring is available through Knack in both in-person and virtual formats. The TSC website provides comprehensive information and answers many student questions. You may contact us at **tutoring@stthom.edu** or by calling **713-525-3878**.

University Police

The University Police Department offers the University safety and peace of mind by providing security and assistance 24 hours a day. Services provided include:

- Emergency Preparedness Website
- Emergency Call Boxes located throughout the campus
- Security Escorts
- Personal Safety
- Shuttle Services
- Parking Policy
- Pay My Fine
- Campus Event Security

The Police Department Office is located on the first floor of Moran Center Parking Garage. University Policy can be reached by dialing 3888 from any campus phone; or 713 525 3804 and at police@stthom.edu.

Academic Information

Definition and Determination of Credit Hours (A.00.00)

Scope

The following course types are covered by this policy.

- Classroom-based: Scheduled contact occurs primarily face-to-face in a classroom setting.
- Faculty-directed independent learning: Scheduled contact occurs via faculty supervision of students pursuing directed study for credit for such activities as capstone projects, independent work for distinction, or graduate thesis and dissertation requirements.
- Place-or practice-based: Scheduled contact occurs in non-classroom locations such as corporations (internships), schools, or clinics.
- Blended: Scheduled contact is a defined mixture of face-to-face and distance/online interactions.
- Online: Scheduled contact is mediated entirely online.

Purpose

Academic credit provides the basis for measuring the amount of engaged learning time expected of a student enrolled in traditional classroom settings, laboratories, internships, clinical fieldwork, online and hybrid courses, and other experiential learning. The credit hour value is an amount of work represented in intended learning outcomes and verified by evidence of student achievement to include contact time, the educational experience, and out-of-class preparation by the student.

Definition of a Credit Hour

The faculty of the University of St. Thomas (UST) determine the amount of credit awarded for undergraduate and graduate courses based on the unit of semester credit hour in accordance with federal and state rules.

UST adheres to the Carnegie unit for contact time, which is 750 minutes for each credit awarded: 14 weeks of classroom time totaling 2,100 minutes of instruction plus the 150 minute exam.

The University of St. Thomas (UST) defines a credit hour in accordance with federal regulation 34 CF 600.2 and the Texas Administrative Code, Title 19, Chapter 4, Subchapter A, Rule 4.6 [1]. As outlined by federal regulation:

A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

(1) One hour of classroom or direct faculty instruction and a minimum of two hours of out of class student work each week for approximately fifteen weeks for one semester hour of credit, or

(2) At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution including laboratory work, internships, practica, studio work, and other academic work leading to the award of credit hours.

The Texas Administrative Code (TAC) stipulates that “traditionally delivered three semester credit hour courses should contain 15 weeks of instruction (45 contact hours) plus a week for final examinations so that such a course contains 45 to 48 contact hours **"*depending on whether there is a final exam*."** Additionally, “courses delivered in shortened semesters are expected to have the same number of contact hours and the same requirement for out-of-class learning as courses taught during a normal semester”

Determination of the Amount and Level of Credit Hours

The faculty of each academic department or program review process ensures that the amount and level of credit awarded for undergraduate and graduate courses are compatible with sound academic practice in their particular academic disciplines and their professional judgment applied to the following criteria:

- The student learning outcomes of the course
- The amount and quality of work required by the student learning outcomes for the course
- The sophistication of course content relative to the content of: (a) other courses in the discipline; (b) the same or comparable courses in the discipline at other institutions; and (c) other courses in the curriculum in general
- Any recommendation that may come from the chief academic officer, or an academic department
- Any relevant guidance that may be available from sources such as the American Association of Collegiate Registrars and Admissions Officers (AACRAO)

The Undergraduate Curriculum Committee is responsible for reviewing and approving the amount and level of credit recommended by the faculty for all undergraduate courses leading to the baccalaureate degree, whether on-campus, off-campus, or online. The Graduate Council is responsible for reviewing and approving the amount and level of credit recommended by the faculty for all graduate courses.

Guidelines for the Assignment of Credit

For courses offered during a typical 15-week semester, the combination of scheduled contact and independent student effort must be equivalent to at least 3 hours per week per credit hour. The guidelines should be adjusted accordingly a) for shorter courses, b) as directed by external agencies such as specialized accreditors, or c) as warranted by the standards of the discipline.

In a **face-to-face course**, credit hours are generally based on the hours per week the students spend in the classroom or lab, or "contact hours" with the students. A course that meets for three 50-minute periods per week during a full 15-week semester is considered 3 credit hours.

For **online and blended learning courses**, the hours per week is calculated by Time on Task. Faculty developing courses in these modalities estimate how long it will take the average student to complete all of the assignments to achieve the student leaning outcomes for that week, including reading assignments, videos, quizzes. discussions, and group work.

Level of Credit

The level of credit indicates the progressive complexity of coursework. Courses numbered 1000 contain entry level information for students beginning their academic degree. These are introductory courses that constitute the beginning of college work and do not require previous college experience (no pre-requisites are required). Typically, these courses would be taken by freshmen. Each level above that contains higher levels of disciplinary content. 2000 level courses have a higher level of disciplinary content than 1000-level courses. 3000- and 4000- level courses are typically the final courses students would take in their bachelor degree and the level would be the highest level of learning that should occur for the bachelor degree level.

This pattern of progressively more disciplinary content and complexity continues for Masters and Doctoral level courses, which carry course numbers at the levels of 5000, 6000, 7000, and 8000.

Degree Plans and Application to Graduate (A.01.01 NGP)

Degree plans and Application to Graduate

The Academic Advisement Reports are reviewed as part of the student's intent to graduate. These reports are located in the portal and show the courses a student has taken to complete the degree requirements.

Students must complete the online intent to graduate process according to the following schedule:

- First Monday of November for graduation in the following Spring or Summer semesters.
- First Monday of April for graduation in Fall of the following semester.

December and May graduates and summer graduation candidates may choose to participate in the annual May Commencement.

Student Responsibilities

Students are responsible for keeping their own records and for knowing the University's policies and regulations, those of a general nature as well as those pertaining to their particular program of studies. The ultimate responsibility for the student's academic program and orderly progress through the University curriculum rests with the student. If anyone advises a student contrary to the University's stated policies and regulations, the student should consult the dean of the school involved or the Registrar.

Course Numbering System (A.02.02-3 NGP)

Courses are identified by subjects and four-digit numbers. The first digit indicates the level of a course. Graduate level courses are numbered from 5000-9000. In most cases the second digit indicates the number of credit hours earned for successful completion of the course. The final two digits indicate the departmental sequence.

Resolution Statement on Late Enrollment Requests

The Deans' Council recommends that our offices and the Registrar's Office adopt a shared standard for late registration that reflects the university's core value of discipline. Going forward, late registration requests should be approved only in cases of documented, bona fide emergencies—such as medical crises, family emergencies, or institutional errors. Such requests should be submitted before the semester census date. Deans will apply this standard when reviewing requests, and the Registrar's Office is encouraged to return any requests that do not clearly meet these criteria. This collaborative approach will help ensure that published enrollment deadlines are upheld and that we collectively model the discipline we expect of our students.

Grading Policy (A.02.04)

Scope

All Students

Purpose

To describe grades and grade point values.

Definitions

A. Course Numbers

Courses are identified by subjects and four-digit numbers. The first digit indicates the level of a course. A “1” indicates first-year or entry level, while “3” and “4” indicate upper-division and typically presume prior completion of courses beginning with “1” or “2.” The second digit indicates the number of credit hours earned for successful completion of the course. The final two digits indicate the departmental sequence. Thus, Chemistry 1341 is a first-year chemistry course carrying 3 credit hours, and Chemistry 1141 is a first-year course carrying 1 credit hour. These two courses are lecture and lab for first-year General Chemistry and together total 4 credit hours. If a course ends with a character of ‘X’, this denotes that the course uses a non-degree grading basis (does not factor into the GPA). If a course ends with a character of ‘V’, the credit hours of the course are variable. For variable-credit classes, the 2nd digit will be a zero.

B. Credit Hours

The unit of measurement for academic work is the credit hour, representing fifty minutes of class lecture or contact time per week for one semester. Two to four laboratory clock hours are usually required for earning 1 credit hour in a laboratory course.

Policy/Procedure

1. Grading and Point Equivalents

A = 4.00 grade points per credit hour
A- = 3.70 grade points per credit hour
B+ = 3.30 grade points per credit hour
B = 3.00 grade points per credit hour
B- = 2.70 grade points per credit hour
C+ = 2.30 grade points per credit hour
C = 2.00 grade points per credit hour
C- = 1.70 grade points per credit hour
D+ = 1.30 grade points per credit hour
D = 1.00 grade points per credit hour
F = 0.00 grade points per credit hour
P = Credit earned without impact on the student’s GPA. See the policy on Pass/Fail Option.
I = Incomplete. At the discretion of the faculty member, a grade of “I” may be assigned to a student who has successfully completed [i.e., with at least a passing grade] a majority of the work of the class and who has an unavoidable and compelling reason why the remainder of the work cannot be completed on schedule. Incomplete grade requests can only be submitted after the end of the formal withdrawal (“W”) period. Upon

the completion of the work within the next regular semester at the time prescribed by the faculty member, the faculty member will award the student a letter grade, including the possibility of an "F." An "I" grade that is not replaced by a letter grade or an "IE" grade by the end of the grade deadline in the subsequent regular semester will automatically become a grade of "F."

IE = Incomplete Extended. At the discretion of the faculty member, a grade of "IE" may be assigned to a student for one semester if the situation warrants. The "IE" grade that is not replaced by the end of the grade deadline of the semester in which it expires will automatically become a grade of "F."

DS = Passing, Stopped Attending. Same grade point calculation as "D." Denotes that the student stopped attending but did not officially withdraw. This is an internal classification for tracking purposes and will appear on the transcript as an "D".

FN = Failure, Never Attended. Same grade point calculation as "F." Denotes that student never attended but did not officially withdraw. This is an internal classification for tracking purposes, and the official grade will appear as an "F' on the transcript.

FS = Failure, Stopped Attending. Same grade point calculation as "F." Denotes that student never attended but did not officially withdraw. This is an internal classification for tracking purposes and will appear on the transcript as an "F".

S = Satisfactory progress. This grade is reserved for a course that typically goes beyond one semester. A final grade is posted upon completion of the work.

W = Withdrawal or drop from a course without jeopardy or effect on GPA, in the period beginning with the 13th day of classes and ending with the last day of the 11th week of a regular semester, or as specified on the Academic Calendar for courses in other sessions. Failure to withdraw officially from any or all courses within the specified period to withdraw with a "W" can result in a grade of "F."

WF = Withdrawal or drop from a course after the end of official withdrawal period, ending on the last day of classes for the term. Equivalent to "F' grade, earning 0.00 grade points per credit hour and impacting term and cumulative GPA.

AUD = Audit only; no credits earned.

NGS = No grade submitted. This is a temporary notation used when a faculty member has not submitted a grade by a prescribed deadline. The course grade is pending. The faculty member will report the actual course grade by means of their myStThom account or the official Grade Change Form. NGS has no negative impact on a student's term or cumulative GPA.

The description and interpretation of the letter grades is as follows:

A, A- = Excellent (unusual and superior achievement)
B+, B, B- = Good (above average, articulate achievement)
C+, C = Satisfactory (average work)
C-, D+, D, DS = Passing (below standard)
F, FN, FS = Failing

The GPA is calculated by adding the total number of grade points earned and then dividing by the total number of hours attempted at the University.
To achieve the minimum GPA required for a degree, the student must have obtained at least twice as many grade points as hours attempted at the University of St. Thomas. Courses taken outside the University of St. Thomas are not calculated in determining grade point averages.

2. Final Semester Grades

Semester grades and cumulative statistics are available at the end of each semester on myStThom. Faculty members are not authorized to post final grades or release them to students by any other means. Students should review their grades carefully. A course grade may not be changed after one year following completion of the course.

APPROVED: Board of Directors
Date of Original Formation: 9/1/2010
Revision Number: 2
Revision Date: 04-19-2023
Effective Date: 12/07/2023

Absences and Withdrawals (A.02.05)

Scope

All Students.

Policy/Procedure

01. Withdrawals due to Absence from Class

Frequent unexplained absences may result in a student being administratively withdrawn from the course or in a grade reduction or failing grade, at the discretion of the faculty member, in accordance with the faculty member's attendance policy included on the course syllabus. Please note, however, that non–attendance does not automatically withdraw a student from a course or from the University. Students should follow the formal add/drop and withdrawal procedures of the University for any courses which they do not wish to attend.

02. Withdrawal from the University

At any time prior to the last day of the semester, a student may officially withdraw from the University by completing the Withdrawal/Discontinue Statement Form from the Registrar's Office.

Financial aid recipients must also notify the Office of Scholarships and Financial Aid. Students receiving veteran's benefits must notify the Veteran Success Center.

As with dropping individual courses, failure of a student to withdraw officially within the specified period to withdraw with a "W" can result in the awarding of "F" or "WF" grades for all courses. Petitions for any exceptions to these rules due to extenuating circumstances must be made in writing to the Academic Committee via the Academic Petition Form. Students are strongly encouraged to consult with their academic advisors, financial aid counselors, and student accounts counselors prior to any type of withdrawal. A student who has withdrawn from the University must contact the Admissions Office regarding readmission.

03. Medical Withdrawals

Students wishing to secure a medical withdrawal must submit an official doctor's note on letterhead indicating the diagnosis, length of time they were under the doctor's care, and the doctor's recommendation along with the Medical Withdrawal Request Form located on the Registrar's webpage. All documentation must be submitted to the Registrar no later than the last day of classes for the applicable term.

Refunds will be considered on an individual basis for students who stopped attending classes before October 1 for the fall semester and March 1 for the spring semester. Because the summer term has multiple sessions with different start/end dates, refunds for classes taken in those sessions will be at the discretion of the Registrar. Medical withdrawals may be made after these deadlines with a resulting grade of "W," but no refunds will be granted.

The Office of Scholarships and Financial Aid will follow federal guidelines in determining refund procedures for all federal programs. Institutional and State Aid that was applied to any tuition charge will be reviewed on a case-by-case basis and will be subject to reduction and/or cancellation prior to any tuition refund being issued.

If a medical withdrawal is approved, any course(s) in the term where a final grade has not been earned and officially recorded as of the approval date will be marked with a "W" grade. No partial withdrawal will be allowed. Students who have secured a medical withdrawal may not return to the University without their doctor's written approval.

Final Examinations (A.02.06 NGP)

Scope

All Undergraduate Students.

Purpose

To explain the policy for dealing with final examinations that are missed or need to be rescheduled.

Policy/Procedure

01. Rescheduling Final Examinations

A student who is scheduled to take three or more final examinations in one day may petition the dean of the school in which he/she is enrolled to have the overload examination(s) rescheduled. The Dean's Office will arrange the rescheduling with the faculty member.

02. Absence from Final Examinations

A student who is compelled by illness or other seriously adverse circumstances to be absent from a semester final examination will receive, at the discretion of the faculty member, the grade of "I" or "F." A missed final examination resulting in an "I" grade will be made up after the semester has ended.

Repeating Courses (A.02.07 NGP)

Scope

All Undergraduate Students.

Purpose

To describe the policy for repeated courses.

Policy/Procedure

01. Repeating Courses

A student may repeat a course taken at the University provided that the original grade was lower than "B" (3.00). Course grades for both the original and the repeated attempts will appear on the student's transcript; however, the grade of the repeated course replaces the original grade in the computation of the GPA, and the credit hours attempted will be counted only once. A notation on the transcript will indicate repeated courses.

A course taken at the University of St. Thomas may not ordinarily be repeated outside the University. A student may petition the Academic Committee to repeat a failed (or one with a grade below "B") course at another college or university if compelling reasons prevent repeating the course at UST. If permission is granted, credit hours will transfer to the University, but the original grade of "F" and hours attempted will remain in the computation of the student's GPA. To replace the original grade of "F" and hours attempted in the GPA computation, a course must be repeated at the University of St. Thomas.

The University of St. Thomas is not obliged to grant credit for any course repeated at another institution for which a student has not received the required approval.

A student who withdraws from the University of St. Thomas for one or more semesters, repeats courses at another school, and then returns to the University will not be allowed to use these courses to replace the courses previously taken at the University.

Academic Integrity (A.02.11)

Scope

All Students.

Purpose

To describe academic dishonesty and its consequences.

Policy/Procedure

The University of St. Thomas strives to provide a learning environment that is rooted in academic and ethical behavior and embraces the Basilian Fathers' core values of goodness, discipline, and knowledge. Students are therefore expected to act with honesty and integrity in their pursuit of academic excellence. Every offense against academic honesty seriously undermines the teaching-learning process for which the University exists, and such offenses will be dealt with seriously.

Definition

Academic dishonesty includes but is not limited to:

1. Cheating on an assignment, examination, or test; for example, by copying from another's work or using unauthorized materials before or during the test, including the use of electronic devices;
2. Plagiarism, which represents as one's own the work of another, whether published or not, without acknowledging the precise source;
3. Participation in the academic dishonesty of another student, even though one's own work is not directly affected;
4. Any conduct which would be recognized as dishonest in an academic setting.
5. The use of generative artificial intelligence (GAI) unless expressly permitted in the course syllabus or for a particular assignment.

Charge of Academic Dishonesty

Faculty and/or exam administrators who consider that they have a valid case of academic dishonesty against a student must inform the student of the charge and the resulting penalty which is at the discretion of the faculty member. The faculty member will submit the charge, penalty and supporting documentation to the Dean of Students and the Registrar using the Academic Dishonesty form on the portal after the act has been discovered and investigated but no later than the date when course grades are due for the semester or academic session. Record of the offence will be kept by the Registrar's office as an official academic record. Each case will be treated as a matter of deferred adjudication; if and when the student graduates, the record will be expunged. A student wishing to appeal the academic dishonesty charge must write a letter of appeal within seven days of receiving the Report of Academic Dishonesty. The Registrar will forward the appeal and all supporting documents pertaining to the case to the Academic Committee.

Second Case Offenses

When a second charge of academic dishonesty has been upheld against a student, the student shall be dismissed from the University. The transcript will note "Dismissed for Academic Dishonesty," along with the date. Readmission to the University may be considered under extraordinary circumstances through a written appeal to the office of the Vice President for Academic Affairs.

APPROVED: Board of Directors

Incomplete Grade (A.02.13)

Scope

All Undergraduate and Graduate Students

Purpose

To outline the policy for incomplete grades.

Definition

A grade of Incomplete ("I") may be given at the discretion of the instructor to students who are making satisfactory progress in a course but will not be able to complete course requirements by the end of the term. Incompletes are typically given for emergency situations which prevent the student from completing course requirements.

Procedure

01. When assigning an "I" grade and Contract

Instructors must provide students with an Incomplete Grade Contract that outlines the work to be accomplished before the "I" can be converted to a final grade and specifies a deadline date; the contract constitutes an agreement between instructors and students. A copy of the contract should be submitted by the instructor to the Registrar's Office by the grading deadline of the semester. The Registrar will verify the "I" grades that have been posted on the student's record and verify that the incomplete contract has been received by the instructor.

02. Time Limit of "I" Grade

A grade of "I" must be resolved by the student within the time limit outlined in the Incomplete Grade Contract. If additional time is warranted, the "I" may be extended for one regular (fall/spring) semester by changing the "I" grade to an Incomplete Extended ("IE"). The instructor must request the extension by submitting a completed grade change form to the Registrar's Office no later than the end grade deadline of the semester in which the "I" grade expires. The "I" and "IE" grades that have not been changed to letter grades by the end of the grade deadline of the next semester (fall/spring) will automatically become a grade of "F" or the grade specified in the incomplete contract. If an "IE" needs to be extended, a grade change form must be completed by the instructor and signed by the instructor and Dean.

03. Re-Registration

Students should not re-register for courses in which they have received grades of Incomplete.

04. Academic Standing

"I" and "IE" grades are not calculated in the GPA and do not affect a student's academic standing. An "I" or "IE" that is changed to a letter grade or automatically converted to an "F" will affect a student's academic standing at the end of the semester in which the grade change is completed.

05. Incomplete Grade Reminders to Faculty

The Registrar's Office will send an email to faculty and students to remind them of outstanding "I" grades. The faculty will contact students to remind them of the contract that was signed and when the student should submit the required assignment(s).

Effective Date: 12/07/2023

Family Educational Rights and Privacy Act of 1974 (FERPA) (A.03.02)

Scope

All Students (undergraduate, graduate, off-campus and distance learners).

Purpose

To describe FERPA responsibilities and requirements.

Policy/Procedure

Under the Family Educational Rights and Privacy Act of 1974, the University is free to release information about students categorized as "directory-type information." Students have the right to restrict the disclosure of this information by completing and submitting a Request to Prevent Disclosure of Directory Information form to the Registrar's Office. Once this request has been submitted to the Registrar's office, the restriction to disclose directory information will remain in effect until the student submits a request to the Registrar's office to revoke the original request. Copies of the policies and procedures governed by this Act are also available for review in the Registrar's Office.

The following is a brief summary of the policy that relates directly to student records held by individual faculty members:

1. All students and former students of the University have access to their own individual records for the purpose of inspection and review, with certain specified exceptions. The exceptions pertaining to records in the possession of faculty are the following: personal and educational notes and records in the sole possession of the faculty author and not revealed to any person other than a substitute agent of the faculty member (for example, notes of conferences with students kept by faculty members for their own use); records authorized by the student to be written confidentially (for example, letters of recommendations; see item 5. below).
2. In general, a student's grades or other records may not be released to a third party without the student's specific written authorization. Exceptions to this rule include officials, faculty and staff employed by the University who have a "legitimate educational interest," parents or guardians who certify that a student is carried as a dependent for federal income tax purposes, and other appropriate persons if their knowledge of such information is necessary to protect the health and safety of the student or other persons.
3. Students may not remove items from their records, nor may they obtain copies of records that can be obtained from the original source of the record.
4. Students may challenge the release of any information directly relating to them. The challenge is restricted to inaccurate, misleading or otherwise inappropriate records and information. Regulations specify an initial informal hearing and, if requested by a participant, a subsequent formal hearing to determine the accuracy and pertinence of the challenged information.
5. All recommendations placed in educational records after January 1, 1975, are available to the student except in cases in which the student waives, in writing, the privilege of examination.

Academic Regulations for Veterans and Dependents (A.05.01)

Scope

All Students Receiving VA Educational Benefits

Purpose

To outline academic regulations for veterans or their dependents.

Policy/Procedure

Academic regulations for veterans and dependents of veterans are administered by the Veteran Success Center under the supervision of the VA Certifying Official. Eligible veterans and dependents receive monthly payments for their entitlement based on the course work for which they enroll. In compliance with U.S. Veterans Administration regulations, students who receive educational benefits from the VA must meet and maintain certain standards. Students must select courses with care, making certain that each course meets VA requirements. For this reason, students receiving VA educational benefits are required to consult with their academic advisors and submit a copy of a signed degree plan to the VA Certifying Official. Students must notify

the VA Certifying Official of their continued enrollment every semester, and also of any changes in their registration during the semester. The following are the requirements that must be met in order to receive VA monthly payments:

1. A student receiving VA educational benefits must pursue a program of single objective only. Double and joint majors or programs are not allowed unless approved by the VA.
2. No course may be taken as a remedial, deficiency or refresher course without proper documentation.
3. Each course must fulfill a requirement for graduation in the degree program;
4. No course may be taken as an "audit" course.
5. No course may be a repeat of a course for which credit has already been received;
6. Each course must be completed and assigned a grade that will be used to compute GPA and count toward the degree. Withdrawal from courses without mitigating circumstances and with the result of no credit or grade being awarded will cause benefits to be terminated retroactively from the beginning date of the semester, creating an over-award and the possible obligation to repay the Veterans Administration.

All students receiving VA educational benefits must maintain "satisfactory progress" by achieving the required minimum cumulative GPA, based on the total hours attempted. The University of St. Thomas will not prohibit attendance or impose penalties to GI Bill® eligible students while waiting on VA payments if a Certificate of Eligibility has been submitted to the Veteran Success Center.

To ensure satisfactory progress, transcripts of those students receiving VA benefits will be monitored at the end of each semester. Should the student complete a semester with a GPA below the required minimum, a warning notice will be given to the student advising that satisfactory progress is not being maintained and that he/she will be placed on academic probation for one semester. A student who incurs academic probation for two consecutive semesters or who incurs academic suspension for any semester shall be reported to the VA regional office as making unsatisfactory progress. VA benefit payments will be terminated due to unsatisfactory progress. A student whose benefits are terminated because of unsatisfactory progress, and who is permitted to re-enroll in the University, must apply to the Veterans Administration to request reinstatement of educational benefits.

Regulations for International Students (A.05.02)

Scope

International Students in F-1 Student Visa Status.

Purpose

To outline requirements for international students in F-1 visa status. This is not an exhaustive list of related federal and University policies.

Policy

In addition to complying with the general academic regulations of the University, nonimmigrant students in F-1 student visa status must follow the regulations in this policy. Students are responsible for consulting the Office

of International Services and Study Abroad (OISSA) and to understand and comply with all applicable requirements in order to maintain their lawful status. Failure to comply with federal regulations may result in violation of their F-1 status.

01. Full-Time Enrollment

F-1 status international students are required to maintain a full-time enrollment status each fall and spring semester (12 hours undergraduate or 9 hours graduate1 with exceptions for programs listed in A.02.022) and make normal academic progress in their academic program. Students beginning in a summer session must enroll full-time in their initial summer session at UST. No more than one online course or three credit hours can be counted towards their enrollment minimum each semester. International students must obtain authorization from OISSA for an eligible reason before dropping below a full-time course load, taking a leave of absence from their program, or withdrawing from the University. If a student takes only one course in the last semester, it cannot be online.

02. In-Person Attendance Requirement for Hyflex Courses

Unless otherwise specified by federal regulations, international students holding F-1 student visas are required to attend class regularly and in-person in the physical classroom and cannot attend class in a fully online modality.

03. Employment Authorization

Enrolled F-1 students are eligible to work on-campus for up to 20 hours/week during spring and fall semesters. More than 20 hours/week is permitted during official school breaks. They may not work off-campus without prior authorization from OISSA or the U.S. Citizenship and Immigration Services.

04. Reporting Requirement and Timely Requests

F-1 International students are required to provide updated physical address, phone number, major and minor to OISSA within 10 days of change. Students must reply to OISSA's requests for information and documentation and submit any necessary requests to OISSA in a timely manner.

05. Health Insurance

All F-1 international students are required to enroll in the University's international student health insurance plan unless they already have health insurance that meets the waiver requirements and obtain approval for a waiver.

Definitions

Credit hours is the unit of measurement for academic work is the credit hour, representing fifty minutes of class lecture or contact time per week for one semester. Two to four laboratory clock hours are usually required for earning 1 credit hour in a laboratory course.

Distance education is a formal educational process that uses one or more technologies to deliver instruction to students who are separated from the instructor and to support regular and substantive interaction between the students and the instructor synchronously or asynchronously.

A *distance education course* (i.e., online course) is defined as one in which the instructional content is delivered exclusively via distance education.

A *distance education program* (i.e., online program) is a program for which all the required coursework for program completion is able to be completed via online courses.

A *hybrid course* is defined as one in which a minimum of one third (but less than 100%) of instructional content is delivered via distance education.

A *hyflex course* is defined as a live course that is also streamed live on the Internet. Students may be in person or remote.

APPROVED: Dr. Richard Ludwick
Date of Original Formation: 09/01/2010

Revision Date: 02/09/2024
Effective Date: 12/20/2024

Academic Warning Analyses (RV)

The University is concerned when students perform at a deficient level. The Academic Warning Notice was developed to help students in academic difficulty. Faculty members at the University of St. Thomas can now provide interventions to these students through an online referral process known as Academic Warning Notices. Notices can be completed at any point of the semester, but can be especially relevant during the weeks close to midterm examinations. A faculty member completes an online form detailing reasons for the academic difficulty, such as performance or behavioral concerns or deficient skills, and recommends actions for improvement. Once submitted, Academic Warning Notices are emailed to the student, the student's academic advisor, and the referring faculty member for follow up. Academic Warning Notices do not become a part of students' permanent records but provide information and awareness so that they may address their difficulty and aid in our campus retention efforts.

Course Scheduling (RV)

Since the majority of graduate students are professionals, the majority of graduate courses are offered in evening. Most courses are offered at least one time during a two-year period.

Employment (RV)

On-Campus

F-1 visa holders do not require authorization from our office in order to work on-campus and are eligible to apply the moment they arrive. Work is limited to 20 hours/week while school is in session; more than 20 hours/week is permissible during school breaks and the summer semester.

Curricular Practical Training (CPT)

Eligibility:

Students must have been lawfully enrolled as a student on a full–time basis (graduate 9 credit hours) for at least one academic year. This means that you must have completed at least two semesters during which you should have established and maintained good F–1 status. If your program requires immediate participation, there are exceptions for some graduate students.

Restrictions:

CPT consisting of 20 hours or less per week is considered part–time. Any employment over 20 hours per week is considered full–time. Students who engage in one year (12 months cumulative) or more of full–time CPT are automatically ineligible for Optional Practical Training (OPT).

For more information regarding CPT, please see an International Student Advisor.

Optional Practical Training (OPT)

What is it?

Optional Practical Training (OPT) grants an eligible F-1 student an opportunity to work full-time for twelve consecutive months (anywhere in the U.S.) in a field that is related to their degree program at each degree level (Bachelors, Masters and Ph.D). Students remain in F-1 status at the University of St. Thomas even though they may be working elsewhere in the U.S. Students with only their thesis option left should consult with an International Student Advisor.

Eligibility

Like CPT, students must have been lawfully enrolled as a student on a full-time basis (graduate 9 credit hours) for at least one academic year. This means you must have completed at least two semesters during which you have established and maintained good F-1 status. If you have completed 12 months of full-time (more than 20 hours/week) CPT you become automatically ineligible for OPT.

Veterans Readiness and Employment (RV)

The Texas Rehabilitation Commission offers assistance for tuition and required fees to students having certain physical or emotional handicaps, provided vocational objectives selected by the handicapped persons have been approved by appropriate representatives of the commission. Through this state agency other rehabilitation services are available to assist handicapped persons to become employable. Applications for assistance should be made to the nearest rehabilitation office.

GI Bill®

GI Bill® is a registered trademark of the U.S. Department of Veterans Affairs (VA). More information about education benefits offered by VA is available at the official U.S. government Web site at https://www.va.gov/education/about-gi-bill-benefits/.

Study Abroad Programs

University of St. Thomas's study abroad programs extend learning beyond the classroom and country borders. As they journey through the world, the program participants discover diverse cultures, create lasting friendships, gain a global perspective and discover their purpose. We offer programs at various destinations and for all undergraduate majors. There are two types of programs as detailed below. For more information, please refer to www.stthom.edu/studyabroad or contact studyabroad@stthom.edu.

Individual Exchange Programs

UST's Individual exchange programs allow undergraduate students to study for one semester or for an academic year at one of UST's partner universities abroad. We have partnerships with universities around the world and the current list can be found at www.stthom.edu/studyabroad. Although some local language proficiency is encouraged, it's not required at most of our partner universities as they offer courses in English. Courses taken at partner universities are considered in residence at UST and the grades are posted to equivalent UST courses. Students continue to pay UST tuition and fees during the exchange programs and the programs don't impact their existing financial aid. At least one year of study at UST, good academic standing and good disciplinary standing is required to apply. Participating students are responsible to consult with their financial aid advisor to plan financially for their study abroad programs. A study abroad advisor will advise students on additional study abroad scholarship opportunities. While opportunities for graduate students are limited, some may be eligible for some exchange programs.

Faculty-Led Group Programs

The University of St. Thomas offers numerous opportunities each year for students to study abroad with their fellow UST students as part of a course. Some faculty-led programs offer graduate courses. These programs are led by UST faculty members, usually last 1-3 weeks, and occur during the winter break, spring break, or the summer. They consist of on–campus course requirements prior to departure as well as lectures and excursions abroad. The faculty-led study abroad course offerings and their locations vary from year to year. Students are responsible for the course tuition that is typically included in the flat rate tuition for fall and spring semesters and the determined trip cost for each program. Eligibility include good disciplinary standing and any applicable course pre-requisites. Visit www.stthom.edu/studyabroad to view the current list or contact studyabroad@stthom.edu.

Certification, Certificate, Continuing Education Units, and Workshops and Speakers

Definitions

Certification

A certification is a credential offered by an external body to the University to our students or other constituents (it can be offered formally or informally through the University, yet it belongs to an external body): For example, Cisco certification would be offered through Cisco to our students or to others; the certification will come from Cisco, and Cisco will house the record of the earned credential.

Certificate

A certificate is a focused, structured, and interrelated set of courses that enhances the undergraduate/graduate experience in an emerging academic area, addresses a professional development need, or provides preparation for a degree program. A certificate is an internally generated credential from a department or school within the University of St. Thomas, is credit bearing, and resides on the academic transcript.

Continuing Education Unit

A Continuing Education Unit (CEU) is a unit of instruction defined as “contact hours of participation in an organized continuing experience under responsible sponsorship, capable direction, and qualified instruction” (IACET 2017). Continuing education units are maintained through the Registrar’s Office and are recorded on a co-curricular or CEU-specific transcript separate from the academic transcript. The university follows AACRAO guidelines for the transcription of continuing education credit.

Workshops and Speakers

A workshop is a meeting in which a university department, school, or recognized UST club or organization offers material through speakers, activities, and discussion to achieve knowledge or skills in a particular subject or project. Speakers are those who present at a workshop or lecture hosted by a department, school, or recognized UST club or organization.

Guidelines for Certificates

1. Certificate students are not eligible for participation in the Commencement ceremony or similar graduation ceremonies.
2. All certificate program applicants must follow the standard admissions requirements for the school and career to which they are being admitted to enroll in the certificate program.
3. There is no minimum or maximum credit hours applied to a certificate program. This decision in the case of each certificate is decided by the parenting program for the certificate but must be reviewed and approved by the Chair and Dean responsible for the program. In other words, the total number of credit hours is decided by the school responsible for the certificate program.

4. Transfer credit hours may apply to a certificate program. The percentage of credit hours applied may be the decision of the school responsible for the program but must be approved by the Dean of the School and reviewed by the VPAA, both who hold veto authority.
5. A certificate is a stand-alone credential. For clarification, concentrations and tracks are areas of specialty that reside within a degree program. A concentration is 12 credit hours for undergraduate work and nine credit hours for graduate work, while a track is nine credit hours for undergraduate work.
6. Courses taken as pass/fail in a certificate program cannot be used to substitute for similar graded courses in a degree-seeking program.
7. Since certificates are considered a type of degree, any additions/changes/deletions to certificates are approved through the relevant curricular approval body (i.e., Undergraduate Curriculum Committee, Grad Council, Max Guiding Coalition).
8. There are no SACSCOC concerns or considerations.

Academic Standards

Good Academic Standing GRAD (A.02.10 NGP)

Students who perform at a deficient level may be placed on probation or be dismissed from the University. Students are placed on probation to allow them to refocus their attention and activities to correct their deficiencies. If students do not correct their deficiencies, they may be dismissed from the University. Students who manifest severe deficiencies in their performance may be dismissed without having been on probation.

Graduate students must maintain a cumulative GPA of 3.00 or better in their course work at UST (excluding the School of Theology). Students whose cumulative GPA falls below 3.00 will be placed on academic probation. Students who are on academic probation must earn a minimum 3.00 semester GPA on course work each subsequent semester until the grade- point deficiency is removed. Only course work taken at UST will be applied toward the grade point deficiency. Grade changes made for students on probation will not affect the academic standing for that semester. Students who leave the university on academic probation will be readmitted on academic probation. Academic probation will be posted to the semester in which the cumulative GPA falls below 3.000 and will begin with the first class meeting of the next semester. Academic probation will be noted permanently on students' academic records.

The Registrar will notify the student's academic advisor that the student is on probation. A probation hold will be placed on the student's myStThom account that will be released by the advisor. Students on academic probation may be required to carry a restricted course load and/or repeat courses as well as perform other activities prescribed by the advisor or dean to address deficiencies. Students unwilling to accept the conditions of their probation will be dismissed. The academic advisor will make recommendations to the appropriate dean or the Registrar concerning the student's compliance with the learning contract and the need for dismissal.

Students who have manifested severe deficient performance may be dismissed from the University. Students who are on academic probation and earn less than a minimum 3.00 semester GPA will be dismissed from the University. During academic dismissal, students may not enroll, audit or visit classes at the University. Academic dismissal will be noted permanently on students' academic records.

Students may also be dismissed if they are on probation and are unwilling to accept the conditions of their probation or do not conscientiously fulfill the conditions of their probation. On these matters the student's academic advisor will make recommendations to the dean or the Registrar.

Other reasons may justify dismissal, including academic dishonesty and violating certain norms of conduct expected of students. (See Student Handbook published by the Office of Student Affairs.)

A student who has been dismissed for academic reasons may apply for readmission to the University after one year. The dean of the student's school will review readmission applications and sets the conditions for readmission. These may involve the student taking only prescribed courses or a limited load. In all cases the student will be readmitted on a conditional basis and on probation. The student's academic advisor will monitor the student's progress in meeting the conditions of readmission set by the dean.

Records and Transcripts (A.03.01 NGP)

Scope

All Undergraduate Students.

Purpose

To define policy pertaining to academic records and transcripts.

Policy/Procedure

Students admitted to the University with incomplete academic files must complete their files before October 15th for the fall semester and March 15th for the spring semester. Those who fail to comply with this requirement will be denied registration for subsequent semesters until the files are complete.

Records

The Registrar of the University is responsible for maintaining official student educational records.

Changes to Academic Records

A student who questions an enrollment record (including a grade) as recorded in the Office of the Registrar has a period of one year from the date in which the course was completed to challenge its accuracy. At the end of one year the permanent record will become the absolute record, and changes may not be made.

Student Access to Records

Students wishing to review their educational records must make written request to the Registrar via the FERPA – Request to Inspect and Review Education Records form found on the mySTThom student portal (UST Resources > Student Documents > Forms > Registrar), listing the items they wish to review. Only records covered by the Family Educational Rights and Privacy Act of 1974 will be made available. The Registrar will respond within 45 working days of receiving the written request.

Transcripts

Requests for official transcripts must be made online through our third party vendor, Parchment. Official transcripts are not released without the student's consent. The processing of a transcript request normally takes two working days and is generated at a cost of $11.25 for each official transcript, to be paid at the time of the request. No transcript will be released if a University hold that prevents its release exists on the student's record. To be official, paper transcripts must bear the signature of the Registrar and be printed on official transcript paper, and the envelope seal must not be broken. Digital transcripts will be digitally certified by and sent through Parchment. Only official transcripts are sent outside the University.

Graduate Degree Requirements (A.04.03)

Scope

All graduate students.

Purpose

The University of St. Thomas awards the following graduate degrees:

- Master of Arts
- Master of Business Administration
- Master of Divinity
- Master of Education
- Master of Fine Arts
- Master of Healthcare Administration
- Master of Liberal Arts
- Master of Public Policy and Administration
- Master of Sacred Music
- Master of Science
- Doctor of Education
- Doctor of Nursing Practice
- PhD in Philosophy

This document describes general policies on minimum degree requirements and allowable credits for these graduate degrees. Degree requirements for specific graduate programs are managed by that program and may be different from the minimum requirements described here.

Definitions

SACSCOC defines an academic program as “a credential as defined by the institution" *(from notes on SACSCOC Standard 8.2a in the SACSCOC Resource Manual for the Principles of Accreditation)*. An academic program is a combination of courses and related activities organized to achieve specific learning outcomes defined by the university and ‘leading to a for-credit credential including a degree, diploma, certificate, or other generally recognized credentials’ *(from Appendix B: Glossary of Terns in the SACSCOC Resource Manual for the Principles of Accreditation).*

A graduate degree program consists of a coherent body of study beyond the baccalaureate degree that includes a meaningful progression of coursework and, for most programs, includes a final culminating experience or an integrated experience across the curriculum. Examples of culminating experiences include a thesis, dissertation, or other creative work, capstone project, comprehensive examination, or supervised field experience. Integrated learning experiences connect concepts and experiences across the curriculum to form a meaningful whole.

Policy

01. Requirements for Graduate Degrees

- Graduate degree requirements consist primarily of graduate-level coursework at the 5000 level and above.
- A minimum cumulative grade point average (GPA) of 3.00 is required to earn a graduate degree.

- Students seeking a graduate degree will ordinarily follow the degree requirements of the catalog in effect at the time of their first matriculation into the University, or they may follow the requirements of any subsequent catalog in effect during their continued enrollment. Students who leave the University for four or more consecutive regular semesters (fall and spring) and subsequently re-enroll must follow either the degree requirements of the catalog in effect at the time of their re-enrollment or the requirements of any subsequent catalog in effect during their continued enrollment.
- Ordinarily, a student must follow all the requirements of the catalog chosen. Exceptions may arise if program requirements must be revised to implement new educational standards recommended or required by federal or state agencies, professional societies, or the University's faculty.
- At least one-third of the credit hours required for the graduate degree must be earned through instruction offered by the University of St. Thomas.
- Students must file for graduation the semester prior to graduation via myStThom. The Office of the Registrar will post the dates by which a graduating student should file for graduation.
- All financial obligations to the University must be satisfied before the University issues a diploma to a student.

02. Additional requirements for Master's Degrees

In addition to the requirements listed above (in 1) that apply to all graduate degree programs:

- Master's degree programs must include a minimum of 30 credits. A master's program may require more than this minimum.
- A student must complete all work for the master's degree within six years of first enrollment. Periods spent on leave or out of status are included in these limits. Exceptions to time to degree will be made at the program level.

02.1 Additional Master's degree

- A student who already holds a graduate degree from the University of St. Thomas may be required to complete as few as 24 hours to obtain a master's degree. The specific number of hours required will depend upon the specific courses completed in the prior graduate program and the specific requirements of the second degree (between 24 and 60 hours).
- Students planning to earn an additional Master's degree should consult the appropriate department chair to develop a degree plan before first registration at the University.

School of Education and Human Services Doctor of Education Program (EdD) Student Handbook

Revised July 2023

The Mission

Faithful to the mission of the University of St. Thomas and the core Basilian values, the Doctor of Education Program is rooted in the Catholic intellectual tradition and the dialogue between faith and reason, tradition and modernity, and theoretical and practical concerns, UST's EdD program provides virtue-based leadership training grounded in life-long character formation developed in a supportive and collaborative community driven by an authentic notion of human flourishing and the principles of Catholic social teaching and fidelity to the Catholic Magisterium and the principles of *Ex Corde Ecclesiae*.

The Program

The EdD program is a three-year, year-round, full-time, multi-track, Saturday-only, online, and in-person program. Cohorts of 25 students are admitted for a summer start. Applicants will have a master's degree, professional experience, and a commitment to academic research and writing. Targeted students will be from the following fields: education, non-profit, corporate, human resources, medical, law and law enforcement, and student affairs.

The Degree Plan

Five Concentrations

- Educational Leadership
- Higher Educational Leadership
- Strategic Leadership
- Human Resources Leadership
- Law, Society and Criminal Justice

The Core (42 Credit Hours)

EDUC 8362 Qualitative Methods
EDUC 8361 Quantitative Methods
EDUC 8364 Mixed Methods
EDUC 8363 Statistics
EDUC 8366 Philosophical Foundations
EDUC 8351 Leadership and the Soul
EDUC 8354 Social Justice
EDUC 8369 Interdisciplinarity and Leadership
EDUC 8357 Administration I
EDUC 8358 Administration II
EDUC 8380 Dissertation Introduction
EDUC 8384 Dissertation Completion (9 Credit Hours)

Educational Leadership

EDUC 8352 History of Education I
EDUC 8356 History of Education II
EDUC 8367 Law and Leadership
EDUC 8359 Organizational Change

Higher Educational Leadership

EDUC 8334 Assessment and Evaluation of Programs
EDUC 8367 Law and Leadership
EDUC 8336 Theories, Models and Practice of Student Services
EDUC 8337 Foundations of Leadership in Higher Education

Strategic Leadership

EDUC 8339 Models of Leadership
EDUC 8338 Strategic Management
EDUC 8359 Organizational Change
EDUC 8367 Law and Leadership

Human Resource Leadership

EDUC 8333 Theory and Function of Human Resources
EDUC 8332 Staffing and Succession Planning
EDUC 8331 Human Capital and Strategy
EDUC 8335 Human Resources and Law

Law, Society, and Criminal Justice Leadership

CRIM 8350 Philosophy of Criminal Justice
CRIM 8352 Advanced Criminology
CRIM 8354 Public Policy and Social Justice
CRIM 8356 Victimology and Social Justice

Admissions Requirements

Admission will be granted on a competitive basis. Candidates will be admitted who meet the academic qualifications and have a professional background that demonstrates a strong potential for success. Furthermore, they must exhibit an appropriate disposition and express a commitment to character-based leadership and the principles of Catholic education, in addition to meeting the following requirements:

- An online EdD application
- A baccalaureate degree and master's degree from accredited institutions with a GPA in graduate study of 3.25 or above
- Official transcripts of all undergraduate and graduate work
- Professional CV/resume describing prior work experiences
- Two recommendation letters
- A 500-words written essay
- An interview with one or more EdD program faculty members may be included in the admission process

Additional Requirements for International Students

- Completion of the equivalent of a four-year bachelor's degree and a two-year master’s degree from a regionally accredited institution (course work taken at technical or non-university affiliated institutions may not be considered for academic credit), with transcripts officially evaluated.

- School or university must be officially recognized by the Ministry of Education in the applicant's home country as a degree-granting institution
- Transcripts written in a language other than English must be accompanied by an official translation
- International students are responsible for satisfying visa requirements
- Submission of official scores from the Test of English as a Foreign Language (TOEFL) with a minimum score of 90 (Internet-based test) or 580 (paper-based test)
- F1 Visa students, due to government regulations, must attend all classes in person

Deadline

The deadline for submission of all applicant materials for review is May 1 for the summer start, though applicants are encouraged to submit materials early to ensure consideration for admission and to pursue potential financial aid and scholarship opportunities.

Transfer Credit

Two non-research methods doctoral-level courses (not exceeding 6 credit hours) taken as a matriculated student from a regionally accredited institution five or fewer years prior to admission with a grade of "B" or better may be transferred into the program, subject to the approval of the Program Director. Certification coursework taken beyond a master's degree will not be considered for transfer. Transfer credits must be approved by the Director at the time of admission and align with the program.

Employee Applicants

Employees seeking to apply for the EdD should reference the policies in the Tuition Remission Benefit Handbook. Due to the high demand and limited availability in the capped cohorts, "admissions will give priority to applications from paying students who are applying for master's level programs, doctorate programs or high-demand undergraduate programs over applications from employees who have applied for a tuition remission education benefit." (no.3) If space remains for employee applicants, the below procedures, approved by Grad Council, will be followed for all qualified applicants, both new prospective students as well as those already enrolled in the program.

Employees will be interviewed by the SEHS Dean and the EdD Program Committee no earlier than April 15 and receive a decision no later than May 15 will be given no access to the reasoning of the committee's decision. Employees will be assessed on speaking, writing, disposition, academic and professional experience, and adherence to mission.

Program Requirements

Expectations

- Minimum GPA of 3.0 for graduation
- Minimum of 2.7 for research courses
- Courses with substandard grades (D or F) must be retaken within one calendar year at student's expense (may include retaking a course as an independent study)
- Probation will result for any of the following reasons:
    - Substandard grade in any course (D or F)
    - Failure to make up a substandard grade within one calendar year
    - GPA below 3.0

Grading Policy

The UST grading policy for the EdD program is as described in the UST Graduate Catalog. As noted there, "Graduate students must maintain a cumulative GPA of 3.00 or better in their course work at UST. Students who have completed nine UST semester credit hours and whose cumulative GPA falls below 3.00 will be placed on academic probation."

Incomplete Grading Policy

A grade of Incomplete ("I") may be given at the discretion of the instructor to students who are making satisfactory progress in a course but will not be able to complete course requirements by the end of the term. Incompletes are typically given for emergency situations which prevent the student from completing course requirements.

The University of St. Thomas maintains a policy in regards to petitioning for an Incomplete grade ("I"). The complete policy is available to all students online. Policies regarding probation and dismissal are also accessible in the graduate catalog. The process for management of probation is described below. The EdD program allows students to formally appeal dismissals by submitting the Academic Dismissal Appeal Form with supporting documents to the Graduate Program Chair. The Appeal will be reviewed by the EdD Program Committee.

University Academic Policies

UST provides comprehensive information on Academic Policies that apply to all graduate students, and thus to the EdD students. These are available online in the UST Graduate Catalog and include policies on the following topics. Students are advised to access this information and the Graduate Program Chair provides direction and guidance regarding the implementation of these policies within the EdD Program.

- Student Complaints
- Academic Integrity Policy
- Academic Warning
- Academic Probation
- Academic Dismissal
- Repeating Courses
- Incomplete Grade Policy
- Adding, Dropping and Changing Classes
- Withdrawal (Including Medical Withdrawal)
- Absences from Final Exams
- Academic Record Changes
- Student Access to Records

Grievance and Complaint Procedure

Grievance on the part of any student will be processed as described in the University of St. Thomas Graduate Handbook and Graduate Student Grievance Procedures available at the University of St. Thomas School website. This includes but is not necessarily limited to grievances pertaining to probation, dismissal from a graduate program, or improper handling of financial aid. Allegations of discrimination or sexual harassment will be handled according to the Office of Equal Opportunity.

Academic Probation

The Registrar will notify the Director that the student is on probation. A probation hold will be placed on the student's myStThom account which can be released by the Director, who will meet with the student and develop a learning contract for the student to remediate the deficient academic performance. Students on academic probation, to address deficiencies, may be required to repeat courses at their own expense. Students unwilling to accept the conditions of their probation will be dismissed. The Director will notify the

Registrar concerning the student's compliance with the learning contract and the need for dismissal. As noted above, the student can formally appeal a dismissal by submitting the Academic Dismissal Appeal Form with supporting documents to the Graduate Program Chair. The Appeal will be reviewed by the EdD Program Committee.

Academic Dismissal

Dismissal from the EdD program can result from substandard performance as determined by the Director. The following reasons can serve as grounds for initiating procedures for academic termination: unsatisfactory progress, poor academic performance, failure to remediate, excessive time in completing degree requirements, and poor disposition.

Leave of Absence

Because the program is sequential, any breaks in study are disruptive. Under special circumstances, with the approval of the Director, graduate students may apply for a one-year leave of absence and return with the next cohort where they left off in the program. Leaves of less than one year are prohibited. Assuming appropriate documentation is provided, the circumstances justifying a leave include but are not limited to personal or family medical conditions, call to active military duty, maternity leave, or death in the immediate family. The rationale must be documented by the applicant using the official University form.

Readmission

A student who has not been granted a leave of absence and who fails to register for coursework for a period of three years will be dropped from the program and cannot petition for reinstatement. In this case, the student must reapply through the normal admissions process to gain admission to the program. Readmission does not change the student's original entry date. Time to degree will be calculated from date of first entry.

Reinstatements

Students who have not been registered for at least one graduate credit hour at UST that contributes to degree requirements (as determined by the graduate program) in an academic year are considered inactive. To regain active student status, students may petition the EdD Director for reinstatement. Additionally, students will need to apply for reinstatement and pay reinstatement fees to continue their degree. Reinstatements are available to students who have been inactive for up to three years. Students who have not been enrolled for any credits in their graduate program for a period longer than three consecutive years are not eligible for reinstatement and must apply for readmission to the university.

Receipt of Handbook and Policies

Each student must sign the official form indicating they have read and accept the procedures, policy, and guidelines presented in this handbook.

The Dissertation

The EdD dissertation is an original scholarly research document that addresses a problem of practice. It is traditionally divided into five chapters.

1. INTRODUCTION: The Introduction overviews the purpose of the study by stating the problem, detailing the background of the problem, and the significance of the study. Moreover, terms are defined, and assumptions and limitations are clearly explained, and the chapter provides a summary of results and their implications.
2. LITERATURE REVIEW: This chapter seeks to conduct an overview of the relevant literature on the topic (either chronologically, historically, theoretically, or thematically), analyzing strengths and weaknesses and synthesizing key insights.

3. RESEARCH METHODOLOGY: This chapter focuses on the methodology employed in the study (qualitative, quantitative, or mixed methods) and discusses the research design, research questions, data collection, participants, and analysis.
4. RESULTS AND ANALYSIS: This chapter discusses in detail the results of the student's research, using statistics, tables, charts, and graphs to describe and summarize key findings to arrive at actionable conclusions.
5. DISCUSSION AND CONCLUSIONS: This chapter provides a summary of findings to illustrate the importance of the study and discuss implications, strengths, and weaknesses, as well as offer suggestions for future research and recommendations for the practical application of the study.

The Chair and Committee

Students will be assigned a dissertation Chair according to the needs of their topic at the beginning of the Year 2 Fall semester. The Chair will guide the dissertation process, setting timelines, reading drafts, and making edits and substantial suggestions.

The dissertation committee consists of a minimum of three UST full-time faculty members. An (external) academic with appropriate experience outside UST may become a committee member if recommended in writing with an attached CV and approved by the Director. The committee will convene twice during the dissertation process, at the proposal and defense.

The Director of the EdD has final authority to recruit and approve chairs to ensure they have the appropriate expertise and the ability to serve throughout the dissertation process. Subject-related matches will be attempted by the Director as much as possible. Students should follow the APA style guide, which will be discussed in EDUC 8380 Dissertation Introduction.

Students will take EDUC 8380 in the Spring semester of Year 2, followed by three sequential semesters of EDUC 8384 Dissertation Completion (9 total Credit Hours) in Year 3. EDUC 8384 is a pass/fail research course in which students work with their Chairs to write all five chapters of the dissertation from proposal to final defense. Students who fail EDUC 8384 Dissertation Completion for any reason, including lack of progress or substandard work, will be required to repeat it at their own expense, thus delaying graduation. Students may not finish early and are required to have 9 Credit Hours of EDUC 8384.

Academic Honesty Policy

Every offense against academic honesty seriously undermines the teaching-learning process for which the University exists, and such offenses will be dealt with expeditiously according to the following criteria:

Definition: Academic dishonesty includes but is not limited to:

- Cheating on an examination or test; for example, by copying from another's paper or using unauthorized materials before or during the test.
- Plagiarism, which represents as one's own the work of another, whether published or not, without acknowledging the precise source.
- Knowing participation in the academic dishonesty of another student, even though one's own work is not directly affected.
- Any conduct which reasonable persons in similar circumstances would recognize as dishonest in an academic setting.

The penalty for an incident of academic dishonesty is, at the discretion of the faculty member, either a mark of zero for the work in question or the grade of "F" for the course.

Procedures for cases of Academic Dishonesty

Faculty who considers that they have a valid case of academic dishonesty against a student must inform the student of the charge and penalty in writing, using the Report of Academic Dishonesty Form available from the Registrar. The faculty member will inform the student no later than the date when course grades are due for the semester or other academic session. If necessary, the faculty member will send the student a copy of the report by certified mail. The student has the right to appeal the facts of the charge but not the penalty.

Procedure Without Appeal

- The original signed report will be submitted for the record to the Registrar, who will keep it in a locked confidential file until the student graduates.
- The case will be treated as a matter of deferred adjudication; only when the student graduates, will the record be expunged.

Course Descriptions

CRIM 8350 Philosophy of Criminal Justice
Focuses on general questions about the criminal justice system: what is the nature and proper scope of the criminal justice system? How should the criminal justice system enforce laws? Why do societies punish and is it effective? What is the philosophy of social control? Examples of criminal justice initiatives are related to the theories studied.

CRIM 8352 Advanced Criminology
Examines the criminological, criminal justice and administration of justice theories. Includes an analysis of the interrelatedness of justice theories and recent theoretical developments.

CRIM 8354 Advanced Public Policy and Social Justice
Explores different approaches to public policy and analysis, the diverse conceptions of the goals and objectives that should be served by policy, and the appropriate role of the policy analyst. Policy consequences are addressed as to indirect and/or subtle incentives and disincentives. Special attention is devoted to applying Catholic social justice to contemporary developments in law enforcement, corrections and judicial policy and planning.

CRIM 8356 Victimology and Social Justice
Examines patterns and trends in victimization. Identifies the categories of people facing the greatest risks and assesses victim-blaming arguments that invoke facilitation, precipitation and provocation. Analyzes the handling of street crime victims by the criminal justice system and explores Catholic social justice in the fair treatment, empowerment in decision making, restitution and compensation.

EDUC 8331 Human Capital Strategy
This course examines the external challenges and trends facing contemporary human resource management and the importance of aligning human resource strategy, goals, performance, and budget with organizational strategy, values, and culture. Students will examine the role of HR in an organization’s competitive advantage and sustainability and the relationship of human capital management with long-term strategic success.

EDUC 8332 Staffing and Succession Planning
This course examines the process of identifying, retaining, and developing talent to accommodate organizational growth and restructuring as well as employee separation, promotion, and retirement. Key themes discussed are training, development, career planning and management, and replacement management.

EDUC 8333 Theory and Function of Human Resources
This course examines and overviews current methods and practices of human resource management and the importance it plays in organizational competitiveness, effectiveness, and sustainability. Attention will be given to central issues such as recruitment, selection, training, evaluation, compensation, and retention.

EDUC 8334 Assessment and Evaluation of Programs
This course examines the purpose and practice of assessment as well as the central issues relating to quality assurance, improvement, and the alignment of policy and mission to the evaluation and assessment of academic and non-academic programs. Data management, accreditation, programmatic alignment, and the development of outcomes and measures will all be examined.

EDUC 8335 Higher Education Leadership and Law
Legal issues relating to higher education leadership are examined, including those regarding students, administration, and faculty. Important aspects of federal and state law to provide students with basic concepts and vocabulary of higher education legal issues, including contract law, employment law, obligations and workplace rights, conflict management, dispute resolution, and employee benefits.

EDUC 8336 Theories, Models, and Practice of Student Affair
This course focuses on various theories and models of leadership in student affairs as well as key issues relating to student engagement and success, including the development and oversight of programs and services as well as resource management, enrollment, advising, and counseling.

EDUC 8337 Foundations of Leadership in Higher Education
This course examines the history of higher education leadership and administration in the United States as well as philosophies that have guided it the development and evolution of institutions. Students will analyze contemporary challenges and trends.

EDUC 8338 Strategic Management
Strategic management is the process of setting goals, procedures, and objectives in order to make a company or organization more competitive and innovative. Strategic management has a history that dates to antiquity. Students in this course gain knowledge about strategic management and leadership by studying historical examples of successful and unsuccessful organizational strategies period this course examines the evolution of strategic management in the 19th, 20th and 21st centuries.

EDUC 8339 Models of Leadership
This course examines key theoretical problems regarding leadership that have occupied moral and political thinkers from Plato and Aristotle to St Thomas Aquinas and the American Founders: The second half of the course will look at leaders in action, charting the efforts of politicians, intellectuals, grassroots activists, and moral and spiritual leaders to respond to the challenges of their time and shape the worlds in which they live.

EDUC 8351 Leadership and the Soul
Leadership and the Soul examines the spiritual dimension and impulse of leadership in the modern era. Tying in anthropological themes introduced earlier in the program, both primary and secondary texts include treatments of various attempts at integrating spirituality into education (such as the Ignatian notion of education and the work of Elizabeth Anne Seton), relevant Catholic encyclicals, as well as American movements like the Puritan schools and the foundation of Ivy League institutions. Various leadership models and styles are examined that highlight the spiritual dimension of leadership.

EDUC 8352 History of Education I
This course examines the historical roots of Christian education beginning with development of ancient Greek

schools through the Renaissance to the Enlightenment. Figures and movements include Augustine, the development of the school at Aachen, the cathedral schools, and the rise of the liberal arts to the French encyclopedists.

EDUC 8356 History of Education II
This course is an exploration of the history of education in America from the colonial era to the present day, focusing on key payers, essential movements, and underlying philosophical concepts.

EDUC 8758 Administrative Leadership 2
This course examines the management of finance and facilities. Topics include developing and overseeing a budget, financial forecasting, maintaining, and developing streams of revenue. Also, students will study facilities management, needs assessment, and construction management, and learn to assess and address other administrative, financial, and facility needs.

EDUC 8359 Organization Change
This course focuses on how organizations change and the role of leadership in organizational transformation with an examination of models and causes of change. Institutional analysis and the mobilizing of resources are treated as well as the nature of institutions themselves. Especially emphasized are the change implementation process, necessary leadership qualities, and the leadership theory that undergirds change, both institutional and individual.

EDUC 8361 Quantitative Methods
This course focuses on descriptive and quasi-experimental methods design with mention of experimental design. Students learn the purpose, appropriate research questions and hypotheses associated each method, and strengths and weaknesses of each method.

EDUC 8362 Qualitative Methods
This course examines the qualitative strategies of inquiry (case study, participatory action research, interpretive practice and social action, grounded theory, narrative theory, ethnography, clinical research) and acquaints students with various qualitative designs and methods. The course will familiarize students with the debates around qualitative inquiry; address ethical dimensions of doing qualitative studies; and students will explore methods for collecting and analyzing qualitative data by conducting a small-scale study.

EDUC 8363 Statistics
This course provides a survey of fundamental descriptive and inferential statistics through an introduction of basic concepts and terminology, including chi-square, analysis of variance, Pearson correlation, and regression analysis. Using statistical software as an analytical tool, students investigate educational issues and phenomena applying a variety of statistical methods resulting in understanding the difference between significance and meaningfulness of data.

EDUC 8364 Mixed Methods
This course introduces the student to a way to integrate both quantitative and qualitative methods to study complex research questions that require a multi-faceted, multi-perspective approach. Students learn how mixed methods complement each other and be able apply mixed methods approaches to data collection and analysis.

EDUC 8356 Social Justice
This course aims to introduce students to the Catholic notion of social justice, rooted in Catholic social teaching and the Catholic tradition of theological and political thought, offering comparisons to various secular models. The anthropological foundations of social justice will be stressed, and students will read widely in the tradition, from ancient writers to modern encyclicals.

EDUC 8757 Administrative Leadership 1
This course examines the nature and function of administrative leadership, emphasizing the concept and practice of human relations management through a study of models of organizational culture and administrative leadership. Special attention is paid to the theory of management, as well as conflict, project, and strategic management.

EDUC 8367 Law and Leadership
This course presents an in-depth examination of federal and state law as it relates to both public and private schools. Topics will include basic legal concepts, relevant court cases, identification of resources, and the application of principles to the crafting of policies and procedures.

EDUC 8366 Philosophical Foundations of Leadership
This course examines the nature of the human person, which constitutes the foundation of leadership theory. Students will study the mind, will, passions, imagination, and memory. Central to this study will be the pursuit of virtue and authentic human flourishing. This course draws on the ancient and proved sources of human experience, especially found in the works of Thomas Aquinas.

EDUC 8369 Interdisciplinarity and Leadership
Interdisciplinarity and Leadership examines the complex interplay of experience and formal learning that inform exemplary leadership. Students learn to synthesize learning from a wide array of sources and integrate their learning with their personal experience to make prudent and wise decisions.

EDUC 8380 Dissertation Introduction
In this class, students will be introduced to the EdD dissertation, examining all the major components and stages of the process, including the chapters, IRB and proposal defense and data collection and analysis, as well as APA formatting.

EDUC 8384 Dissertation Completion
In this class, students will work with their chairs to write their dissertations. The What's chair will guide the student through the writing of all five chapters, as well as IRB and proposal defense, data collection and analysis, and final submission and defense.

About UST

The University of St. Thomas (UST) is Houston's Catholic University, committed to the religious, ethical and intellectual traditions of Catholic higher education. For more than 75 years, we've been graduating students like you into successful careers in medicine, education, business, public administration and more – throughout Houston and across the globe.

Our student body reflects the rich diversity of the city itself. We welcome undergraduate and graduate students of all faiths and of no faith.

The campus is located in Houston's Museum District and Innovation Corridor, a diverse and vibrant urban environment with professional opportunities. We're just steps from downtown and the famed Texas Medical Center where many students perform prestigious internships.

Academic Grievance Policy

School of Education and Human Services Masters Program/School Level Policies

The School of Education and Human Services supports the successful progress of all graduate students. If students demonstrate unacceptable progress related to academic or professional dispositions within the graduate program, faculty members will complete a Fitness for the Profession Dispositions Form. This report will be reviewed by the Associate Dean of the Graduate Program and Dean for further recommendation. Appropriate action will be taken if a second report is filed on a student and the Associate Dean of the Graduate Program will convene a Student Hearing Committee to discuss recommendation for program continuance or dismissal.

Academic Standing

A student is considered in good academic standing if a grade point average of at least a 3.0 (B) is maintained each academic semester. At the graduate level, student grades below a 3.0 represent inadequate mastery of course material or requirements. When a student's grade point average falls below a 3.0, he or she is placed on academic probation until the GPA is raised above 3.0. In some situations, this may require re-taking one or more courses to raise the GPA. If the student's grade point average falls below a 3.0 after two subsequent semesters, the student is dismissed from the program. Students must maintain a GPA of 3.0 to graduate from the university.

Grade Appeals

Grade appeals must be made in writing first to the student's professor. If this cannot be resolved at this level, then it is forwarded to the program director or chair. Finally, if this cannot be resolved, it is sent to the Associate Dean of the Graduate Program in the School of Education and Human Services.

Appeals for Policy Waivers

All appeals for policy waivers must be put in writing to the Associate Dean of Graduate Programs in the School of Education and Human Services.

Time Limit

All requirements for the master's Program must be completed within the eight-year time limit. This includes course work and two years' experience in an educational and/or professional setting. Exceptions and waivers may be appealed to the School of Education and Human Services Advisory Council.

Multiple Specializations/Additional MEd Degree

Students holding a UST Master of Education degree and desirous of earning an additional specialization resource area/M.Ed. must complete a minimum of 18 hours or all courses that constitute the resource area, whichever is greater. The second resource area and date completed will be added to the transcript; the original degree conferral date will remain unchanged.

Students holding a Master of Education degree from another accredited college or university and desirous of earning an additional specialization resource area/M.Ed. must complete a minimum of 18 hours or all courses that constitute the resource area, whichever is greater. They must also complete the 6-hour core of two research classes unless they are seeking Educational Leadership only. At the discretion of the program director, up to 6 graduate hours may be admitted in transfer from the prior institution(s) awarding the prior Master of Education degree.

In all instances of a second specialization and/or degree, all coursework included in the new resource area and/or degree must be completed in a maximum of eight years.

Degrees & Certificates

Accounting

Degree Type
Bachelor of Business Administration & Master of Business Administration

Department Chair: John Leavins, leavinj@sttom.edu

The accounting degree program provides a broad–based education and promising employment prospects for future business leaders by equipping students with the business and accounting knowledge necessary to obtain professional positions after graduation, providing a sound knowledge base for continuing progress in the accounting profession, and creating an environment within which students and faculty exchange ideas and critically evaluate the profession and its role in society.

The undergraduate accounting curriculum is designed to provide learning and decision–making skills that will be invaluable throughout the graduate's career. Accordingly, the curriculum incorporates both accounting theory and practice. The BBA prepares students who do not wish to sit for the CPA exam in the following careers:

- Corporate
- Nonprofit
- Government accounting

Students interested in public accounting and planning to take the CPA exam must successfully complete 150 hours of college credit. Our BBA/MBA and Master of Science in Accounting degrees are designed to prepare them to sit for this exam.

Bachelor's Degree Requirements

The following overall requirements are needed in order to earn a bachelor's degree. For a full explanation of the requirements, please see policy A.04.01.

- Completion of the core curriculum. Specific core plan is dependent upon accepted transfer credit, major, and Honor's Program participation.
- Successful completion *of at least* 120 credit hours, with the final 36 hours taken in Residence at UST. Total credits listed on the page only reflect the major.
- Completion of a major.
- Completion of 36 upper-division credit hours.
- A cumulative grade point average (GPA) above 2.0
- A cumulative GPA above 2.0 in your major
- *Freshman* Symposium is a one-credit hour, mandatory course exclusively for first-year students at the University of St. Thomas, introducing them to the UST mission and the Basilian Fathers' core values of goodness, discipline, and knowledge. Freshmen register for it during the Freshmen Registration/ Orientation events and can choose a class that aligns with their interests, with course descriptions provided in advance.

Business Foundation Courses

Course Code	Title	Credits
ACCT 1341	Principles of Accounting I	3.0
ACCT 1342	Principles of Accounting II	3.0
ECON 1331	Principles of Macroeconomics	3.0
ECON 1332	Principles of Microeconomics	3.0
MATH 1353	Mathematics for Economics and Business	3.0
MATH 3332	Elementary Statistical Methods for Economics & Business	3.0
MGMT 2347	Principles of Management	3.0
MGMT 3320	Business Communications	3.0

Business Required Courses

Course Code	Title	Credits
DEIS 4333	Principles of Operations Management	3.0
ECON 3331	International Economics	3.0
FINA 3339	Corporate Finance	3.0
MGMT 4331	Business Law	3.0
MKTG 3343	Principles of Marketing	3.0

Business Capstone

Take during final semester at UST.

Course Code	Title	Credits
MGMT 4399	Senior Seminar	3.0

Accounting Required Courses

Course Code	Title	Credits
ACCT 3332	Managerial Accounting	3.0
ACCT 3333	Income Taxation I	3.0
ACCT 3334	Income Taxation II	3.0
ACCT 3341	Intermediate Accounting: Assets	3.0
ACCT 3342	Intermediate Accounting: Equities	3.0
ACCT 4333	Auditing	3.0
ACCT 4338	Accounting Information Systems	3.0

Accounting Electives

Complete ***3 hours from*** the following:

Course Code	Title	Credits
ACCT 3336	Financial Statement Analysis	3.0
ACCT 4191	Internship in Accounting	1.0
ACCT 4291	Internship in Accounting	2.0
ACCT 4391	Internship in Accounting	3.0
ACCT 4192	Independent Study	1.0
ACCT 4392	Dir Reading/Independent Study	3.0
ACCT 4335	Fund Accounting	3.0
ACCT 4366	Comparative Accounting Practices	3.0
ACCT 4393	Special Topics in Accounting	3.0
ACCT 4397	Fraud Examination	3.0

MBA Requirements

Students pursuing a BBA/MBA will also complete the requirements for the MBA in Business Administration.

	Total Credits	96

AI for Business Leaders

Degree Type
Graduate Certificate

The AI for Business Leaders Graduate Certificate equips working professionals and managers with the strategic, ethical, and practical competencies needed to lead AI initiatives in today's rapidly evolving business environment.

Students explore AI's strategic implications for competitive advantage, examine governance and legal frameworks for responsible AI deployment, gain hands-on experience with AI development and automation platforms, and engage with foundational philosophical questions about intelligence and technology ethics.

Required Coursework

Complete all of the following courses.

Course Code	Title	Credits
PHIL 5397	Philosophy of AI	3.0
MBA 6382	Artificial Intelligence for Strategic Advantage	3.0
MBA 6383	Strategic AI Governance, Law, and Ethics	3.0
ACCT 6335	AI Vibe Development & Automation for Business Leaders	3.0
	Total Credits	12

Applied Data Science

Degree Type
Master of Science

Degree Requirements

Note: MSDS 5301X/5302X are proficiency courses taken only if needed and are not a part of the total degree hours.

Course Code	Title	Credits
MSDS 5301X	Programming for Data Science	3.0
MSDS 5302X	Statistics for Data Science	3.0
MSDS 5311	Introduction to Analytics	3.0
MSDS 5315	Databases and Data Management	3.0
MSDS 6311	Big Data Analytics	3.0
MSDS 5321	Data Science Research Methods	3.0
MSDS 5312	Data Visualization	3.0
MSDS 6331	Machine Learning	3.0
MSDS 5350	Statistical Models	3.0
MSDS 5361	Data and Social Issues	3.0
MSDS 6381	Practicum I	3.0
MSDS 6382	Practicum II	3.0
	Total Credits	30

BA in Biology & MS in Medical Laboratory Sciences Dual Degree

Degree Type
Bachelor of Arts & Master of Science

This BA-MS degree is the product of a partnership between the University of Texas Medical Branch at Galveston (UTMB) and the University of St. Thomas (UST) to create a combined academic pathway for students using a 3+2 format, in which students complete three years of undergraduate coursework at UST to work towards a Bachelor of Arts in Biology, followed by two years at UTMB to finish their Master of Science in Medical Laboratory Sciences.

Overall, the program is designed to facilitate a smoother transition from undergraduate to graduate study while allowing qualified students to earn both degrees in an accelerated timeline and expand their career opportunities.

BA in Biology (UST) + MS in CLS (UTMB)

Overall Description

Each student enrolled in the Program will be required to first attend UST for approximately three (3) years, completing a minimum of 92 semester credits, and then UTMB for two (2) years and completing 85 semester credits. Since 28 hours are transferred from UTMB, students will be completing the "15-29 hour transfer core" = 11 courses (33 hours) plus a Political science class (3 hours) = 36 hours.

Upon successful completion of the first 3 years at UST and acceptance into the UTMB-MLS program, the student enters the combined UST-UTMB BA/MS degree program.

Upon successful completion of the first year at UTMB defined as all grades of B or above and GPA ≥3.0, the student is awarded a BA in Biology from UST. UTMB grants permission to UST to accept any and/or all MLS undergraduate semester credit hours and MSHP 5302 Scientific Writing taken by students under this agreement for the purpose of satisfying BA degree requirements at UST.

Following successful completion of the combined five-year curriculum at UST and UTMB, the student will be granted an MS degree from UTMB in CLS.

Suggested Degree Plan for the Biology (BA) MAJOR 3+2 with UTMB*

This plan allows the student to earn a BA in Biology from UST (92hrs) and an MS in Clinical Laboratory Science from UTMB spending 3 years at UST and 2 years at UTMB.

FRESHMAN YEAR

Fall		Spring	
BIOL 1351/1151 Intro to PopBio and Evol & Lab	4 hrs	BIOL 1352/1151 Introduction to CellMol Bio & Lab	4 hrs
CHEM 1341/1141 Gen Chem I & Lab	4 hrs	CHEM 1342/1142 Gen Chem II & Lab	4 hrs
2 Core	6 hrs	2 Core	6 hrs
Freshman symposium	1 hr		
	15 hrs		14 hrs

SOPHOMORE YEAR

Fall		Spring	
BIOL 3321/3121 Genetics & Lab	4 hrs	BIOL 3333/3133 Microbiology & Lab	4 hrs
CHEM 2343/2143 O Chemistry I & Lab	4 hrs	BIOL/CHEM 3334/3134 Biochemistry & Lab	4 hrs
MATH 1341 Calculus* or 3450 Biostats	4 hrs	3 Core	9 hrs
1 Core	3 hrs		17 hrs
	15 hrs		

JUNIOR YEAR

Fall		Spring	
BIOL 3351/3151 Molecular biology & Lab	4 hrs	BIOL 3345 Physiology	3 hrs
BIOL 3435 Human anatomy & Lab	4 hrs	BIOL 3462/3061 Cell biology & Lab	4 hrs
PHYS 1331/1111 General Physics I & Lab	4 hrs	BIOL 4332 Evolution	3 hrs
1 Core	3 hrs	2 Core	6 hrs
	15 hrs		16 hrs

**MATH 1430 – Pre-calculus algebra and trigonometry if needed.*

Since 28 hours are transferred from UTMB, students will be completing the "15-29 hour transfer core" = 11 courses (33 hours) plus a Political science class (3 hours) = 36 hours.

SENIOR YEAR

Courses from the first year at UTMB (28 hours) will be transferred to UST allowing the student to complete 120 credit hours to earn a BA in Biology from UST.

UTMB Courses to be transferred back to University of St. Thomas*

Undergraduate Semester 1 (Fall)			
CLLS	3200	Basic methods and Introduction to Lab Operations	2
CLLS	3405	Intermediate Pathogenic Microbiology	4
CLLS	5319	Biostatistics	3
CLLS	3201	Immunology	2
CLLS	4018	Global Health	2
		Total Semester Credits	13

Undergraduate Semester 2 (Spring)			
CLLS	3417	Hematology and Coagulation 1	4
CLLS	3514	Clinical Chemistry 1	5
CLLS	4325	Advanced Path Microbiology/Mycology	3
MSHP	5302	Intro to Scientific Writing	3
		Total Semester Credits	15

UTMB Courses to be completed for Master's Program (Total 57 credit hours)

Graduate Semester 1 (Summer)			
CLLS	5310	Serology and Blood Banking	3
CLLS	5312	Evidence Based Lab Medicine	3
CLLS	5331	Urinalysis, Body Fluids, and Parasitology	3
CLLS	5335	Clinical Practice I	3
CLLS	6310	Clinical Chemistry II	3
CLLS	5108	MLS Seminar	1
		TOTAL SEMESTER CREDITS	**16**
Graduate Semester 2 (Fall)			
CLLS	5150	Graduate Seminar in CLS	1
CLLS	5329	CLS Research	3
CLLS	5336	Clinical Practice II	3
CLLS	5415	Immunology and Immunohematology	4
CLLS	4417	Coagulation and Hematology II	4
		TOTAL SEMESTER CREDITS	**15**
Graduate Semester 3 (Spring)			
CLLS	6307	Molecular Diagnostics	3
CLLS	5337	Clinical Practice III	3
CLLS	5327	Laboratory Validation Studies	3
CLLS	5313	Medical Lab Science Management Skills	3
CLLS/MSHP	XXXX	Elective	3
		TOTAL SEMESTER CREDITS	**15**
Graduate Semester 4 (Summer)			
CLLS	5307	Clinical Laboratory Science Seminar	3
CLLS	5338	Clinical Practice IV	3
CLLS/MSHP	XXXX	Elective	2
		TOTAL SEMESTER CREDITS	**8**
Graduate Semester 5 (Fall)			
CLLS	5333 or 5334	Master's Thesis or MLS Capstone	3
		TOTAL SEMESTER CREDITS	**3**

BA–MS Program Progression Policy Disclaimer

Continuation and timely fulfillment of the BA-MS program in the 3+2 format outlined here is contingent upon the student's successful completion of all required coursework at both participating institutions within the prescribed timeframe and in the sequence outlined here. Failure to complete any required course on schedule, or the need to repeat any course for any reason, will result in an extension of the program beyond the standard completion timeline. Such extensions may have academic, financial, and administrative consequences for the student.

In order to confer the BA in Biology during the equivalent of their Senior Spring semester, the student must apply for graduation, and UST must receive official transcripts showing completion of 28 credit hours at UTMB no later than 15 days after the last day of class of the semester when the degree is to be conferred. Failure to do so will result in the student receiving their degree during the next applicable conferral period (for example, Summer I conferral date).

Total Credits	177

BA in Criminology, Law and Society & MA in Criminology, Law & Society

Degree Type

Bachelor of Arts & Master of Arts

Students seeking a Bachelor of Arts in Criminology, Law and Society may enroll into master's degree level courses in Criminology, Law and Society. The students must successfully complete 90 semester credit hours prior to enrolling into the master's degree in criminology, Law and Society. Students must apply for entry into the master's degree program no sooner than successfully completing 75 semester credit hours.

Bachelor's Degree Requirements

The following overall requirements are needed in order to earn a bachelor's degree. For a full explanation of the requirements, please see policy A.04.01.

- Completion of the core curriculum. Specific core plan is dependent upon accepted transfer credit, major, and Honor's Program participation.
- Successful completion *of at least* 120 credit hours, with the final 36 hours taken in Residence at UST. Total credits listed on the page only reflect the major.
- Completion of a major.
- Completion of 36 upper-division credit hours.
- A cumulative grade point average (GPA) above 2.0
- A cumulative GPA above 2.0 in your major
- *Freshman* Symposium is a one-credit hour, mandatory course exclusively for first-year students at the University of St. Thomas, introducing them to the UST mission and the Basilian Fathers' core values of goodness, discipline, and knowledge. Freshmen register for it during the Freshmen Registration/ Orientation events and can choose a class that aligns with their interests, with course descriptions provided in advance.

CRIM Core

Complete all of the following courses.

Course Code	Title	Credits
CRIM 1301	Introduction to Criminal Justice	3.0
CRIM 4340	Field Internship in Criminal Justice	3.0
CRIM 4350	Action Research Leadership Project for Criminal Justice Majors	3.0
CRIM 4353	Leadership & Professional Development in Criminal Justice	3.0
	INST 2352 OR POSC 3300	**3.0**
INST 2352	Research Methods in Int' Stud	3.0
POSC 3300	Methods in Social Research	3.0

CRIM Freshmen and Sophomore courses

Complete four of five of the following courses.

Course Code	Title	Credits
CRIM 1306	Court Systems and Practices	3.0
CRIM 1310	Criminal Law	3.0
CRIM 2313	Correctional Systems and Practices	3.0
CRIM 2323	Legal Aspects of the Criminal Justice System	3.0
CRIM 2328	Police Systems and Practices	3.0

Criminology, Law and Society Pathway

Criminology Pathway (9 credit hours) Must complete one pathway.

Human Trafficking Pathway

Course Code	Title	Credits
CRIM 3319	Introduction to Human Trafficking	3.0
CRIM 3320	Commercial Sexual Exploitation of Children	3.0
CRIM 3321	U.S. and Vatican Response to Human Trafficking	3.0

Terrorism and Homeland Security Pathway

Course Code	Title	Credits
CRIM 3322	Terrorism and American Criminal Justice System	3.0
CRIM 3325	Violent Extremism	3.0
CRIM 3324	Financing Terrorism	3.0

Social Justice Pathway

Course Code	Title	Credits
CRIM 3371	Race, Ethnicity & Criminal Justice	3.0
CRIM 4331	Crime and Social Justice	3.0
CRIM 4377	Reforming Justice	3.0

Forensic Psychology Pathway

Course Code	Title	Credits
PSYC 3337	Abnormal Psychology	3.0
CRIM 3331	Theories of Criminal Behavior	3.0
CRIM 3332	Forensic Psychology and the Law	3.0

Criminology Electives

Choose four Criminology, Law and Society elective courses.

Foreign Language or Social Science

Complete 6hrs of foreign language courses, or chose two of the following courses:

Course Code	Title	Credits
INST 1351	Introduction to International Studies	3.0
COMM 1331	Oral Communication	3.0
PSYC 1332	General Psychology	3.0
SOCI 1331	Principles of Sociology	3.0

MA Core Courses

Complete all of the following courses.

Course Code	Title	Credits
CRIM 5301	Crime and Social Justice	3.0
CRIM 5303	Criminology Theory	3.0
CRIM 5305	Research Methods for Criminology	3.0
CRIM 5307	Leadership and Ethics	3.0

MA Elective Courses

Complete six of the following courses.

Course Code	Title	Credits
CRIM 5310	Employment Law and Policy	3.0
CRIM 5312	War on Drugs	3.0
CRIM 5314	Juvenile Delinquency & Social	3.0
CRIM 5316	Alternative Dispute Resolution	3.0
CRIM 5318	Immigration and Border Policy	3.0
CRIM 5320	Global Terrorism	3.0
CRIM 5322	Organized Crime	3.0
CRIM 5326	White Collar Crime	3.0
CRIM 5328	Cyber Crime	3.0
CRIM 5330	Women and the Criminal Justice System	3.0
CRIM 5332	Statistics and Society	3.0
CRIM 5324	Hate Crimes	3.0
CRIM 5325	Leading Diversity in Organizations	3.0
CRIM 5329	Policy, Evaluation, and Planning in Criminal Social Justice	3.0
CRIM 5334	Advanced Principles of Forensic Psychology	3.0
	Total Credits	84

BA in International Studies & MA in Diplomacy & Strategic Affairs (MDSA)

Degree Type
Bachelor of Arts & Master of Arts

Geography

Course Code	Title	Credits
GEOG 2332	World Regional Geography	3.0

International Studies

Course Code	Title	Credits
INST 1351	Introduction to International Studies	3.0
INST 2352	Research Methods in Int' Stud	3.0
INST 3351	Comparative Political Systems	3.0
INST 3352	International Politics	3.0
INST 3354	International Political Economy	3.0
INST 3355	Intercultural Issues	3.0
INST 3366	The American Foreign Policy Process	3.0

Regional Studies

Choose **one** of the following:

Course Code	Title	Credits
INST 3357	Regional Study of Europe	3.0
INST 3359	Regional Study of Latin America	3.0
INST 3360	Regional Study of East Asia	3.0
INST 3363	Regional Study of North Africa and the Middle East	3.0

International Studies Electives

Choose three additional International Studies elective courses.

Do not take INST 4364: will be an option as MLINS 6364

Foreign Language

Depending on fluency, see department.

The ability to communicate in foreign communities is fundamental to effective international work.

Two sequential courses in a foreign language. Arabic, French, German, Greek, Italian, Irish, Japanese, Latin, Mandarin Chinese, Spanish

Practical International Experience

Being immersed in an international environment is one of the most effective means for gaining an international perspective. Therefore, each student majoring in International Studies will complete one of the following practical international experiences:

- Study Abroad
- Internship in international business
- Structured experience abroad without academic credit

MDSA Core Courses

Course Code	Title	Credits
MDSA 5301	Introduction to Diplomacy and Strategic Policy	3.0
MDSA 5302	Analytics in Strategic Affairs	3.0
MDSA 5303	Advanced Seminar in Diplomacy and Strategic Studies	3.0
MDSA 6399	Capstone Project	3.0

MDSA Field Courses Core Courses

Course Code	Title	Credits
MLINS 6364	International Law	3.0
MDSA 6366	International Security	3.0
MLPOS 5372	Public Personnel Administration	3.0
MDSA 6381	International Security in East Asia	3.0

MDSA General Electives

Select 12 credit hours from MDSA, MLCOM, MLINS, MLPOS, MLPSY, MPPA (5000 & 6000 level).

	Total Credits	72

BA in Political Science & MPPA in Public Policy and Administration

Degree Type
Bachelor of Arts and Master of Public Policy and Administration

Note: Students cannot use any courses from a Pre-Law minor to satisfy this degree plan.

Bachelor's Degree Requirements

The following overall requirements are needed in order to earn a bachelor's degree. For a full explanation of the requirements, please see policy A.04.01.

- Completion of the core curriculum. Specific core plan is dependent upon accepted transfer credit, major, and Honor's Program participation.
- Successful completion *of at least* 120 credit hours, with the final 36 hours taken in Residence at UST. Total credits listed on the page only reflect the major.
- Completion of a major.
- Completion of 36 upper-division credit hours.
- A cumulative grade point average (GPA) above 2.0
- A cumulative GPA above 2.0 in your major
- *Freshman* Symposium is a one-credit hour, mandatory course exclusively for first-year students at the University of St. Thomas, introducing them to the UST mission and the Basilian Fathers' core values of goodness, discipline, and knowledge. Freshmen register for it during the Freshmen Registration/ Orientation events and can choose a class that aligns with their interests, with course descriptions provided in advance.

POSC Core

Complete all of the following courses.

Course Code	Title	Credits
POSC 2331	American Federal Government	3.0
POSC 2332	Texas State and Local Government	3.0
POSC 3300	Methods in Social Research	3.0
POSC 3301	Statistics for the Social Sciences	3.0
POSC 3351	Comparative Political Systems	3.0
POSC 3352	International Politics	3.0
POSC 3355	American Constitutional Law	3.0

Political Science Option

Complete one of the following courses.

Course Code	Title	Credits
POSC 4399	Senior Thesis	3.0
POSC 4311	Mock Trial	3.0

Political Science Electives

Choose two additional Political Science (POSC) elective courses.

Foreign Language

Complete 6hrs of foreign language courses. Depending on fluency - See department for more information.

Public Policy and Administration Core Requirements

Complete all of the following courses.

Course Code	Title	Credits
MPPA 5319	Foundations of the American Political Order	3.0
MPPA 5324	Catholic Social Teaching	3.0
MPPA 5373	Public Administration Ethics	3.0
MPPA 5374	Public Organizations: Theory and Behavior	3.0
MPPA 5310	Policy Development and Implementation	3.0

Concentration Options

Complete four courses within one of the following concentrations:

State, County, and City Policy & Administration Concentration

Course Code	Title	Credits
MPPA 5314	State and Local Government Administration	3.0
MPPA 5321	Government Grants & Contracts	3.0
MPPA 5354	Emergency Management	3.0
MPPA 5326	Legislatures, Agenda Setting, and the Legislative Process	3.0
MPPA 5376	Public Budgeting & Finance	3.0
MLPOS 5301	Statistics for Social Sciences	3.0
MPPA 6393	Special Topics	3.0
MPPA 5391	Internship in Public Policy and Administration	3.0

Ethical Leadership Concentration

Course Code	Title	Credits
MPPA 5303	Public Leadership: Principles, Practices, and Realities	3.0
MPPA 5315	Current Issues in Public Policy and Administration	3.0
MPPA 5323	Conscience, Religious Liberty, and the Public Square	3.0
MLPHL 5318	Bioethics	3.0
MPPA 5302	Decision Making for Public Policy	3.0
MPPA 6393	Special Topics	3.0
MPPA 5391	Internship in Public Policy and Administration	3.0

Capstone

Complete the following course.

Course Code	Title	Credits
MPPA 5394	Capstone Project	3.0
	Total Credits	66

Business Administration

Degree Type
Master of Business Administration

This 30-hour MBA program is designed to equip emerging and experienced professionals with the strategic, analytical, and leadership skills needed to thrive in today's dynamic business environment. The curriculum blends a strong 24-hour core with 6 hours of flexible electives that allow students to tailor their degree through specialized concentrations. The core covers critical areas such as leadership, economics, finance, marketing, operations, and strategy. With innovative courses such as Digital Operations and Supply Network Management and Marketing Analytics and Applications, the program emphasizes data-driven decision-making, digital transformation, and real-world application. Students can further differentiate their expertise through concentrations in high-demand areas such as AI-driven strategy, entrepreneurship, finance, healthcare administration, and nonprofit leadership. This flexible yet rigorous MBA prepares graduates to lead across industries, drive organizational success, and adapt to evolving global business challenges.

Time Limit

Students are required to complete all coursework towards the MBA degree within 6 years from the date of entry into the MBA program.

MBA Requirements

Complete all of the following courses.

- Students are required to take 18 hours of core courses.
- *Note: MBA 6307 (Organizational Leadership and Ethics) should be taken in the first 9hrs.*
- *Note: MBA 6370 (Applied Strategic Management) is required to be taken in the last 9 hours.*

Course Code	Title	Credits
MBA 6307	Organizational Leadership and Ethics	3.0
MBA 6311	Managerial Economics	3.0
ACCT 6313	Managerial Accounting and Decision Making	3.0
FINA 6318	Financial Management	3.0
MBA 6320	Marketing Strategy	3.0
MBA 6370	Applied Strategic Management (Capstone Course)	3.0

Business Administration Electives/Concentration Option

Complete 12hrs from available MBA elective courses. A concentration can be earned by taking between 9hrs and 12hrs courses in a concentration area. Concentration areas and course options are the following:

- **Accounting**
- **AI for Business Leaders**
- **Entrepreneurship**
- **Finance**
- **Healthcare**
- **Marketing**
- **Nonprofit Management**

To view the specific courses for each concentration area, please click the link below.

*Students who seek a second concentration can apply **no more than one course** from the first concentration to the requirements of the second concentration. If there are no courses common to both concentrations, the student must take all courses for the second concentration.*

Course Code	Title	Credits
	MBA Concentration Area Elective Groups Fall 2026	

Accounting (9hrs)

Complete 9hrs from the courses below.

ACCT 6314	Contemporary Issues in Finance & Accounting	3.0
ACCT 6330	Advanced Accounting	3.0
ACCT 6333	Auditing	3.0
ACCT 6336	Financial Statement Analysis	3.0
ACCT 6353	Federal Tax Concepts for Individuals	3.0
ACCT 6360	Governmental/Not-for-Profit Accounting	3.0
ACCT 6362	Taxation of Business Entities	3.0

ACCT 6399	Professional Ethics and Social Responsibility	3.0

AI for Business Leaders

Complete 9hrs from the courses below.

ACCT 6335	AI Vibe Development & Automation for Business Leaders	3.0
MBA 6382	Artificial Intelligence for Strategic Advantage	3.0
MBA 6383	Strategic AI Governance, Law, and Ethics	3.0
PHIL 5397	Philosophy of AI	3.0

Entrepreneurship (12hrs)

Note: MBA 6344 and MBA 6362 are required courses for this concentration.

Complete 12hrs from the courses below.

MBA 6344	Introduction to Small Business Management	3.0
MBA 6362	Entrepreneurship	3.0
MBA 6360	E-Business Strategies	3.0
MBA 6367	Managing and Working in Virtual Teams	3.0
MBA 6358	Systems Project Management	3.0
MBA 6337	Developing Human Resources	3.0
MBA 6345	Non-for-Profit Management: Principles and Practice	3.0
MBA 6361	Seminar in Business	3.0

Finance (9hrs)

Complete 9hrs from the courses below.

FINA 6319	Investments	3.0
FINA 6330	International Finance	3.0
FINA 6331	Financial Institutions and Markets	3.0
FINA 6333	Real Estate Investment	3.0
FINA 6336	Financial Statement Analysis	3.0
FINA 6341	Futures, Swaps, and Options	3.0
FINA 6346	Fixed Income Securities	3.0
FINA 6347	Behavioral Finance	3.0
FINA 6348	Mergers and Acquisitions	3.0
MBA 6342	Financial Economics	3.0

Healthcare (9hrs)

Please inquire with the Cameron School of Business regarding this concentration at cameron@stthom.edu.

Marketing (9hrs)

Complete 9hrs from the courses below.

MBA 6321	Marketing Applications and Research	3.0
MBA 6333	Seminar in Marketing	3.0
MBA 6355	Global Marketing	3.0
MBA 6360	E-Business Strategies	3.0
MBA 6362	Entrepreneurship	3.0

Nonprofit Management (9hrs)

Complete 9hrs from the courses below.

MBA 6316	Nonprofit Management: Principles and Practice	3.0
MBA 6317	Financial Management & Fundraising for Nonprofits	3.0
MBA 6318	Program Evaluation in Nonprofit Management	3.0

Concentration Optional Course

Students may also take one of the following courses, conditional upon approval of the Dean, Associate Dean, or Department Chair, in their selected concentration area.

Note: A student may take no more than 3 hours of out-of-class courses towards their degree.

MBA 6391	Internship	3.0
MBA 6392	Directed Reading/Independent Study in MBA	3.0
MBA 6393	Special Topics	3.0

Business Foundation Proficiencies

Students who do not have a compressive business background, may be requested to complete all or several online modules below:

- Accounting
- Fundamentals of Business Statistics
- Fundamentals of Finance
- Fundamentals of Microeconomics
- Fundamentals of Macroeconomics
- Fundamentals of Management
- Fundamentals of Marketing
- Legal Environment of Business

New graduate business students with a GPA less than 3.0 will be required to complete online modules on:

- Business Communication
- Business Mathematics

Note: Alternatively, taking the 3-credit-hour MBA 5300 Bootcamp course below will satisfy the requirements for all the proficiency courses above (this does not include Business Communications and Business Mathematics).

Course Code	Title	Credits
MBA 5300	Graduate Business Bootcamp	3.0
	Total Credits	30

Catholic Approaches to Sexuality and Gender

Degree Type
Graduate Certificate

Core Courses

Complete all of the following courses.

Course Code	Title	Credits
WGS 5331	Human Person: Body and Soul	3.0

Catholic Women's and Gender Studies Capstone

The Capstone project must be completed during the student's final semester, following completion of all prior core requirements and with advisor's approval. It culminates with the 5-day in-person symposium on campus at UST.

Course Code	Title	Credits
WGS 6399	Synthesis and Integrated Application of Catholic Women's and Gender Studies	3.0
	Total Credits	30

Clinical Mental Health Counseling

Degree Type
Master of Science

Note: The following courses require a 3.0 grade point average for successful completion: 6335, 6340, 6345, 6350. All other CMHC courses require a 2.3 grade point average for successful completion.

Required Courses

Course Code	Title	Credits
CMHC 5300	Introduction to Clinical Mental Health Counseling	3.0
CMHC 5315	Ethical, Legal & Professional Issues in Counseling	3.0
CMHC 5310	Counseling Theories	3.0
CMHC 6300	Human Diversity	3.0
CMHC 5305	Helping Relationships	3.0
CMHC 5320	Human Growth & Development	3.0
CMHC 5325	Psychopathology and Psychopharmacology	3.0
CMHC 5335	Appraisal & Assessment Techniques	3.0
CMHC 6335	Practicum I/Crisis Intervention	3.0
CMHC 6325	Lifestyle & Career Development	3.0
CMHC 6310	Counseling Couples & Families	3.0
CMHC 6315	Group Counseling	3.0
CMHC 5337	Research and Program Evaluation	3.0
CMHC 6340	Internship I	3.0
CMHC 6345	Internship II	3.0
CMHC 6320	Addictions & Recovery	3.0
CMHC 6305	Spiritual & Religious Themes in Counseling	3.0
CMHC 6355	Professional Ethics, Practice, and Social Justice	3.0
CMHC 6350	Internship III	3.0

Elective Courses

Course Code	Title	Credits
CMHC 5340	Introduction to Play Therapy	3.0
CMHC 5345	Trauma: A Holistic Perspective	3.0
CMHC 6370	Research Thesis I: Counseling	3.0
CMHC 6375	Research Thesis II: Counseling	3.0

Additional/Special Curriculum Requirements

Note: The following five courses must be passed with a grade of **B or higher** to advance to additional coursework. If a grade of B- or below is earned, the course must be repeated:

- CMHC 5305 Helping Relationships
- CMHC 6335 Practicum I/Crisis Intervention
- CMHC 6340: Internship I
- CMHC 6345: Internship II
- CMHC 6350: Internship III

Students enrolled in CMHC 6335, 6340, 6345, and 6350 will complete a total of 700 or more supervised clinical training hours.

	Total Credits	60

Creative Writing - Fiction

Degree Type
Master of Fine Arts

Please note: This is an online program and international students cannot maintain or obtain F-1 student visa status or I-20 form through this program.

First Year

Fall

Course Code	Title	Credits
CRTW 6301	Graduate Fiction Workshop	3.0
CRTW 6303	Art & Metaphysics of Fiction	3.0

Spring

Complete CRTW 6301 and either CRTW 6309 OR CRTW 6310.

Course Code	Title	Credits

Residencies are optional. Students may take electives in lieu of the Year 1 and Year 2 Residencies.

	Total Credits	30

Creative Writing - Literary Non-Fiction and Memoir

Degree Type
Master of Fine Arts

The Master of Fine Arts in Creative Writing program at the University of St. Thomas offers an advanced apprenticeship in literary non-fiction and memoir, taught by a host of distinguished writers and scholars. The MFA in Creative Writing integrates intense and invigorating workshops in writing with a series of comprehensive seminars in the Catholic literary and intellectual tradition. Courses are online and flexible (with an optional residency), and tailored to the needs of students and their writings.

Students in the program gain experience, confidence, and mastery as writers with the goal of completing excellent work worthy of publication. They do so in an intellectual setting that will deepen their understanding of art and beauty and give them a broad grasp of the western literary tradition especially as it has been shaped by the great Catholic authors of past and present.

Non-Fiction Writing Workshop

Complete the following course twice.

Course Code	Title	Credits
CRTW 6304	Non-Fiction Writing Workshop	3.0

Lit Non-Fiction and Memoir Required

Complete the following courses.

Course Code	Title	Credits
CRTW 6315	Style and Form in Literary Non-Fiction	3.0

Residencies are optional. Students may take electives in lieu of the Year 1 and Year 2 Residencies.

	Total Credits	30

Criminology, Law and Society

Degree Type
Master of Arts

St. Thomas Aquinas defines law as "nothing other than a certain dictate of reason (*rationis ordinatio*) for the common good, made by him who has the care of the community and promulgated." ST. IaIIae, Q.90, art.4. Law is based upon reason, and not upon custom, will, politics, or power. While natural law applies to all humans and is unchanging, human law can vary with time, place, and circumstance.

Master of Arts in Criminology, Law and Society Master of Arts degree focus is directed towards educating students about the challenge of crime in American society and understanding the teachings of Catholic Social Justice to provide acceptable responses to the incidence of crime. The courses taught by the faculty present to the students a concentrated base of knowledge with emphasis on social justice, ethics, and contemporary challenges which impact victims, offenders, organizations and society.

Core Courses

Complete all of the following required courses. A comprehensive examination is required after completion of the required courses.

Course Code	Title	Credits
CRIM 5301	Crime and Social Justice	3.0
CRIM 5303	Criminology Theory	3.0

Canon Law

Complete the following course.

Course Code	Title	Credits
YPC 7201	Introduction to Canon Law	2.0

Practical Theology

Complete the following course.

Course Code	Title	Credits
YPP 8307	Ecumenism & Missiology	3.0
	Total Credits	74

Doctor of Education

Degree Type
Ed.D

The EdD program is a three-year, year-round, full-time, multi-track, Saturday-only, online, and in-person program. Cohorts of 25 students are admitted for a summer start. Applicants will have a master's degree, professional experience, and a commitment to academic research and writing. Targeted students will be from the following fields: education, non-profit, corporate, human resources, medical, law enforcement, and student affairs.

Education Core Courses

Complete all of the following courses. EDUC 8384 is completed three times for a total of 9 hours.

Course Code	Title	Credits
EDUC 8362	Qualitative Research Methods	3.0
EDUC 8361	Quantitative Research Methods	3.0
EDUC 8364	Mixed Research Methods	3.0
EDUC 8363	Statistics	3.0
EDUC 8366	Philosophical Foundations of Leadership	3.0
EDUC 8351	The Polymathic Leader: Modeling the Unity of Life in a Fragmented World	3.0
EDUC 8354	Social Justice	3.0
EDUC 8369	Interdisciplinarity and Leadership	3.0
EDUC 8357	Administrative Leadership I	3.0
EDUC 8358	Administrative Leadership II	3.0
EDUC 8380	Dissertation Introduction	3.0
EDUC 8384	Dissertation Completion	3.0

Concentration Areas

Complete ONE of the following concentration areas below for a total of 12 hours:

Educational Leadership Concentration

Course Code	Title	Credits
EDUC 8359	Organizational Change	3.0
EDUC 8352	History of Education I	3.0
EDUC 8356	History of Education II	3.0
EDUC 8365	Educational Law and Leadership	3.0

Higher Educational Leadership Concentration

Course Code	Title	Credits
EDUC 8334	Assessment and Evaluation of Programs	3.0
EDUC 8365	Educational Law and Leadership	3.0
EDUC 8336	Theories, Models, and Practice of Student Affairs	3.0
EDUC 8337	Foundations of Leadership in Higher Education	3.0

Strategic Leadership Concentration

Course Code	Title	Credits
EDUC 8359	Organizational Change	3.0
EDUC 8338	Strategic Management	3.0
EDUC 8339	Models of Leadership	3.0
EDUC 8372	Strategic Law and Leadership	3.0

Human Resource Leadership Concentration

Course Code	Title	Credits

EDUC 8335	Human Resource Law	3.0

Law, Society, and Criminal Justice Leadership Concentration

Course Code	Title	Credits
CRIM 8350	Philosophy of Criminal Justice	3.0
CRIM 8352	Advanced Criminology	3.0
CRIM 8354	Advanced Public Policy and Social Justice	3.0
CRIM 8356	Victimology and Social Justice	3.0

Dissertation Requirement

The EdD dissertation is an original scholarly research document that addresses a problem of practice. It is traditionally divided into five chapters:

1. **Introduction**: The Introduction overviews the purpose of the study by stating the problem, detailing the background of the problem, and the significance of the study. Moreover, terms are defined, and assumptions and limitations are clearly explained, and the chapter provides a summary of results and their implications.
2. **Literature Review**: This chapter seeks to conduct an overview of the relevant literature on the topic (either chronologically, historically, theoretically, or thematically), analyzing strengths and weaknesses and synthesizing key insights.
3. **Research Methodology**: This chapter focuses on the methodology employed in the study (qualitative, quantitative, or mixed methods) and discusses the research design, research questions, data collection, participants, and analysis.
4. **Results and Analysis**: This chapter discusses in detail the results of the student's research, using statistics, tables, charts, and graphs to describe and summarize key findings to arrive at actionable conclusions.
5. **Discussion and Conclusions**: This chapter provides a summary of findings to illustrate the importance of the study and discuss implications, strengths, and weaknesses, as well as offer suggestions for future research and recommendations for the practical application of the study.

The Chair and Committee

Students will be assigned a dissertation Chair according to the needs of their topic at the beginning of the Year 2 Fall semester. The Chair will guide the dissertation process, setting timelines, reading drafts, and making edits and substantial suggestions.

The dissertation committee consists of a minimum of three UST full-time faculty members. An (external) academic with appropriate experience outside UST may become a committee member if recommended in writing with an attached CV and approved by the Director. The committee will convene twice during the dissertation process, at the proposal and defense.

The Director of the EdD has final authority to recruit and approve chairs to ensure they have the appropriate expertise and the ability to serve throughout the dissertation process. Subject-related matches will be attempted by the Director as much as possible. Students should follow the APA style guide, which will be discussed in EDUC 8380 Dissertation Introduction.

Students will take EDUC 8380 in the Spring semester of Year 2, followed by three sequential semesters of EDUC 8384 Dissertation Completion (9 total Credit Hours) in Year 3. EDUC 8384 is a pass/fail research course in which students work with their Chairs to write all five chapters of the dissertation from proposal to final defense. Students who fail EDUC 8384 Dissertation Completion for any reason, including lack of progress or substandard work, will be required to repeat it at their own expense, thus delaying graduation. Students may not finish early and are required to have 9 Credit Hours of EDUC 8384.

Total Credits	54

Economics

Degree Type

Bachelor of Business Administration & Master of Business Administration

The economics degree program exposes students to social science concepts central to business and governmental decision–making, society's allocation of resources, international relations among competing economies and ethics in commerce. The economics program encompasses micro and macroeconomics, international economics, money and banking, labor markets, cost benefit analysis, economic development and theory. Career opportunities for economics majors include the following:

- Consulting
- Commercial banking
- Investment banking

Bachelor's Degree Requirements

The following overall requirements are needed in order to earn a bachelor's degree. For a full explanation of the requirements, please see policy A.04.01.

- Completion of the core curriculum. Specific core plan is dependent upon accepted transfer credit, major, and Honor's Program participation.
- Successful completion *of at least* 120 credit hours, with the final 36 hours taken in Residence at UST. Total credits listed on the page only reflect the major.
- Completion of a major.
- Completion of 36 upper-division credit hours.
- A cumulative grade point average (GPA) above 2.0
- A cumulative GPA above 2.0 in your major
- *Freshman* Symposium is a one-credit hour, mandatory course exclusively for first-year students at the University of St. Thomas, introducing them to the UST mission and the Basilian Fathers' core values of goodness, discipline, and knowledge. Freshmen register for it during the Freshmen Registration/ Orientation events and can choose a class that aligns with their interests, with course descriptions provided in advance.

ECON 4393	Special Topics in Economics	3.0

MBA Requirements

Students pursuing a BBA/MBA will also complete the requirements for the MBA in Business Administration.

	Total Credits	93

Education: Curriculum and Instruction

Degree Type
Master of Education

For

Experienced educators who are interested in becoming excellent classroom teachers, Instructional Specialists, District/camps Academic Coordinators, Curricular Consultants (District or State), Peer Mentors/Coaches, Curriculum Specialist in Subject Areas, Lead Teachers, Department/Grade Level or Director of Program(s), and other Curricular Roles.

What You Learn

The program is geared towards teachers who want to become experts in their fields, who desire to become leaders and effectively work with colleagues and to influence curricular pedagogy, inform how students learn, how teachers teach, help others how to work effectively with parents, families, and the community, and diverse populations, implement curriculum and instruction and assess in technology, art, mathematics, science, and better help English language learning (ESL), and students with special needs.

How You Learn

Online: This is an online cohort program. Students will check in online to complete assignments and participate in online discussions and group activities. While there are no face-to-face requirements, some live online sessions and/or conference call sessions may be required. Students will finish two courses every 15 weeks.

Career Outcomes

Upon completion of the program, students will earn a Master of Education degree in Curriculum & Instruction. Towards the end of the program, students will have the choice to complete the program on time, or defer their graduation to complete additional courses and earn one of the following: Principal Certification, Reading Certification, and/or English as a Second Language (ESL) Certification.

Time Limit

All requirements for the Master's Program must be completed within the eight year time limit. This includes course work and two years' experience in an educational and/or professional setting. Exceptions and waivers may be appealed to the School of Education and Human Services Advisory Council.

Degree Plan

Course Code	Title	Credits
EDUC 5330	Curriculum and Instruction	3.0
EDUC 5331	Differentiating Instruction	3.0

Healthcare Administration

Degree Type
Master of Healthcare Administration

Note: No longer enrolling new students. Program is on teach-out.

Transforming Students Who Aspire Into Healthcare Leaders Who Inspire

The University of St. Thomas Master of Healthcare Administration (MHA) program, offered within the Cameron School of Business, is designed for those individuals who are currently, or who aspire to be, leaders in a variety of healthcare settings. Today's health organizations need administrators who can manage the current components of healthcare, as well as lead the health sector in new directions.

Rooted upon the Catholic Moral Tradition, the MHA program offers students the opportunity to understand and master the organizational, legal, financial, ethical, political, and managerial aspects of health systems management. The MHA program offers a unique curriculum designed specifically to meet the career needs of future healthcare leaders.

Cameron School of Business

At the Cameron School of Business, you will experience a highly **interactive** and **discussion-based** approach to business education.

Our professors often focus on the **moral** and **ethical** questions faced in today's marketplace. Programs at the Cameron School of Business focus on:

- Developing ethical leadership
- Taking high-level views of healthcare administration process
- To provide quality health-related products and services to diverse communities

Become a Healthcare Leader by Learning How to do Good Business

Program Goals

The graduates will consistently be able to:

- Formulate a communication strategy that will cultivate professional relationships amongst a diverse group of stakeholders in order to achieve cooperation, promote teamwork, demonstrate
- Assess the level of professionalism necessary to succeed in the highly dynamic and demanding industry by maintaining personal and professional accountability, engaging in ongoing professional development, and demonstrating a commitment to the welfare of the facility/organization, surrounding community and the profession.
- Demonstrate the ability to function autonomously and take responsibility for managing a diverse group of professionals within a highly complex and changing healthcare environment.
- Develop a clear and achievable organizational vision for the future, which promotes the entrepreneurial spirit and contributes to the formation of a culture and climate that embraces change in order to achieve excellence in product and service delivery.
- Assess the healthcare environment and its constructs in order to pinpoint industry risks and opportunities, and then actively contribute to viable strategy formulation that effectively leverages internal competencies to achieve organizational success.
- Synthesize relevant internal and external data in order to position complex organizations for fiscal and operational success, despite existing barriers, in order to maintain a strong competitive advantage within a dynamic and demanding industry.
- Demonstrate advanced critical thinking skills in the construction of viable and ethical solutions to complex issues that may negatively impact product and service delivery.

JD & MBA Joint Degree

Degree Type
Master of Business Administration & Juris Doctor

UST and the South Texas College of Law/Houston established a joint academic program that allows qualified students to earn a Doctor of Jurisprudence (JD) and a Master of Business Administration (MBA) degree in as few as four years. Under the plan, a student attends South Texas for the first two years, UST's Cameron School of Business for the third year and South Texas for the fourth year.

Students must be admitted to both schools to participate in the program. The joint program is designed to train students to think more strategically and allow them to leverage the strengths of both fields.

Time Limit

Students are required to complete all coursework towards the MBA/JD degree within 6 years from the date of entry into the program.

YEAR ONE:

Full-time JD study [totaling thirty (30) hours as called for in the applicable South Texas College of Law Student Handbook]

YEAR TWO:

Full-time JD study [totaling thirty (30) hours as called for in the applicable South Texas College of Law Student Handbook], including the course entitled "Professional Responsibility"

YEAR THREE:

Full-time MBA study at the University of St. Thomas [totaling twenty-four (24) hours (See list of courses below), with South Texas College Professional Responsibility course to fulfill UST's ethics requirement]

YEAR FOUR:

Full-time JD study [totaling thirty (30) hours as called for in the applicable South Texas College of Law Student Handbook]

Recommended Sequence for Students with BBA Degrees

(24 HOURS TOTAL; PROFICIENCY COURSES MAY BE WAIVED)

First Semester

Course Code	Title	Credits
ACCT 6313	Managerial Accounting and Decision Making	3.0

	Total Credits	21

John Paul II Studies

Degree Type
Master of Arts

Students may choose from two tracks for this degree.

The " MA in John Paul II Studies" is a focused deep-dive into the thought of John Paul II.

The "MA in John Paul II and Leadership" is a concentration track combining John Paul II Studies and Ethical Leadership Training.

Please note: This is an online program and international students cannot maintain or obtain F-1 student visa status or I-20 form through this program.

Core Course Requirements

Both Tracks Complete all of the following courses.

Course Code	Title	Credits
JPII 5300	Redemptor Hominis and the witness of John Paul II	3.0
JPII 5305	Faith and Reason according to John Paul II	3.0
JPII 5330	Social/political teaching of John Paul II	3.0

Additional Requirements

Students who are pursuing the standard degree plan will complete all of the following (Please see below this section for the Leadership Concentration requirements).

Course Code	Title	Credits
JPII 5302	Philosophy of Wojtyla	3.0
JPII 5310	Thomistic Personalism	3.0
JPII 5315	The Family and the Civilization of Love	3.0
JPII 5325	Divine Mercy and the Work of Holy Spirit	3.0
JPII 5308	Sources of Renewal and Vatican II	3.0
JPII 5335	Mission, Culture and Evangelization	3.0
JPII 5340	John Paul II in context of Polish History and Culture	3.0
JPII 5345	Final Project in John Paul II Studies	3.0

Optional Leadership Concentration

The Master of Arts in John Paul II and Leadership Concentration is designed to form professionally capable, ethical, intellectually grounded leaders through the study of the life, thought, and leadership vision of St. John Paul II. Rooted in the Catholic intellectual tradition and informed by philosophy, theology, ethics, history, culture, and leadership studies, it prepares students to apply principles of human dignity, ethical decision-making, personal responsibility, and servant leadership within professional and organizational settings.

The program examines St. John Paul II not only as a theologian and philosopher, but also as one of the most influential global leaders of the modern era. Students explore his contributions to leadership, human work, culture, freedom, solidarity, social responsibility, and the development of the human person while engaging contemporary challenges facing business, education, healthcare, nonprofit organizations, public service, and civic life.

Designed for graduate students, professionals, executives, educators, ministry leaders, and individuals seeking advanced leadership formation, the program combines rigorous academic study with applied professional experience. In addition to core graduate coursework in John Paul II Studies, students complete specialized leadership courses in collaboration with UST's Leadership Institute Director Dr. Timothy Furlan including:

- John Paul II and Foundations of Leadership
- John Paul II as a Model for Ethical Leadership
- Seminar with Leaders
- Professional Leadership Immersion
- Leadership Capstone/Final Project

The program's Professional Leadership Immersion provides students with supervised engagement alongside executives, business professionals, nonprofit leaders, educators, or approved partner organizations in the United States or abroad. Students integrate the thought of St. John Paul II with contemporary leadership practice, organizational culture, consulting, ethics, and strategic decision-making.

As a culminating experience, students complete a Capstone/Final Project demonstrating the integration of theory and practice through applied research, organizational analysis, consulting initiatives, leadership development projects, or other professionally oriented work under faculty supervision.

Offered in a flexible online format with opportunities for international collaboration and optional study experiences in Poland, the concentration is designed to serve top tier executives, aspiring executives, traditional graduate students and working professionals seeking leadership formation grounded in established leadership principles, faith, reason, ethics, and the enduring human vision of St. John Paul II.

Leadership Concentration Core Courses

Complete all of the following courses.

Course Code	Title	Credits
JPII 5350	John Paul II And Foundations of Leadership	3.0

	Total Credits	30

Master in Liberal Arts

Degree Type
Master of Arts

The **Master in Liberal Arts** at UST is a ***multidisciplinary*** Master's degree and a flexible ***alternative*** to a traditional Master's degree, with courses and areas of concentration available in a variety of disciplines. Students enjoy small classes and personal attention from outstanding faculty. Course offerings include online and evening options as well as traditional in-person instruction.

The Master in Liberal Arts degree is a great option for:

- Educators looking to broaden their range of knowledge as well as deepen their subject-matter expertise
- Professionals looking to advance their careers or to expand job horizons
- Everyone looking to go deeper into the Great Books and Great Ideas in the pursuit of life-long learning.

MLA degree options include an **MLA in Classical Education** designed to prepare and develop teachers for instruction in classical schools and other classical education settings.

Time Limit

Students are required to complete all coursework towards the MLA degree within 10 years from the date of entry into the MLA program. Most degree options in the MLA require 30-36 credit hours. Most students complete the degree in 2-3 years.

MLA with Interdisciplinary Studies

The Master in Liberal Arts with Interdisciplinary Studies offers students the freedom to customize their degree plan to their interests, and appeals to a diverse range of students who seek professional advancement or personal enrichment. 30 credit hours total.

Course Code	Title	Credits
MLMLA 5301	Principles of Classical Learning	3.0

Seminar: 1 course

Seminars are graduate courses that substantially incorporate the discussion of Great Books. Each MLA student must complete 1 seminar (3 credit hours) of his or her choosing.

Interdisciplinary Concentration: 8 courses

Students may select any combination of MLA courses, from any discipline.

MLA with Concentration

The Master in Liberal Arts with Concentration allows students to expand their liberal arts education, while focusing on a specific academic concentration within the humanities and social sciences. 30 credit hours total.

Concentrations include: Applied Music, Art History, Communication, Creative Writing, Drama, Education, English, History, International Studies, Irish Studies, Philosophy, Political Science, and Theology

MLA Seminar

Course Code	Title	Credits
MLMLA 5301	Principles of Classical Learning	3.0

Seminar: 1 course

Seminars are graduate courses that substantially incorporate the discussion of Great Books. Each MLA student must complete 1 seminar (3 credit hours) of his or her choosing.

Concentration: 6 courses

Each student selects a discipline or area of study in which to concentrate his or her studies. A concentration equals 6 courses (18 credit hours, maximum of 21) in the declared discipline or area of study.

Electives: 2 courses

A student selects 2 electives (6 credit hours), which may be:

- Any MLA course outside of his or her concentration course.
- A seventh concentration course and one non-concentration course.
- Optional thesis or project (6 credit hours) under the direction of a faculty member in the student's concentration area. Completion of thesis or project is not a degree requirement.

**Specific concentrations may have particular required courses. Consult with your MLA advisor for details.*

MLA with Dual Concentration

The Master in Liberal Arts with Dual Concentration allows students to expand their liberal arts education, while focusing on two specific academic concentrations within the humanities and social sciences. 42 credit hours total.

Concentrations include: Applied Music, Art History, Communication, Creative Writing, Drama, Education, English, History, International Studies, Irish Studies, Philosophy, Political Science, and Theology

Interdisciplinary MLA Seminar (3 credit hours)

Course Code	Title	Credits
MLMLA 5301	Principles of Classical Learning	3.0

Seminar: 1 course

Seminars are graduate courses that substantially incorporate the discussion of Great Books. Each MLA student must complete 1 seminar (3 credit hours) of his or her choosing.

Concentrations: 12 courses

Each student selects two disciplines or areas of study in which to concentrate his or her studies. Each concentration equals 6 courses (18 credit hours) in the declared discipline or area of study.

**Specific concentrations may have particular required courses. Consult with your MLA advisor for details.*

MLA in Classical Education

The Master in Liberal Arts in Classical Education is designed to prepare and develop teachers for instruction in classical schools and other classical education settings. The program addresses both the pedagogy and the content of classical education. The six required core courses (18 credit hours) are available online. For their remaining coursework, students may choose either the Single Discipline Path (18 credit hours) or the Interdisciplinary Path (12 credit hours). Path courses are available in a variety of disciplines and modes of delivery. Single Discipline Path: 36 credit hours total. Interdisciplinary Path: 30 credit hours total.

Course Code	Title	Credits
MLMLA 5301	Principles of Classical Learning	3.0
MLMLA 5337	History of Classical Learning	3.0
MLMLA 6301	Athens, Rome, Jerusalem: The Classical World	3.0
MLMLA 6302	Fides et Ratio: The Middle Ages	3.0
MLMLA 6303	Renaissance to Revolution: The Early Modern West	3.0
MLMLA 6304	Democracy and Its Discontents: The Modern West	3.0

Single Discipline Path

MLA Classical Education students in this path take an additional 18 credit hours in a single discipline.

Interdisciplinary Path

MLA Classical Education students in this path take an additional 12 credit hours in MLA courses or other graduate courses with the consent of the MLA director.

	Total Credits	30-42

Master of Arts in Pastoral Studies

Degree Type

Master of Arts

Overall Requirements for Graduation

- Completion of 36 credit hours as listed below*
- Cumulative GPA of 2.3

**A maximum of 9 credit hours may be accepted as transfer credit provided there is genuine equivalency with School of Theology course offerings.*

Transfer Credit

A maximum of 9 hours can be accepted as transfer credit, provided there is a genuine equivalency with School of Theology course offerings. Courses completed with a minimum of 2.7 (B-) at the post-baccalaureate level in accredited institutions may be accepted toward the fulfillment of MAPS requirements.

Time Limit

Program requirements must be completed within ten years of initial registration.

MAPS Core Requirements

Complete all of the following courses.

Course Code	Title	Credits
CG 5310	Church History	3.0
CG 5312	Patrology	3.0

SPTHEO 5312	Catholic Epistles	3.0
SPTHEO 5313	Johannine Literature	3.0
	Total Credits	36

Teología Pastoral (MATP)

Degree Type
Maestría de Artes en Teología Pastoral

La Palabra de Dios dice en Proverbios 4, 5: “Adquiere la sabiduría, adquiere la inteligencia…” Con este lema bíblico identificamos la Maestría de Artes en Sagradas Escrituras (MASE) y la Maestría de Artes en Teología Pastoral (MATP) cuya función primordial es que el estudio ayude a vivir mejor el llamado a la santidad (relación con Dios), servir en la construcción del Reino en la Iglesia y la sociedad (relación con el prójimo) y ayude a la persona a nutrir y enriquecer su fe personal (relación consigo mismo).

¿Tienes una licenciatura universitaria, bachelors o carrera profesional en cualquier ramo sea de tu país o de Estados Unidos? Tú calificas para esta maestría. La University of St Thomas es pionera como universidad católica en ofrecer estas maestrías 100% online y en español. Puedes realizar cualquiera de estos posgrados de manera presencial o en línea desde la comodidad de tu casa y a un precio muy accesible. Todos los profesores tienen nivel doctorado. El tiempo para terminar la maestria puede ser de uno a dos años o dependiendo el ritmo que quieras llevar. El plan de estudios para cualquiera de las maestrías consta de 12 cursos.

El mundo hoy necesita de laicos encendidos en el amor a Cristo preparados a nivel teológico y académico, dispuestos a servir en una sociedad multicultural y diversa. Estudiar Sagradas Escrituras y teología pastoral católica en español a nivel posgrado en los Estados Unidos y con la opción en línea, ha sido realmente histórico y providencial.

Requisitos para la Admisión

Los requisitos son:

- Llenar solicitud: https://myust.stthom.edu/portal/apply-spa
- Tener una licenciatura universitaria (de cualquier país) o bacherlos (de USA) con un un GPA acumulado mínimo de pregrado de 2.0 en una escala de 4.0
- Para estudios (bachelors) hechos en USA pedir transcripts a su universidad

- Para estudios (licenciaturas o equivalentes) hechos fuera de USA hacer evaluación de título y calificaciones con una agencia de NACES o visitando: Credentials Evaluations Provided by NACES Members

Requisitos Generales para la Graduación

- Promedio General Acumulado de 2.0

Plan de Grado

Requisito básico del curso: completar todos los siguientes cursos.

Theology

Degree Type
Bachelor of Arts & Master of Arts

The school also offers a five–year BA/MA Combined degree in Theology which enables high–achieving undergraduate students to earn both the bachelor's and master's degrees in a streamlined program combining undergraduate and graduate studies. The BA/MA requires 120 undergraduate credit hours and 30 graduate credit hours of study and allows students to take undergraduate and graduate courses concurrently during the senior year. The BA and MA degrees will be conferred only after the BA/MA student completes the 120 undergraduate credit hours and 30 graduate credit hours of study successfully. The undergraduate hours for the Theology coursework are reduced to 36 hours from 42 hours. The chair of the Theology major will advise the student on which courses to take

Bachelor's Degree Requirements

The following overall requirements are needed in order to earn a bachelor's degree. For a full explanation of the requirements, please see policy A.04.01.

- Completion of the core curriculum. Specific core plan is dependent upon accepted transfer credit, major, and Honor's Program participation.
- Successful completion *of at least* 120 credit hours, with the final 36 hours taken in Residence at UST. Total credits listed on the page only reflect the major.
- Completion of a major.
- Completion of 36 upper-division credit hours.
- A cumulative grade point average (GPA) above 2.0
- A cumulative GPA above 2.0 in your major
- *Freshman* Symposium is a one-credit hour, mandatory course exclusively for first-year students at the University of St. Thomas, introducing them to the UST mission and the Basilian Fathers' core values of goodness, discipline, and knowledge. Freshmen register for it during the Freshmen Registration/ Orientation events and can choose a class that aligns with their interests, with course descriptions provided in advance.

Theology

Course Code	Title	Credits
THEOC 1301	Faith, Reason, and Revelation	3.0

MA Option 1: Capstone Thesis Direction

Complete 6hrs of Thesis Direction.

Course Code	Title	Credits
THEO 5367	MA Thesis Direction	3.0

MA Option 2: Capstone Comp Exam

Complete the following course.

Course Code	Title	Credits
THEO 5369	MA Comprehensive Exam Preparation	3.0
	Total Credits	66

Theology

Degree Type
Master of Arts

The MA in Theology offers a thorough grounding in the discipline of Theology for those who wish to understand the Catholic faith and its intellectual traditions in their systematic and historical dimensions. Students interested in the ministry of evangelization may choose the Evangelization Track.

Historical Courses

Complete all of the following courses.

Course Code	Title	Credits
THEO 5375	Patristics I	3.0
THEO 5376	Patristics II	3.0
THEO 5377	Medieval Theology I	3.0
THEO 5378	Medieval Theology II	3.0
THEO 5383	Modern Theology I	3.0
THEO 5384	Modern Theology II	3.0

Doctrinal Courses

Choose from the following options:

- Comprehensive Exam Students: Complete **15hrs** of coursework from the options below.
- Thesis Students: Complete **12hrs** of coursework from the options below.

Course Code	Title	Credits
THEO 5349	Christ and the Moral Life	3.0
THEO 5339	Christ the Savior	3.0
THEO 5382	The Triune God	3.0
THEO 5332	Theology of the Sacraments	3.0
THEO 5361	Biblical Exegesis	3.0
THEO 5362	Theology of Grace	3.0

Capstone

Choose from the following options:

- Comprehensive Exam Students: Complete **3hrs**, completing THEO 5369.
- Thesis Students: Complete **6hrs,** completing THEO 5367 *two times*.

Course Code	Title	Credits
THEO 5367	MA Thesis Direction	3.0
THEO 5369	MA Comprehensive Exam Preparation	3.0

Evangelization Concentration

Students with an interest in the ministry of evangelization may choose the Evangelization Concentration in order to take classes more suited to their professional goals. The Evangelization Concentration replaces the Historical Theology Courses with Evangelization Courses and offers a Capstone Project in place of Comprehensive Examinations. When students select this option, the degree plan is as follows:

Doctrinal Courses

Students in the Evangelization Track complete the 15 hours of Doctrinal Courses listed above.

Evangelization Courses

Students complete EVNG 5303 Christ, Culture and Evangelization, and then choose three additional EVNG courses.

Course Code	Title	Credits
EVNG 5303	Christ, Culture and Evangelization	3.0
EVNG 5306	Philosophy for Evangelists	3.0
EVNG 5310	Art for Evangelists	3.0
EVNG 5346	Evangelization in America	3.0
EVNG 5348	Evangelization and Media	3.0

Additional Evangelization Concentration Electives

Students complete 6 hours of coursework consisting of any THEO/EVNG courses.

Evangelization Capstone

Students complete an evangelization project in lieu of comprehensive examinations or a thesis.

Course Code	Title	Credits
EVNG 5399	Evangelization and Culture Capstone	3.0
	Total Credits	36

Theology and Philosophy

Degree Type
Master of Arts

Core Philosophy Requirements

Complete one of the following courses from each group.

Philosophy Group 1

Complete one of the following courses.

Course Code	Title	Credits
PHIL 5314	Thomas Aquinas on Human Nature	3.0
PHIL 5315	Foundations in Thomistic Anthropology	3.0

Philosophy Group 2

Complete one of the following courses.

Course Code	Title	Credits
PHIL 5304	Thomistic Metaphysics	3.0
PHIL 5316	Foundations in Thomistic Metaphysics	3.0

Philosophy Group 3

Complete one of the following courses.

Course Code	Title	Credits
PHIL 5338	Introduction to Thomistic Ethics	3.0
PHIL 5307	Foundations in Thomistic Ethics	3.0

Core Theology Requirements

Choose one Patristic, one Medieval, and one Modern course.

Course Code	Title	Credits
THEO 5375	Patristics I	3.0
THEO 5376	Patristics II	3.0
THEO 5377	Medieval Theology I	3.0
THEO 5378	Medieval Theology II	3.0
THEO 5383	Modern Theology I	3.0
THEO 5384	Modern Theology II	3.0

Electives

Electives can be taken from either graduate THEO or PHIL options. Please note:

- For students taking the comprehensive exam option, 15 credit hours are required.
- For theology or philosophy thesis option, 12 credit hours are required.

Capstone Options: Exam or Thesis

Comprehensive Exam Option

- Choose one of the following comprehensive exam courses.

Course Code	Title	Credits
THEO 5369	MA Comprehensive Exam Preparation	3.0
PHIL 5340	MA Comprehensive Course Exam	3.0

Thesis Option

- Theology thesis: 2 consecutive semesters of THEO 5367 MA Thesis Direction
- Philosophy thesis: 2 consecutive semesters of PHIL 5300 Thesis Direction

Course Code	Title	Credits
THEO 5367	MA Thesis Direction	3.0
PHIL 5300	MA Thesis Direction	3.0

Philosophy Thesis Additional Requirement: Philosophy thesis must take both CLASS 5331 & 5332 Latin for Graduate Study.

Course Code	Title	Credits
CLASS 5331	Latin for Graduate Study I	3.0
CLASS 5332	Latin for Graduate Study II	3.0
	Total Credits	36-42

Women’s Health and Wellness

Degree Type
Graduate Certificate

Women’s Health and Wellness Core

Complete all of the following courses.

Course Code	Title	Credits
WGS 5331	Human Person: Body and Soul	3.0
WGS 5341	Standards & Advances	3.0
WGS 5342	Catholic Medical Ethics and Women's Healthcare	3.0
WGS 5343	Practical and Professional Applications of Women's Health and Wellness	3.0
	Total Credits	12

Courses

Catholic Studies

CS 5320: Educating the Human Person

Explores the Catholic understanding of the human person with a view towards implications for pedagogy. This course examines many aspects of human nature: the unity of soul and body, sensation, emotion, thought, free choice, and habits.

Center for Faith and Culture

Our Mission

The Nesti Center for Faith & Culture provides education and formation to help people examine, discern, and live out the relationship between the Gospel's universal call to love and the worldview and values of the dominant American culture.

Our Vision

Founded by Fr. Donald Nesti CSSp in 1994, the Nesti Center for Faith & Culture aims to bring a faithfully Catholic voice to the ongoing dialogue between faith and culture. Through this dialogue, the Center seeks to foster relationships, mutual understanding, and opportunities for collaboration with people of all backgrounds and beliefs. We strive to form people of faith who have fully integrated the human, spiritual, social and intellectual dimensions of their lives. This developmental process integrates theoretical and practical learning to help people communicate God's unconditional love for the world and serve the common good.

As a recognized Catholic Cultural Center of the Vatican's Dicastery for Culture and Education, the NCFC offers academic programs, learning opportunities, and ecumenical, interreligious, diocesan and community partnerships. Participants in the NCFC programs address America's complex social, political, and religious questions through reflection, dialogue, scholarship, and civic experience.

FC 5301: Faith and the Dominant American Culture

This course seeks to develop an appreciation of the strengths and challenges of the dominant American way of life as embodied in the Declaration of Independence and the Constitution of the United States. It studies the roots of the American Republic, the formulation of its worldview, its principal values, representative character, codes of behavior, and institutions. It then views these through the lens of the Gospel. The course is designed to lead students to appreciate what it means to be faithful citizens and American Catholics, enabling them to bring the Catholic voice into the public discourse.

FC 5302: Christian Anthropology

Based on the understanding of the human person as it is articulated in the Second Vatican Council's Gaudium et Spes and subsequent papal teaching, this course examines the constitutive elements of the human person created in the image and likeness of God. It examines creation, grace, sin, freedom and the communitarian destiny of humankind. The course then will contrast this revealed understanding of persons in community with some of the philosophical understandings of the human person that underlie American individualism.

FC 5303: Virtue: Personal and Civic

American political life, in attempting to separate religion from politics, has, at times, tried to separate politics from ethics and the development of virtue. The first part of this course will argue that such a separation, however well intentioned, cannot sustain effective civic life, and in fact runs the risk of falling into authoritarianism. In the classical and medieval periods—and in the formation of the United States of America—certain personal virtues have been thought to be foundational for a healthy society. This course will consider how those virtues still constitute that foundation. It will show how various political theories are based in suppositions about human nature, and examine those suppositions critically.

FC 5305: Mission of the Church

This course presents the origins of the Church in the mission of Jesus, and the development of the Catholic understanding of the mystery of the Body of Christ. Special attention is given to the ecclesiology of Vatican II in its discussions of the Church's hierarchical and charismatic gifts, the communion of saints, the Catholic Church's commitment to ecumenism and religious liberty, the universal call to holiness, and the mission of the Church today. Consideration will also be given to the Catholic social tradition as an articulation of the Church's mission.

FC 5314: Theology of the Human Person

This course will address the dignity of the human person. This will include the Biblical foundations of our origin, our being made male and female, in God's image; that, as incarnate spirits, we are created for and fulfilled in relationship (communio), destined as God's adopted children in baptism for eternal life. It is the vocation to Trinitarian love in imitation of Christ that marks our destiny; it is lived out in family, church and community, and our baptismal call to discipleship in carrying out His mission in the world in the particular state in life to which we are called (missio). The importance of our capacity for moral integrity as a response to God's initiative will be explored. Special emphasis will be placed on how the discipleship (communio and missio) of man and woman is lived out in the Sacrament of Marriage, an intimate partnership of mutual self-giving.

FC 5316: Theology of Marriage

This course is an introduction to the history and development of the Church's understanding and teachings on marriage of which God is the author. This will include: How Church law has changed in the last 100 years, away from a juridical to a personalist, spiritual understanding of marriage as a path to holiness (Lumen gentium, V) and "an intimate partnership of life and love" (Gaudium et spes, no. 48ff); marriage as covenant, sacrament and "vocation in service to communion" (Catechism, no. 1602 ff) is central to the call and mission of the domestic church. This will include an understanding of the goods of marriage, including the quality of intimacy and communication, as well as the quality of freedom required for valid consent to mutual self-giving of the vows. The contemporary challenges of fertility management, divorce, and related concerns will be addressed within the overall charism of marriage as covenant love, a living sign of Christ and his church.

FC 5318: Theology of Family

This course is an introduction to the theology of the family and will include the Judeo-Christian tradition of the family. It will also explore the history and development of the Church's understanding of the family as a domestic church and will include a study of the family's inclusion in documents of Vatican II, particularly Gaudium et Spes and Lumen Gentium, as well as Gravissimus Educationis and Pope Paul's Evangelii Nuntiandi. A primary focus will be on Pope John Paul's Familiaris Consortio, and his Letter to Families, both of which followed the 1980 Synod on the Family. Special attention will be given to those resources published by the U.S. Catholic Bishops (A Family Perspective in Church & Society, Putting Children & Families First, and Follow the Way of Love) that were designed to explain in detail how to bring this perspective to parish and diocese. Pope Francis' 2016 Amoris Laetitia will be covered in detail. In addition, the family as one of the basic principles of Catholic social teaching will be explored.

FC 5320: Marriage and the Family

This course will focus on the growth and development of a person – including their faith formation – in the context of family. The purpose of the course is to understand the need for lifelong formation in the areas of marriage and family. The vision of John Paul II and Pope Francis– and other Church documents (e.g. Revised Code of Canon Law) stressed that preparation for marriage begins in the earliest years ("remote preparation"), through the immediate preparation prior to the wedding, with follow-up support necessary throughout the life of a marriage and family. Every area of ministry (catechetical, youth, social, etc.) should play a role in this formation. This vision also involves an understanding of the family as a system of relationships that develop and change over time. The focus should be on working with families to strengthen and support their own mission and their everyday "ministry" as spouses, as parents, as extended family members.

FC 5322: Family Today

This course will include an overview of the available research and current statistics on marriage and family in today's world. Sources will be varied and will include both ecclesial and secular sources. The latest statistics on cohabitation, out of wedlock births, and civil (vs) sacramental marriages will be covered. Given the number of growing population of immigrants from Mexico, Latin America and Africa, their influence will be addressed. Other topics to be addressed will be the changing societal trends that impact the Church's ministry to families, such as: What are the pressing issues for the variety of structures/forms of marriage and family life? What are the special needs of the most vulnerable populations, e.g. the economically deprived, the elderly, the sick, those with no extended family or community support? In addition, the increase of childless marriages and the decreasing focus on children will be discussed in depth; abortion is only one of the multiple effects of a culture that overlooks the role and importance of new life in building a healthy society.

FC 5324: Family Partnerships

This course gives a historical overview of the family's place in society across the ages. Whereas the family has always been the primary agent for performing certain tasks from birth to death, there have been significant changes in family responsibilities over the past 150 years. Many family functions have shifted to other institutions, and thus the family is often dependent on "experts" in health care, education, recreation, protection of children, etc. Pope John Paul II called a Synod to address such issues because of the family's essential role as "the basic cell of church and society." Pope Francis called another Synod thirty years later, asking once again how do we support and strengthen the family, how to "accompany" them through these challenging times. His post synodal exhortation Amoris Laetitia articulates the synodal teaching in today's context. The focus of the course will be on the "partnership model" proposed in the U.S. Bishops' document, A Family Perspective in Church & Society, and used successfully in a growing number of other institutions such as schools, hospitals, and social welfare agencies.

FC 6352: Democracy in America: Journey and Genius of Alexis de Tocqueville

This course will consider the various aspects of democracy and republicanism, especially through the American experience since 1776. Most of the course will revolve around a reading of de Tocqueville's masterpiece, Democracy in America, yet it will also draw upon the insights of Edmund Burke and Robert Nesbit. Topics of discussion will include: revolutionary violence, community norms, individual and natural rights, and religion as the basis of culture.

FC 6354: Faith and Science

There is fascinating evidence from the far reaches of the outer universe to the inner workings of the atom that bear striking analogies to theistic religious beliefs. This class will discuss four ways that science and religion can relate: conflict, independence, dialogue, and integration. It will be made accessible in language that non-scientists can understand. A dialogue then will ensue on the analogies of those discoveries to theistic religious beliefs with particular emphasis on Christianity and Catholicism. The course starts with assumptions, and then proposes convergence trends in four broad categories: physics to metaphysics, chemistry to life, biology to consciousness, and psychology to mysticism. A discussion of the science of the brain will coincide with the experience of mysticism. The objective of the course is for students to have a better understanding of how faith and science in recent times have come to be mutually affirming over a broad range of disciplines including physics, chemistry, biology, and psychology.

FC 6355: Faith and Hispanic Cultures within the American Context

This course will focus on the increasing impact that Latinx cultures and spirituality are having on the American society. It will explore the spread of Latin cultures in their diverse forms in North America from 1492 to the present. In particular, it will focus on the roots of the Latinx spiritual imagination both in Latin American theology and popular religion.

FC 6356: Faith and Economics

This course aims to equip students to identify issues of economic justice, and then define effective paths of proper conduct and just action. In this sense, the course has two objectives. The first is to develop a broader vision and deeper understanding of economic justice issues in America. The second is more practical; it is to put students within case-study situations where they must confront the complexities of economic justice and attempt to devise effective action plans. Three sources provide the motivation for this course. First, many people of faith are deeply aware of the economic injustices that exist in American society. By better understanding the Catholic Church's social justice teachings, and also the objectives and proper workings of the market economy, a deeper framework will emerge for addressing economic justice issues within the American culture. A second motivation comes from the intensifying cycle of economic scandal which has inflicted the American economy from 1987-present. This course will provide a diagnosis of this cycle, and how this points to new frontiers for economic justice activism. The final motivation involves a perception that people of faith often enter their professional lives unprepared for the tensions they will encounter. This course aims to provide students with an opportunity to prepare for such conflicts between their faith and their work life.

FC 6359: Catholic Teachings on Education

The course investigates the rich tradition of the Church teaching on education, while, at the same time, challenging students to bring this tradition to bear on related contemporary issues. It explores the many different ways that Catholic education—with its emphasis on beauty, enculturation, formation, and liturgy—stands apart from the dominant culture's assumptions that education is ultimately ordered towards employment and financial success.

FC 6399: Service Learning and Leadership Practicum

The MAFC Program requires that all candidates of the MA degree complete a Service-Learning and Leadership Practicum as the final component of their degree program. This practicum is designed to provide the candidate with the opportunity to integrate and apply, in practical terms, their learning gained throughout the MAFC curriculum. Candidates, in collaboration with an approval of the MAFC Program Director and Site Supervisors, will develop projects in which they will show how they will work with various groups to communicate and instruct others how to integrate faith development with civic and social responsibility. The object of the project is to enhance the life of people of faith through the service provided by the candidates. At the end of the project, candidates will provide the MAFC Program Director with a self-evaluation and the evaluation of their performance given by their Site Directors.

WGS 5301: Faith and the Dominant American Culture

This course seeks to develop an appreciation of the strengths and challenges of the dominant American way of life as embodied in the Declaration of Independence and the Constitution of the United States. It studies the roots of the American Republic, the formulation of its worldview, its principal values, representative character, codes of behavior, and institutions. It then views these through the lens of the Gospel. The course is designed to lead students to appreciate what it means to be faithful citizens and American Catholics, enabling them to bring the Catholic voice into the public discourse.

WGS 5303: Virtue: Personal and Civic

American political life, in attempting to separate religion from politics, has, at times, tried to separate politics from ethics and the development of virtue. The first part of this course will argue that such a separation, however well intentioned, cannot sustain effective civic life, and in fact runs the risk of falling into authoritarianism. In the classical and medieval periods—and in the formation of the United States of America—certain personal virtues have been thought to be foundational for a healthy society. This course will consider how those virtues still constitute that foundation. It will show how various political theories are based in suppositions about human nature, and examine those suppositions critically.

WGS 5316: Theology of Marriage

This course is an introduction to the history and development of the Church's understanding and teachings on marriage of which God is the author. This will include: How Church law has changed in the last 100 years, away from a juridical to a personalist, spiritual understanding of marriage as a path to holiness (Lumen gentium, V) and "an intimate partnership of life and love" (Gaudium et spes, no. 48ff); marriage as covenant, sacrament and "vocation in service to communion" (Catechism, no. 1602 ff) is central to the call and mission of the domestic church. This will include an understanding of the goods of marriage, including the quality of intimacy and communication, as well as the quality of freedom required for valid consent to mutual self-giving of the vows. The contemporary challenges of fertility management, divorce, and related concerns will be addressed within the overall charism of marriage as covenant love, a living sign of Christ and his church.

JPII 5305: Faith and Reason according to John Paul II

This course is an exploration of the encyclical Fides et Ratio (On the Relationship between Faith and Reason). While carefully reading through the entire work, we shall explore two overarching claims made about the relationship between faith and reason: (a) "Each contains the other, and each has its own scope for action." (§17); (b.) "Each without the other is impoverished and enfeebled." (§48). We aim to understand these claims as they pertain to the works of John Paul II and those specific thinkers named as exemplars such as Edith Stein, Etienne Gilson, and Jacaues Maritain.

JPII 5345: Final Project in John Paul II Studies

Required for MA. The final project will consist of a paper and a presentation. The students will study together a special topic in John Paul II. Studies selected by the professor. Common readings and bibliography will be provided. Following weeks of lectures, podcasts and discussions, the students will make presentations of 20-30 minutes to the professor and peers. The students will turn in a 15-page polished paper at the end of the semester. For those who wish, an individual final project can be planned instead of the classroom version. The student must plan and complete this in consultation with and approval from a faculty member. Final projects may include but are not limited to such products as a research paper, a curriculum plan, a set of talks and homilies, outline summaries of key works, an artistic, photographic or video production. Final Project Alternate Format: A final project will be planned by the student in consultation with and approval from a faculty member and completed for this course. Final projects may include but are not limited to such products as a research paper, a curriculum plan, a set of talks and homilies or a retreat. A Final Project could be an artistic work together with a write-up on the thought of John Paul II with the author's paintings, photographic production, video production or play. This alternate format puts the student "in the field" with real world impact and is a major accomplishment of our degree and the student's resume.

Description

This course looks at the foundations of leadership through the lens of the life and works of John Paul II together with other important philosophical foundations of leadership.

The course will be taught online asynchronous. The John Paul II Institute has an established regimen for online courses consisting of 13 weeks of weekly readings, recorded lectures and other materials. In addition, students are required to make substantial weekly posts, replies, and essays or journals. Presentations and or final papers are also required by semester's end.

Rationale

Effective leadership requires knowledge of the foundations of principled leadership. The program is designed to train existing leaders and future leaders in effective, principled leadership. At the request of numerous executives in our original degree program: "Master's in John Paul II Studies", we have come to see the demand for leadership training in the tradition of the life and writings of John Paul II who was a leader of multiple roles, levels and types from pastor, to Bishop, to Pope and head of the Vatican State his life and writings reflect a unique and vital contribution to effective, principled leadership.

Relationship to Existing Programs

Required for the Master's in John Paul II and Leadership Degree

Contribution to UST Curriculum

Key to leadership training are the basics in leadership. 1. Foundations, 2. Models.

This course fulfills the requirement for the study of Foundations of Leadership which may also be satisfied by EDUC 8336 Philosophical Foundations of Leadership

Student Outcomes

- Understand the Philosophical Foundations of Leadership.
- Show how these foundations apply to being an effective leader of principle.
- Demonstrate clear examples of the foundations of leadership at work in actual leaders like John Paul II.
- Contrast styles of leadership which lack the proper integration of these foundations and the risks and consequences involved.

Projected Enrollment

beginning with 5-8 and growing to 8-10

Staff and Expenses

Commensurate with Faculty, Faculty overload or adjunct.

Additional expenses in equipment, teaching resources, etc.

negligible or commensurate with other online/hybrid courses

JPII 5360: John Paul II As a Model for Ethical Leadership

To complete the Master's in John Paul II and Leadership Degree program three credits in Models of Ethical Leadership are required from JPII 5360: John Paul II as a Model for Ethical Leadership which studies leadership through the life and works of John Paul II and supporting works. The course will be taught online asynchronous. The John Paul II Institute has an established regimen for online courses consisting of 13 weeks of weekly readings, recorded lectures and other materials. In addition, students are required to make substantial weekly posts, replies, and essays or journals. Presentations and or final papers are also required by semester's end.

Description

To complete the Master's in John Paul II and Leadership Master of Arts program three credits in Models of Ethical Leadership are required from JPII 5360: John Paul II as a Model for Ethical Leadership which studies leadership through the life and works of John Paul II and supporting works.

Rationale

Effective leadership benefits from knowledge of Models of principled leadership. Models give real life examples of leadership, problem solving and the principles necessary in principled leadership.

This course (or EDUC 8339) serves as a core requirement. The program is designed to train existing leaders and future leaders in effective, principled leadership. At the request of numerous executives in our original degree program: "Master's in John Paul II Studies", we have come to see the demand for leadership training in the tradition of the life and writings of John Paul II who was a leader of multiple roles, levels and types from pastor, to Bishop, to Pope and head of the Vatican State his life and writings reflect a unique and vital contribution to effective, principled leadership.

Relationship to Existing Programs

Required for the Master's in John Paul II and Leadership Degree

Contribution to UST Curriculum

Key to leadership training are the basics in leadership. 1. Foundations, 2. Models.

This course or its equivalent are required to fulfill "Models".

This course fulfills the requirement for the study of Foundations of Leadership which may also be satisfied by https://EDUC 8339 Models of Leadership

Student Outcomes

- Show how the lessons of this class build on the previous course regarding Philosophical Foundations of Leadership.
- Be able to show how these Models of Leadership are helpful in addressing Leadership issues.
- Demonstrate clear examples of leadership modeled by actual leaders like John Paul II.
- Propose applications of the leadership of John Paul II to areas of future leadership facing the student.

Projected Enrollment

Beginning with 5-8 and growing to 8-10

Staff and Expenses

Commensurate with Faculty, Faculty overload or adjunct.

Additional expenses in equipment, teaching resources, etc.

negligible or commensurate with other online/hybrid courses

Please attach any supporting documents

JPII 5370: Seminar With Leaders

Based around the testimonies of real leaders, this course will give real world knowledge examples for students to learn from, discuss and demonstrate. Featured guest speaker/leaders will answer such questions as: "What was the most difficult problem you solved?" "How did you solve it?" "How did your resolution reflect the thought of John Paul II?"

Practicum

Default Section Size 15

Final Exam

Yes

Workload Hours 3.00

Description

A supervised applied leadership experience conducted in partnership with approved business, nonprofit, educational, ecclesial, or cultural institutions in the United States or Poland. Students integrate the philosophical, ethical, and anthropological thought of St. John Paul II with contemporary leadership practice, organizational culture, consulting, and strategic decision-making. Includes faculty mentorship, reflective analysis, and a final professional portfolio or consulting report.

Rationale

From a strategic positioning standpoint, this helps distinguish the program with:

- executive education,
- leadership development,
- organizational ethics,
- and applied consulting.

That is attractive to:

- corporate partners,
- HR/benefits managers,
- foundations,
- executives,
- and international collaborators.

Relationship to Existing Programs

Adds an important practicum dimension/real world experience dimension to the degree.

Contribution to UST Curriculum

A particularly strong structure for our audience.

Substantially increases perceived market value.

Open doors to new partnerships, grants, donors and supporters.

Student Outcomes

- Ability to apply what has been learned in real world applications
- Demonstrate competence in an area such as ethical leadership, cultural awareness, applied ethical principles.
- Gain credentials and experience working with industry experts.
- Test and prove training against practical settings.

Projected Enrollment

8-10 at first scaling to 20 or more

Staff and Expenses

1 Regular or Adjunct coordinator

Additional expenses in equipment, teaching resources, etc.

Nominal, perhaps some international coordination in rare cases ie. foreign collaboration.

For domestic collaborations, commensurate with typical course expenses.

Research

Default Section Size 1

Final Exam

No

Workload Hours 3.00

Description

Individual Capstone/Final Project directed by any qualified professor from the program.

Rationale

This is already approved under JPII 5345 Final Project. The difference here is the student must incorporate what has been learned in the Leadership Courses.

Relationship to Existing Programs

Required for the completion of the degree track: "Master's in John Paul II and Leadership"

Contribution to UST Curriculum

Proposed New degree for Fall 2027 as requested by numerous students and supporters of the John Paul II Institute. Our current degree is already seen as a "leadership training degree" by executives at Boeing and elsewhere. This better positions us to meet the desire for such a degree to assist Human Resource managers to qualify us as an approved degree for ongoing education and education benefits.

Student Outcomes

- Complete the “John Paul II And Leadership” master’s degree
- Reflect, Analyze and Produce a synthesis integrating and evaluating ethical leadership in the context of the thought of John Paul II with a guiding professor.
- Turn in an academic paper or approved synthesis project.

- Incorporate lessons learned from the core courses, electives, seminar, professional immersion or study abroad experience.

Projected Enrollment
beginning 8-10 scaling to 20 and more.
Staff and Expenses
Same as other degree
Additional expenses in equipment, teaching resources, etc.

PHIL 5304: Thomistic Metaphysics

As the culmination of this trio of fundamental courses in Thomistic philosophy, this course in metaphysics, the highest of the philosophical sciences according to Aquinas, has as its first task the nature of metaphysical inquiry itself. This inquiry will involve a crucial set of distinctions, including the distinctions between natural philosophy and metaphysics, substance and accident, essence and existence, act and potency. The Thomistic texts for this course are chosen at the discretion of the instructor.

Description

This course will introduce students to Aquinas's ethics. Key issues discussed will include the ultimate end, the nature of the human act, the distinction between right and wrong actions, the nature of the virtues, the distinction of the virtues, and the role of law in ethics.

Rationale

This course will provide a more accessible introduction for the philosophy/theology MA students.

Relationship to Existing Programs

This course is a more basic introduction to the topic than is currently available in the catalog. It is aimed at the philosophy/theology MA students, who do not need as in-depth a treatment as do the philosophy MA and PhD students. Since the content of this course would overlap extensively with the current philosophy 5304 [or 5314 or 5338], it would have to be excluded from the possible electives for the philosophy MA and PhD students.

Contribution to UST Curriculum

This course will allow the philosophy/theology MA students to learn the material needed without additional and more challenging details.

Student Outcomes

1. Students will identify and explain the ethical concepts of the ultimate end, the nature of the human act, moral good and evil, and virtues.

2. Students will recognize and apply ethical principles in concrete moral issues, such as capital punishment and homicide.

3. Students will be able to read basic texts of Aquinas, especially those from the first part of the second part of the Summa theologiae.

Projected Enrollment

5-6 students every two years

Staff and Expenses

One adjunct or overtime course approximately every two years

Additional expenses in equipment, teaching resources, etc.

None

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

PHIL 5308: God in Philosophy

This course introduces Thomistic philosophical theology. After surveying sources influencing Aquinas—including figures such as Aristotle, Pseudo-Dionysius, Avicenna, Damascene, Anselm—the course engages in close reading of St. Thomas Aquinas's Summa contra Gentiles.

PHIL 5314: Thomas Aquinas on Human Nature

This investigation of Aquinas's philosophy of the human person will have as its primary focus Aquinas's solution to the question of how the human soul can be identified both as the form in the human form-matter composite and as a subsistent entity capable of surviving the corruption of the body. Among other key issues to be discussed are the nature of the passions and the relationship between the intellect and will. Readings from the Prima pars of the Summa theologiae will play a central role in the discussion, with other readings from the Thomistic corpus chosen at the instructor's discretion.

PHIL 5338: Introduction to Thomistic Ethics

Building on the achievements of the course in Thomistic anthropology, this course highlights the human person as agent, as moving toward ends or goods, and finally toward the ultimate end which Aquinas calls beatitudo: happiness. The nature of the ultimate end will thus be the centerpiece of the course discussion, with other key concepts and distinctions which contribute to Aquinas's understanding of the ultimate end coming strongly into play, e.g., the nature of the human act, the distinction between right and wrong action, the nature of and the distinctions between the virtues, and the role of law in human happiness. Discussion will be focused on but need not be limited to questions in the Secunda pars of the Summa theologiae.

This course will focus upon Aristotle's Nicomachean Ethics. It will involve a close reading of the Nicomachean Ethics, with comparison to other relevant works by Aristotle such as the Politics and Eudemian Ethics. Interpretation of the Nicomachean Ethics will be enriched by Aquinas's commentary as well as other more recent interpreters.

Description

This course will focus upon Aristotle's *Nicomachean Ethics*. It will involve a close reading of the *Nicomachean Ethics*, with comparison to other relevant works by Aristotle such as the *Politics* and *Eudemian Ethics*. Interpretation of the *Nicomachean Ethics* will be enriched by Aquinas's commentary as well as other more recent interpreters.

Rationale

This course will provide a more text-based approach to Aristotle's *Nicomachean Ethics* to complement the more topical approaches and better prepare students for their MA and PhD comprehensive exams, which is why several graduate students have asked me to offer such a course in 2026-2027. It will also include more substantial engagement with contemporary interpreters of Aristotle.

Relationship to Existing Programs

At present, no graduate philosophy course is primarily focused on Aristotle's *Nicomachean Ethics* despite its fundamental importance. PHIL 5338: Introduction to Thomistic Ethics is a required course for philosophy MA and PhD students, but that course is primarily focused on the *Secunda Pars* of Aquinas's *Summa Theologiae* and not on the *Nicomachean Ethics* itself or Aquinas' commentary on it. Additionally, that course applies a topical approach to ethics, whereas this course will consist in a close reading of a foundational text in ethics. Moreover, some additional topics will necessarily be covered in this course but not necessarily in PHIL 5338: e.g., the types of friendship, weakness of will, and the nature of pleasure.

Student Outcomes

1. Students will identify and explain basic and advanced concepts and analyze arguments in Aristotle's *Nicomachean Ethics*.
2. Students will create original research that synthesizes primary and secondary source materials.

3. Students will compare and contrast Aquinas' interpretation with more recent interpretations.

Projected Enrollment
5-6 students every 2-3 years
Staff and Expenses
One contractual load course approximately every 2-3 years.
Additional expenses in equipment, teaching resources, etc.
None
Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

PHIL 5359: Philosophical Latin

The objective of this course is to produce facility in reading medieval, philosophical Latin, and in particular the Latin of Thomas Aquinas. Every student in the Center must take this course unless granted a waiver by the Director of the Center for Thomistic Studies. The course must be taken in one semester during the first year of graduate study. The format and content of the course will be set by the faculty member who is responsible for teaching the course that year. It will be taught as part of the regular course load by a member of the Center faculty or another person competent to teach the course. The grade in the course will be determined by the outcome of the Latin test, with grades determined in the following way: Pass at the MA level = "A-". Pass at the PhD level = "A". No grade will be given for the course until the Latin test is passed at one of these two levels. For an entering student who passes the Latin exam at the PhD level this course is waived.

PHIL 5363: Law & Grace in Aquinas

Aquinas's Commentary on the Metaphysics stands out as perhaps the clearest commentary ever written on the metaphysical treatise(s) of Aristotle. This course will offer a guided reading of the Commentary, exploring several questions, including: To what extent do Aquinas's own distinctive metaphysical views appear in his Commentary? How does Aquinas understand the structure of metaphysical science? What are some of the influences on Aquinas's interpretation of the Metaphysics? Some previous familiarity with Aristotle's Metaphysics is encouraged but not required.

PHIL 5379: Evil

This course explores the nature of evil, especially as understood in the thought of Thomas Aquinas. Evil in general is subdivided into suffering and sin. Most questions surrounding the nature of evil concern sin. What is the distinctive nature of sin? What are the diverse causes of sin? What is the very first cause of sin? Do human beings have free will? These are some of the many questions that may be addressed in this course.

PHIL 5392: Twentieth Century Thomist Rev.

This course discusses the genuinely twentieth-century philosophical phenomenon of Thomistic Revival. In almost quixotic manner, literally thousands of Catholic authors worldwide, in monographs, periodicals, and in the entire standard teaching venues, offered Thomistic cures for modern ills. Who were these authors? What motivated them? Why did the Neo-Thomist revival die at Vatican II? Do any hopes exist for a Neo-Thomist revival today? We will address these questions from the perspective of the history of philosophy and from the perspective of philosophy itself.

PHIL 5393: Contemporary Thomism

This course will consider the work of John Finnis, Alasdair MacIntyre, and Servais Pinckaers, who are arguably the three most significant Thomists of the past twenty-five years. Each represents a different background and scholarly community. John Finnis has a background in analytical jurisprudence and has been influential in the revival of natural law in political philosophy and philosophy of law. Alasdair Macintyre's background is in Anglo-American philosophy, sociology and the New Left. His book After Virtue was enormously influential in philosophical circles and he has since developed a more Thomist position. He has had great influence in moral philosophy, both Protestant and Catholic theology, and political philosophy. Servais Pinckaers is a francophone Dominican and his theological formation was at LaSartre and Rome. He was a professor at the University of Fribourg. His attempt to revive Thomist moral theology is the best known. Although the content of his work is closer to that of MacIntyre than that of Finnis, his Dominican background and theological concerns set him off sharply from MacIntyre. The course will focus on these figures' various approaches to such themes as moral goodness, practical reasoning, the common good and justice.

PHIL 6308: Essence and Existence

Thomists distinctively hold the position that in creatures essence and existence are related to each other as potency to act. Since act is really distinct from potency, essence and existence are really distinct. This course will look at Thomas' views on essence and existence in the context of later developments of the Thomistic position and criticisms.

PHIL 6390: MA Thesis Direction

Candidates for a BA/MA degree in the Center for Thomistic Studies must take either PHIL 6390, MA Thesis Direction or 5340 MA Comprehensive Exam Course. Students choosing PHIL 6390,in consultation with a faculty adviser, will select an MA paper submitted for a previous CTS course to be devel;oped into a thesis according to a plan agreed upon by both. The coursel is aimed at helping the student develop skills in research and writing. The acceptability of the paper is not essentially tied to length, and the faculty will accept quality papers in the 30 to 40 page range. The M.A. thesis must be approved by two readers, one of whom is the faculty adviser who approved and supervised the project.

Description

The gateway seminar for the literary non-fiction and memoir track of the MFA program, this course will introduce students to major aspects of style and form in all non-fiction writing:

-Classical and Modern Rhetoric (including Aristotle's Rhetoric)

-Grammar and Style (studies in modern grammar and classic works in the honing of literary style)

-Non-Fiction form (introductory units on literary journalism, memoir, the book review, the essay)

Rationale

The MFA program requires all entering students to enroll in a "gateway" seminar that orients them to their field of study and provides the formation for their success in the program and initiation into its spirit. This course is the non-fiction equivalent of CRTW 6302 (Craft of Poetry) and CRTW 6303 (Art and Metaphysics of Fiction).

Student Outcomes

-Major Texts in their Field

-Portfolio of Short Exercises.

Projected Enrollment

10 per academic year.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

Workload Hours 3.00
Description
The advanced seminar in non-fiction will provide advanced course work for our non-fiction track students, giving them a series of more narrowly focused seminars on particular topics relevant to their track, e.g. Spiritual Autobiography, biography and life writing, the book review, the personal essay and literary journalism.
Student Outcomes
-Orient students to classic examples of work in the non-fiction literary tradition

-Two or three new individual works by the students, inspired by course readings, but also contributing to their overall portfolio in the program, including their MFA thesis.
Projected Enrollment
10 students per semester.
Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

CRTW 6317: Residency in Literary Non-Fiction and Memoir

An intensive course consisting primarily of a 10-day residency, during which time students convene for morning workshops in their chosen genres (poetry, fiction, or literary non-fiction and memoir); engage in an intensive afternoon seminar on an annual theme (e.g. major authors in contemporary literature; Catholic literature of eastern Europe, Africa, and Asia; the Sacramental imagination); and attend evening lectures and readings by distinguished writers and scholars complementary of the seminar theme.

Description

This is the literary non-fiction and memoir version of our established MFA residency courses.

Rationale

This will allow non-fiction students to join in the annual summer residency and receive credit toward their track

Relationship to Existing Programs

This will allow the new non-fiction track students to participate in our established summer residency programming for the MFA.

Contribution to UST Curriculum

This will allow the new non-fiction track students to participate in our established summer residency programming for the MFA.

Student Outcomes

-Advanced pedagogy in aspects of writing practice

-Advanced workshop feedback on current/thesis projects

-participation in the summer literary series

Projected Enrollment

We anticipate enrolling 10 new students per year through this course.

Staff and Expenses

One adjunct/visiting faculty member. $4K summer honorarium.

Description

This will be the non-fiction track equivalent to established courses in the poetry and fiction tracks for an individual, directed thesis that serves as capstone to the program.

Rationale

All MFA students are expected to have a two-part thesis completed prior to graduation, one half of which must be a publishable manuscript. In this track, the student will produce a collection of essays or a unified non-fiction or memoir book.

Relationship to Existing Programs

This will allow us to extend established MFA program course work to an audience of aspiring or practicing non-fiction writers.

Projected Enrollment

We would expect 2-5 per semester.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

English

To read well and to write well are fundamental tasks of the literate person. Since the founding of the University, the mission of the English Department has been to teach students those literary texts written or translated into English that express “the best that has been known and said.” The curriculum emphasizes literature because of its power “to teach and to delight” and its attention to truth and beauty. It stresses critical reading to develop analytical skills. The major in English develops language and writing skills because there is a fundamental relationship between accurate reading, clear thinking and well–organized oral and written expression. The ability to write and speak well is, moreover, good in and of themselves. The English major also recognizes the need to nurture the imagination both in its emphasis on the aesthetic values of literature and in its courses in creative writing. The English major prepares students for graduate work in departments of English and in other fields, as well as for careers in writing and in primary and secondary education; the major imparts knowledge, attitudes, and skills appropriate for many types of professional careers.

English majors follow a program of readings in periods of English and American literature; they also take courses that concentrate on single authors. Many courses include the study of films. English majors study literary criticism in a specialized course, but they explore important critical approaches to literature in many classes. Courses in creative writing and in advanced prose writing are important components of the English major curriculum. The department encourages English majors to take elective courses in nontraditional literary studies to increase their appreciation of diverse cultures and points of view.

Objectives

- 1. Students majoring in English will be competent in oral and written expression and research methods.
- 2. Students majoring in English will demonstrate a basic knowledge of the major authors, the major literary texts, and the cultural, intellectual, and philosophical backgrounds of the traditional historical periods of English and American literature.
- 3. Graduates will be capable of analyzing and criticizing literary texts according to historical, formal (generic), and reader–response critical schools. They will understand the major tenets of archetypal and psychological critical schools and of postmodern criticism.

The department assesses students' achievement in the major by a variety of means, including examinations, oral presentations, and papers in required courses. In their senior year, all English majors must present a thesis or produce a portfolio of creative writing or expository prose prepared under the direction of a professor in a chosen area. A jury of professors before whom the students present and defend their work will judge the thesis or portfolio.

ENGL 5380: Introduction to Film as Literature

A study of film as literary text and the primary form of dramatic presentation in contemporary culture. The course will offer students the opportunity to view film masterpieces in various genres as well as adaptations of major theatrical or literary works in a seminar format. Students will be introduced to the critical apparatus necessary to view motion pictures as a literary medium.

Music

Department Chair: Dr. Michael Richardson, richarm@stthom.edu

A major in music performance or music education provides a comprehensive background in music theory, music history and performance. The vast majority of the department's offerings emphasize Western music with performance concentrations in vocal and instrumental music.

Students who major in these programs will achieve a thorough grasp of academic knowledge about music; will be able to demonstrate their research, writing and performing ability through a variety of tests, concerts and recitals; and will be prepared for further education and for employment in the field of music. Those students who complete the music education program will be able to pass the Texas Education Agency mandated examinations for teachers.

A minor in music provides a structured program for students following other major programs. The program also serves as one of the bases of the University's interdisciplinary fine and performing arts offerings.

The department also offers academic and applied studies for non–majors. It maintains an active recital series for the University and community.

MSM 5330: Practicum

1) MSM students will be invited to two or three larger Houston-area parishes with thriving amateur choral programs for adults and children to observe rehearsals and liturgies directed by professional church musicians. 2) MSM students will be mentored by musicians who have worked in the field and better understand how clergy and church musicians collaborate to prepare meaningful and thoughtful music appropriate for the liturgical year. They will accomplish this by attending worship committee and/or liturgy planning meetings; by learning fundamentals of administration, including planning, finances and budgeting; by developing procedures for forming a choir and engaging the congregation in the musical life of the church. 3) MSM students will write a paper on a topic related to observations made. 4) The MSM student will be required to plan and conduct or accompany a mass with appropriate liturgical music in the Chapel of St. Basil on the UST campus, with the permission of the clergy of the Chapel. 5) It is strongly suggested that the student sing with the RC Diocesan Choir as well as being more fully connected to the larger diocesan community. In the Houston area there often are opportunities also to sing larger oratorio and mass settings with an orchestra.

Philosophy

Philosophy systematically examines fundamental questions about the universe and our place in it. Traditional topics include the nature and existence of God, the relationship between faith and reason, human nature, ethics and human happiness, the fundamental nature of reality, and the sources and limits of human knowledge. The Philosophy curriculum emphasizes the historical and philosophical understanding of St. Thomas Aquinas as providing a distinctive and unifying orientation for the program while engaging the broader philosophical tradition. At the same time, students are equipped with analytical and conceptual skills applicable across disciplines, including law, medicine, business, and the sciences.

PHIL 5397: Philosophy of AI

This course examines the nature of AI and the ethical implications of its development and use. The first part discusses the nature of intelligence and the difference between human and artificial intelligence. It surveys philosophical theories about living beings, the human person, artifacts, and technology. The second part raises ethical questions about AI: the dignity of the human person, moral agency, the common good, copyright, safety, work, and education.

Description

This course examines the nature of AI and the ethical implications of its development and use. The first part discusses the nature of intelligence and the difference between human and artificial intelligence. It surveys philosophical theories about living beings, the human person, artifacts, and technology. The second part raises ethical questions about AI: the dignity of the human person, moral agency, the common good, copyright, safety, work, and education.

Rationale

Organizations need leaders who can bridge AI technical capabilities with business strategy, navigate evolving AI regulations, and deploy AI responsibly. This certificate addresses that gap for working professionals without requiring technical backgrounds.

Within the program, the Philosophy of AI course will educate students about the nature of AI in comparison to human intelligence, and discuss ethical questions from the perspective of the Catholic Intellectual Tradition.

Relationship to Existing Programs

The AI studies program is developed in the Cameron School of Business to address the new opportunities and challenges brought up by AI. The Philosophy of AI course responds to the need of our society to reflect on how new technologies respect human dignity and are used responsibly.

Contribution to UST Curriculum

The course adds to the UST curriculum a reflection upon the new development of AI in light of the Catholic Intellectual Tradition.

Student Outcomes

Learning Objective 1: Understand the nature of AI and its difference from human intelligence.

Learning Objective 2: Learn to develop and apply AI responsibly, in light of ethical reflections steeped in the Catholic Intellectual Tradition.

Projected Enrollment

6

Staff and Expenses

There are several faculty in Philosophy able and willing to teach this course as part of their regular teaching load. Dr. Mirela Oliva, Dr. Brandon Zimmermann, Ryan Miller. No additional expenses required.

Additional expenses in equipment, teaching resources, etc.

None.

PHIL 6352: Augustine on the Soul's Ascent to God

This course examines how Augustine views the natural psychological movements and powers involved in the soul’s ascent to God. Readings include certain of Augustine's early dialogues, De doctrina Christiana, and the latter half of De Trinitate. While the focus is on Augustine’s account, students will encounter various positions from the philosophical schools of late antiquity (NeoPlatonic, Stoic, Epicurean, Skeptic).

Description

This course examines how Augustine views the natural psychological movements and powers involved in the soul’s ascent to God. It also examines the gradation of objects through which the soul ascends. It culminates in Augustine’s account of the human mind as trinitarian in structure.

Rationale

The thought St. Augustine is a central influence on that of St. Thomas Aquinas. By studying Augustinian psychology in the context of Augustine's comprehensive account of reality including his understanding of God, multiplicity, corporeality, and participation, Center of Thomistic Studies are introduced in a holistic manner to the thought of St. Augustine which will benefit their understanding of Aquinas and their teaching capacity. It will also cover certain texts required for their comprehensive exams. This course also includes a substantive guided research and writing component which will build important skills as they write their theses.

Relationship to Existing Programs

This course contributes to the current course offerings for MA and PhD Students at the Center for Thomistic Studies. By offering a course on Augustine, including his philosophical influences, this course fills an important space in the program by equipping them to think alongside a thinker who was one of Aquinas' main influences.

Contribution to UST Curriculum

This course adds to the Center for Thomistic Studies program the opportunity for graduate study of Augustinian psychology.

Student Outcomes

Learning Objective 1: Gain a graduate level understanding of Augustinian psychology.

Learning Objective 2: Gain familiarity with Augustine's corpus and facility in reading his work.

Learning Objective 3: Improve Research and Writing Skills.
Staff and Expenses
Current philosophy faculty are able to teach this course; no additional expenses required.
Additional expenses in equipment, teaching resources, etc.
None.
Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

Theology

Department Chair: Dr. David Deavel, david.deavel@stthom.edu

The major in theology seeks to instill competency in major topics in the study of Catholicism and in the methods of investigation and research appropriate to the discipline of theology. Theology plays a particularly important role in the synthesis of knowledge as well as in the dialogue between faith and reason. The study of theology, as part of a liberal arts education, aids the University community in its "constant effort to determine the relative place and meaning of each of the various disciplines within the context of the human person and the world that is enlightened by the Gospel," and thus in preserving "the sense of the transcendence of the human person over the world and of God over the human person." (John Paul II, *Ex corde Ecclesiae*, 16, 19).

Students who successfully complete the major program will be able to: read and use scripture in accordance with theological methods; interpret documents in Church history according to their historical and theological contexts; and assess, from within the ecclesial tradition, arguments in systematic and moral theology. Fulfillment of these objectives will be determined by means of an exit examination.

The school also offers a five-year BA/MA Combined degree in Theology which enables high–achieving undergraduate students to earn both the bachelor's and master's degrees in a streamlined program combining undergraduate and graduate studies. The BA/MA requires 120 undergraduate credit hours and 30 graduate credit hours of study and allows students to take undergraduate and graduate courses concurrently during the senior year. The BA and MA degrees will be conferred only after the BA/MA student completes the 120 undergraduate credit hours and 30 graduate credit hours of study successfully. The undergraduate hours for the Theology coursework are reduced to 36 hours from 42 hours. The chair of the Theology major will advise the student on which courses to take.

For graduate students, the department offers an MA in Historical Theology. Through its six-course sequence in historical courses and its offering of systematic courses based in the Catholic dogmatic tradition and integrating Sacred Scripture, students will be given a solid basis in Catholic theology that is informed by both Scripture and the Tradition. Students will complete the MA by passing a set of comprehensive exams or, with the permission of the director, an MA thesis.

CLASS 5331: Latin for Graduate Study I

This course begins an introduction to Latin grammar, at a level oriented towards the study of Latin philosophical and theological texts in graduate studies.

EVNG 5302: Reading for Evangelists

Effective evangelists are culturally informed and able to engage productively and confidently with complex literary and nonfiction texts. In this seminar-style course, students will develop and practice strategies for reading in a range of genres and forms with comprehension and charity. Students will also critically assess their own reading habits, use cultural, historical, and/or literary context to gain a deeper understanding of texts, and apply what they learn to the work of evangelization and discipleship.

EVNG 5303: Christ, Culture and Evangelization

This course offers a sweeping introduction to the Catholic faith as a unique, compelling, and incarnational vision of reality. Beginning with the person of Jesus Christ, the course explores the Catholic synthesis of truth, goodness, and beauty and its historical power to shape cultures, form distinctive institutions, and inspire the human spirit. Students will engage major theological themes—including the Incarnation, the Trinity, the sacraments, and the Church—as well as explore the Catholic intellectual tradition, its artistic and musical achievements, and its enduring influence on literature, education, and public life. Special attention is given to understanding how the Church's distinctive vision has historically evangelized the culture and how it can do so today.

EVNG 5348: Evangelization and Media

Informed by media ecology, this course evaluates evangelical approaches in the Catholic church by exploring how their representations of faith and modes of rhetoric evolve out of, and respond to, predominant media environments. First examining the interplay between oral and literate forms of expression as foundational to the Church's intellectual tradition and communication of doctrine, the course then analyzes how Catholic communication has adapted to the challenges of later technological environments constituted by print, electric, and digital media.

THEO 5361: Biblical Exegesis

This class studies the interpretation of the Sacred Scriptures, including the contribution from the Patristic and Medieval period as well as from modern Biblical scholarship. Special attention will be paid to the tensions between modern Biblical scholarship and the Patristic and medieval tradition of interpreting the Bible, as well as to the areas in which the two traditions might enrich each other. The course attends to the philosophic and theological questions inextricable from Biblical exegesis.

THEO 6321: Catholic Epistles

This course is designed to explore the historical and religious contexts of the Christian communities at the end of the first century as reflected Hebrews and in the Catholic Epistles: James, 1-2 Peter, Jude, and the three Johannine letters. Topics include: narrative characteristic of the Greek text, the problem of the authorship, internal and external problems of the Proto-Christian communities, literary analysis of selected periscopes and theological developments manifested in the texts.

Chemistry

Department Chair: Dr. Richa Chandra, chandrr@stthom.edu

Chemists and biochemists study matter and the changes it undergoes. They recognize that there are many different substances in everyday life created by a world of atoms and molecules whose nature and actions account for the properties of these substances. Studying chemistry or biochemistry requires thoughtfulness, analysis, and imagination. It also requires exactness as predictions are tested and views of the atomic and molecular world modified based upon the results of measurements.

Admission to courses beyond CHEM 1341 requires a "C "or better in their prerequisites at the University of St. Thomas or their equivalents at another appropriately accredited institution. The decision on the adequacy of an equivalent rests with the department chair.

The Bachelor of Science (BS) degrees in Chemistry and Biochemistry are accredited by the American Chemical Society (ACS) Committee on Professional Training.

CHEM 5301: Engineering Flow and Heat Exchange

Course aims to equip students with the practical tools needed to apply fluid mechanics and heat transfer in an industrial setting. Topics covered include: Mechanical energy balance; flow of Newtonian and non-Newtonian fluids in pipes; flow through packed beds; compressible flow of gases; conduction, convection, and radiation; heat transfer resistances; and heat exchangers.

Mathematics

Department Chair: Dr. Mary Flagg, flagm@stthom.edu

Mathematics is one of the most permanent and universal of the liberal arts and sciences. The courses offered by the department recognize mathematics as the universal tool for the life, natural, and social sciences. The program's core consists of topics chosen to ensure students understand and appreciate the nature of mathematical thought and the role abstraction and logic play in it.

Computer science is one of the most dynamic and integral of the modern sciences. The courses offered by the department recognize computer science as a universal tool for innovation in various fields, including life, natural, and social sciences. The program's core consists of topics chosen to ensure students understand and appreciate the nature of computational thought and the role algorithms and programming play in it.

The Distinguished Student of Mathematics Scholarship Endowment Fund and the Dr. William A. and Margaret Reddie Endowed Scholarship in Mathematics provide financial assistance to majors in mathematics.

MSDS 5301X: Programming for Data Science

An introduction to programming and using Python, a modern programming language used in data science. Computational will be emphasized through solving problems by writing and testing and debugging programs.

Physics and Engineering

Department Chair: Dr. Vahid Taghikhani, vahid.taghikhani@stthom.edu

All areas of science, technology, engineering and medicine rest upon physical principles of matter and motion, which is why physics is often called the base science. Physics is that branch of science that attempts to discover the laws underlying the natural world, from the smallest subatomic particle to the large-scale distribution of galaxies. Further, physics seeks to express these laws in a mathematical language in order quantitatively model and understand the past, present and even future state for a system.

Engineering has always been an in-demand field with a constant need for critical thinkers and problem solvers. In our engineering programs you will learn the fundamentals of what it takes to be a great engineer. The programs offer a wide array of learning opportunities from traditional classroom and laboratory settings to undergraduate research and engineering design-oriented courses.

Admission to all physics and engineering courses with prerequisites require a “C” or better in those prerequisites. This is true for prerequisites taken at the University of St. Thomas or their equivalents at another appropriately accredited institution. The decision on the adequacy of an equivalent rests with the department chair.

ENGR 5121: Graduate Colloquium I

The course is a graduate level one credit hour course that provides lectures in multiple science and technology in semiconductor. The goal of this course is to provide students a broad view of scientific fields and technologies to learn experiences and knowledge from successful researchers. Domestic and international speakers will be invited to give talks during the semester. From these talks, studnets' knowledge on different areas of semiconductor science and technology will be expanded, which can be useful in your future career.

Student Outcomes

Upon completion of this course, students will be able to:

1. Perspectives of all new technologies and developing scientific fields.
2. Learning experiences from the successful results of the lectures.
3. Brainstorming through interdisciplinary knowledge.
4. Reasoning through interactions with the speakers.
5. Enhanced discussion with classmates through the lectures.

ENGR 5124: Semiconductor Laboratory I

This course is a second-year graduate level one credit hour course that combines lecture and laboratory components. The goal of this course is to provide students with the opportunity to learn and subsequently practice the most common experimental skills in semiconductor manufacturing. Topics include the introductions to vacuum systems, microscopes, scanning electron microscopes, scanning probe microscopes, lithography, thin-film deposition systems, probe stations, cryostats, electrical measurements, and optical measurements.

Rationale

A colloquium course is highly important within the Master of Science in Semiconductor Engineering (MSSE) program because it bridges the gap between academic theory and real-world application

This course is a formal, mandatory component of the approved curriculum for the MSSE program and in it is continuation of ENGR 5122. It is designed to ensure students meet advanced academic standards while staying ahead of industry trends.

Student Outcomes

Upon completion of this course, students will be able to:

1. Perspectives of all new technologies and developing scientific fields.
2. Learning experiences from the successful results of the lectures.
3. Brainstorming through interdisciplinary knowledge.
4. Reasoning through interactions with the speakers.
5. Enhanced discussion with classmates through the lectures.

ENGR 5136: Semiconductor Laboratory II

This course is a second-year graduate level one credit hour course that combines lecture and laboratory components. The goal of this course is to provide students with the opportunity to learn and subsequently practice the most common experimental skills in semiconductor manufacturing. Topics include the introductions to vacuum systems, microscopes, scanning electron microscopes, scanning probe microscopes, lithography, thin-film deposition systems, probe stations, cryostats, electrical measurements, and optical measurements.

This is a new course
Student Outcomes
Upon completion of this course, students will be able to:

1. Manage operational principles of instruments.
2. Learn the basic operation of instruments.
3. Learn scanning electron microscope.
4. Learn e-beam evaporation & chemical vapor evaporation.
5. Learn optical lithography.
6. Learn electron-beam lithography.

7. Learn the manufacturing procedures for making transistors.

ENGR 5300: Introduction to Semiconductor Devices and Physics I

This graduate-level course introduces the physics of semiconductors. Topics include crystal structures (Miller indices), energy bands, direct and indirect bandgap semiconductors, charge carriers, carrier transport mechanisms, carrier statistics, drift and diffusion currents, generation and recombination processes, doping, Fermi levels, p-type and n-type semiconductors, Brillouin zones, and unit cells. The course also covers the operating principles of p–n junctions and diodes, solar cells (optoelectronic devices), MOS capacitors, and MOSFETs.

Description

This graduate-level course introduces the physics of semiconductors. Topics include crystal structures (Miller indices), energy bands, direct and indirect bandgap semiconductors, charge carriers, carrier transport mechanisms, carrier statistics, drift and diffusion currents, generation and recombination processes, doping, Fermi levels, p-type and n-type semiconductors, Brillouin zones, and unit cells. The course also covers the operating principles of p–n junctions and diodes, solar cells (optoelectronic devices), MOS capacitors, and MOSFETs.

Rationale

This is a new course.

Student Outcomes

Upon completion this course, students will:

- Understand the fundamental principles of semiconductor physics.
- Analyze carrier behavior and transport mechanisms.
- Explain the operation of basic semiconductor devices.
- Apply semiconductor physics concepts to nanotechnology and optoelectronic devices.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

ENGR 5303: Semiconductor Manufacturing and Processing Technology

This course is a graduate-level introduction to materials processing and manufacturing, with an emphasis on additive manufacturing (AM) and treatment of semiconductor devices and materials. We will consider integrating deposition processing, powder processing, and solidification processing principles. All the main classes of materials and AM processes are covered. Examples of AM manufacturing may include several of the Main AM process classes: vat photopolymerization, extrusion, jet printing, binder jetting, powder bed fusion, directed energy deposition. Supporting fundamentals underpinning the AM unit processes such as polymerization, rheology of melts, slurries and pastes, powder characterization and processing, focused-beam energy sources and their interaction with materials, and solidification of alloys will also be discussed. Relationships between microstructure development and resulting properties are stressed throughout.

Relationships between microstructure development and resulting properties are stressed throughout.

Rationale

This is a new course

Student Outcomes

Students will be able to

- apply the general materials processing approach to additive manufacturing for ceramics, metals, and polymers and their composites.

- explain how the microstructure development, and thus the resulting material properties, are controlled by the interaction of physical, chemical, thermal and mechanical phenomena in the shaping of materials by additive processing.
- quantitatively analyze the capabilities and limitations of AM relative to established commercial shaping processes.

ENGR 5306: Digital Systems and VLSI Design

This is a first-year graduate-level, three-credit-hour course that combines lecture and laboratory components. The goal of this course is to provide students with the opportunity to learn and practice the most common design steps in the VLSI chip design and manufacturing flow. Topics include a review of combinational and sequential logic design, logic minimization, full-custom transistor-level and gate-level implementation of digital circuits, and design using Verilog HDL. All design activities will be carried out using Cadence or Synopsys toolsets.

Rationale
This is a new course.
Student Outcomes
Upon completion of this course, students will be able to:

1. Specify, design, debug, and analyze combinational and sequential digital circuits.
2. Use Verilog HDL to model, simulate, and verify digital circuits.
3. Utilize layout tools to create full-custom layouts for circuits and systems.
4. Demonstrate the complete VLSI design flow, including timing analysis, place-and-route, and layout-versus-schematic (LVS) verification.
5. Characterize designs based on performance, power, and area efficiency.

ENGR 5309: Introduction to Semiconductor Devices and Physics II

Topics include quantum theory of solids, energy band structures, carrier statistics, operating principles of p–n junctions, Schottky diodes, bipolar junction transistors (BJTs), MOSFETs, heterojunctions, field-effect transistors (including CFETs and FinFETs), 2D material devices, optoelectronic devices (lasers and detectors), fabrication processes, and basic device simulation.

Rationale

This is a new course

Student Outcomes

Upon completion, students will:

1. Develop an in-depth understanding of semiconductor device operation based on fundamental physics.
2. Acquire knowledge aligned with semiconductor industry needs.
3. Gain hands-on exposure to fabrication, measurement methods, and basic simulation concepts.

ENGR 5315: Machine Learning for Intelligent Chip Design

This second-year graduate-level course examines challenges facing traditional VLSI methodologies due to increasing design complexity and scale. The course explores how artificial intelligence (AI), machine learning (ML), and deep learning (DL) are revolutionizing physical design automation. Industrial white papers, case studies, and real-world examples are analyzed.

Industrial white papers, case studies, and real-world examples are analyzed.

Rationale

This is a new course

Student Outcomes

Students will:

- Explain limitations of traditional design practices.
- Analyze AI-based tools such as Google AutoFloorplan, NVIDIA AutoDMP, and AI-driven clock tree synthesis tools.
- Evaluate ML-based routing and timing predictors.
- Identify AI models applicable to VLSI design.

ENGR 5319: Quantum Mechanics

An advanced contemporary undergraduate treatment of the foundation and fundamental principles of Quantum Theory. Topics include the uncertainty principle, the wave nature of matter, Schrödinger's wave equation in one and three dimensions, the quantum nature of energy and angular momentum, harmonic oscillator. Mathematical concepts are treated that arise in quantum mechanics, including operators, eigenvectors and eigenvalues, Hilbert space, Dirac notation and boundary value problems.

Rationale
This is a new course.
Student Outcomes
Upon completion of this course, students will be able to:

1. identify an appropriate problem-solving strategy.
2. apply principles of science, engineering, and mathematics to solving problems.
3. calculate a solution to a problem.
4. evaluate the validity of a solution.
5. demonstrate a command of the matrix, Dirac, and integral formalisms in quantum mechanics.
6. understand the probabilistic nature of quantum measurements.

ENGR 5323: Semiconductor Engineering Internship

This 3-credit-hour summer internship provides students with supervised practical experience in the semiconductor industry or a related research environment. Students engage in hands-on activities that apply fundamental principles of semiconductor engineering to real-world processes, such as device fabrication, characterization, process integration, and quality control. The internship emphasizes the development of technical competence, professional skills, and an understanding of industrial practices. Students are required to complete assigned work, maintain appropriate documentation, and submit a final report or presentation summarizing their internship experience.

Student Outcomes
Upon successful completion of this course, students will be able to:

1. Apply theoretical knowledge and academic training to practical, real-world tasks in a professional setting.
2. Demonstrate technical and problem-solving skills relevant to their field of study.
3. Communicate effectively in a professional environment through written, oral, and interpersonal interactions.
4. Exhibit professionalism, including ethical behavior, responsibility, and time management.
5. Work effectively both independently and as part of a team.

6. Analyze workplace practices and reflect on how academic preparation relates to professional experience.
7. Develop career awareness and identify areas for further professional growth.
8. Produce a structured report or presentation summarizing internship activities and learning outcomes.

Description

This is an introduction to lasers, laser applications, and supporting technologies. Topics include: the theory of laser operation and propagation, some specific laser systems, non-linear optics, optical detection.

Rationale

This is a new course

Student Outcomes

Students will develop an understanding of the underlying theoretical and practical concepts of the design, operation, and characterization of laser systems, as well as a variety of devices used to characterize and/or control optical systems. Upon completion of this course, students will be able to:

1. apply principles of science, engineering, and mathematics to solving problems.
2. evaluate the design of a laser system.
3. describe the evolution of a laser's profile.
4. explain the operating principles of a variety of photodetectors and optical processes.
5. discuss the principles and uses of different gain media.

1. Basics in solid state physics.

2. Electron-electron interactions in a Fermion gas.

3. Second quantization of fermions.

4. Hartree-Fock Approximation.

5. Many-body techniques and electron gas.

6. Perturbation theory and Random Phase Approximation.

7. Plasmon oscillations.

8. Dielectric response and screening of electron-electron interactions.

9. Interacting Boson systems.

10. Superfluidity and liquid Helium.

11. Debye model and thermal properties of phonons.

12. Kohn effect and modified phonon energy.

ENGR 5330: Advanced Solid-State Physics

This is a one-year graduate course on condensed matter physics. The course is addressed to students at the graduate level, both oriented toward theory and experiments. The objective of the course is to present the central principles and a more solid foundation of the quantum theory of solids to students who have already taken introductory courses on solid-state physics and quantum mechanics. The solid foundation is based on the second quantization technique and quantum many-body theory.

ENGR 5333: Semiconductor Metrology and Testing

As semiconductor technology pushes deep into the nanoscale, reliable measurement becomes not just a technical requirement but a conceptual challenge: what it means to measure, resolve, and trust a signal at the limits of instrumentation. This course presents the fundamental principles and practical methods of semiconductor metrology, focusing on widely used characterization tools in device fabrication and process control. Students examine how instruments generate, transform, and report data, with attention to calibration, uncertainty, modeling assumptions, and measurement limits in both in-line and off-line contexts. Emphasis is placed on connecting physical theory, device structure, and real measurement behavior in advanced manufacturing environments.

ENGR 5335: Quantum Physics and Devices

This is a graduate level three credit hour course that explores nanoelectronics and quantum electronics in low-dimensional semiconductor and superconductor devices, focusing on the underlying principles of quantum transport. Harnessing quantum properties is considered key to advancing current semiconductor technologies for information processing. Thanks to breakthroughs in semiconductor fabrication techniques, semiconductor and superconductor quantum devices are now becoming a reality. Additionally, this course will cover the role of quantum physics in semiconductor-based quantum computation, with a particular emphasis on electron charge and spin manipulation, as well as superconducting circuits and superconductor-based quantum computation.

This is a new course.

Student Outcomes

Upon completion of this course, students will be able to:

1. Reasons for the end of planar metal-oxide –semiconductor field-effect transistors (MOSFETs).
2. Two-dimensional electron systems from semiconductors.
3. Semiclassical electron dynamics in two-dimensional systems.
4. Coherent charge transport in one-dimensional systems.

5. Quantum dot physics.
6. Spin and quantum measurements.
7. Superconductivity physics and devices.

ENGR 5336: Physical Chemistry

This course covers kinetic molecular theory and quantum mechanics. Major topics include continuous probability distributions, the origins of quantum theory, solutions to Schrodinger's equation for model systems and the hydrogen atom, approximation methods including perturbation and variational principle, and iterative solutions based off the Hartree-Fock method. Main application areas are molecular spectroscopy, tunneling, computational chemistry, and potential energy surfaces. The language of calculus and differential equations is used throughout.

Main application areas are molecular spectroscopy, tunneling, computational chemistry, and potential energy surfaces. The language of calculus and differential equations is used throughout.

Rationale

This is a new course.

Student Outcomes

Upon completion of this course, students will be able to:

1. Make predictions on the applicability of an equation to specific situations based on the assumptions that were used to derive it.
2. Use the concept of Boltzmann weighting and statistical averaging to predict behaviors of large collections of particles.
3. Identify the failures in classical physics that lead to the development of quantum mechanics.
4. Apply the basic principles of quantum mechanics to construct wavefunctions for simple systems, normalize them, and calculate observables by applying operators.

5. Use the solutions for model systems (Harmonic Oscillator and Rigid Rotor) to make predictions and interpret molecular spectra.
6. Use the solutions for the Hydrogen atom to understand orbital shapes, behavior, and interpret atomic spectra.
7. Identify and apply key approximations needed to solve the SE for multielectron systems.
8. Use molecular orbital theory to make predictions about molecular properties.

ENGR 5498: Master's Thesis

This is the first of two four-credit-hour courses for a Master's thesis completed over two semesters (four credit hours per semester). This course involves independent, faculty-supervised research leading to a master's thesis in semiconductor engineering. Students conduct in-depth study of a specialized topic, which may include semiconductor device physics, microfabrication, materials, nanoelectronics, process integration, or characterization. The work requires formulation of a research problem, critical review of relevant literature, development of methodology, execution of research or simulation, and analysis of results. Students are expected to produce a written thesis and defend their work in an oral examination.

Description

This is an eight-credit-hour course completed over two semesters (four credit hours per semester). This course involves independent, faculty-supervised research leading to a master's thesis in semiconductor engineering. Students conduct in-depth study of a specialized topic, which may include semiconductor device physics, microfabrication, materials, nanoelectronics, process integration, or characterization. The work requires formulation of a research problem, critical review of relevant literature, development of methodology, execution of research or simulation, and analysis of results. Students are expected to produce a written thesis and defend their work in an oral examination.

Rationale

This is a new course.

Student Outcomes

Upon successful completion of this course, students will be able to:

1. Formulate a well-defined research problem in semiconductor engineering or a related area.
2. Conduct a comprehensive literature review and critically evaluate existing research.
3. Apply advanced engineering principles, tools, and methods to solve complex semiconductor-related problems.
4. Design and execute experiments, simulations, or analytical studies relevant to the research topic.
5. Analyze and interpret research data to draw meaningful technical conclusions.

6. Demonstrate independent research capability under faculty supervision.
7. Communicate research findings effectively through a written thesis and oral defense.
8. Demonstrate depth of knowledge and expertise in a specialized area of semiconductor engineering.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

ENGR 5499: Master's Thesis Continuation

This course is in continuation of ENGR 5498. This is the second of two four-credit-hour courses for a Master's thesis completed over two semesters (four credit hours per semester). This course involves independent, faculty-supervised research leading to a master's thesis in semiconductor engineering. Students conduct in-depth study of a specialized topic, which may include semiconductor device physics, microfabrication, materials, nanoelectronics, process integration, or characterization. The work requires formulation of a research problem, critical review of relevant literature, development of methodology, execution of research or simulation, and analysis of results. Description

This course is in continuation of ENGR 5498.

Rationale

This is a new course.

Student Outcomes

Upon successful completion of this course, students will be able to:

1. Formulate a well-defined research problem in semiconductor engineering or a related area.
2. Conduct a comprehensive literature review and critically evaluate existing research.
3. Apply advanced engineering principles, tools, and methods to solve complex semiconductor-related problems.
4. Design and execute experiments, simulations, or analytical studies relevant to the research topic.
5. Analyze and interpret research data to draw meaningful technical conclusions.
6. Demonstrate independent research capability under faculty supervision.
7. Communicate research findings effectively through a written thesis and oral defense.
8. Demonstrate depth of knowledge and expertise in a specialized area of semiconductor engineering.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

School of Theology

Mission Statement

The University of St Thomas School of Theology is dedicated to providing outstanding theological education in the Roman Catholic tradition. We are committed to preparing qualified ministerial leaders to serve a culturally diverse community of faith and a changing world.

History of the School of Theology at St. Mary's Seminary

The School of Theology and the Center for Pastoral Studies are located on the campus of St. Mary's Seminary, 9845 Memorial Drive, Houston, Texas. St. Mary's Seminary was established in 1901 by Bishop Nicholas Gallagher in La Porte, Texas and moved to its current location in 1954. The School of Theology was established in 1968 when the theology department of St. Mary's Seminary became part of the University of St. Thomas.

Set within the residential Memorial area of suburban Houston, the Seminary spans approximately fifty acres replete with natural beauty. Candidates for the diocesan priesthood reside at St. Mary's Seminary as they progress through an extensive program of priestly formation. Lay students pursuing theological degrees, including those leading to ordination to the permanent diaconate and for service as lay ecclesial ministers, commute to the campus for their studies. The Bishop Nold Educational Center, completed in 2001, houses the academic classrooms, a lounge, a multi-media auditorium, and administrative offices.

St. Mary's Seminary

St. Mary's Seminary is a theologate that exists for the personal, spiritual, academic and pastoral formation of men preparing for ordination to the Roman Catholic priesthood. St. Mary's enables ordination candidates to grow in holiness and develop into pastoral leaders who will serve the Church as priests after satisfactorily demonstrating their competence and willingness for effective ministry. The Seminary promotes the full, integral personal growth of each student and emphasizes the development of skills in collaborative ministry.

Students who are candidates for the diocesan priesthood reside at St. Mary's Seminary and are involved in an extensive program of priestly formation. This spiritual formation program is coordinated with the academic and pastoral education provided by the School of Theology and is based on the Program of Priestly Formation of the U.S. Conference of Catholic Bishops. The specific purpose of the seminary formation program is to foster the human and spiritual maturity of the candidates as they grow in their relationship with the person of Jesus Christ and in their desire to serve the People of God in their local diocese.

Center for Pastoral Studies

The Center for Pastoral Studies is designed to academically and pastorally prepare a student for a leadership role in the Catholic Church. It offers a Master of Arts in Pastoral Studies Program (MAPS), which is designed to help develop the academic and pastoral skills necessary for professional service in church ministries.

The Diaconate Program

The UST School of Theology at St. Mary's Seminary is committed to providing the solid academic formation necessary for excellence in ministry. Part of this commitment is lived out in diaconal formation for the state of Texas. The USTST diaconal program is in full conformity with the United States Conference of Catholic Bishops. The academic portion of the Diaconate Program is under the umbrella of the School of Theology's Center for Pastoral Studies.

The Cardinal Beran Library at St. Mary's Seminary

Located on the campus of St. Mary's Seminary, and owned by the Archdiocese of Galveston-Houston, the Cardinal Beran Library is the principal theological resource for the School of Theology. The Cardinal Beran Library building was blessed by His Eminence Joseph Cardinal Beran, Archbishop of Prague, April 17, 1966.

The cornerstone reads: *The lips of the priest are to keep knowledge, and instruction is to be sought from his mouth, because he is the messenger of the Lord of hosts.* - Malachi 2:7

Fall & Spring Hours

- Monday - Wednesday 8:30 a.m. - 10:00 p.m.
- Thursday 8:30 a.m. - 7:00 p.m.
- Friday 8:30 a.m. - 5:00 p.m.
- Saturday 10:00 a.m. - 5:00 p.m.
- Sunday 12:00 - 7:00 p.m.

Summer Hours

Summer hours will begin on May 13th.

- Monday - Thursday 8:30-7:00
- Friday 8:30-5:00
- Saturday and Sunday Closed

It is best to check with the librarians for specific hours during breaks.

Students and faculty of USTST have full access to the Doherty Library and campus resources located on the University of St. Thomas Main Campus. Although the two libraries have separate automation systems, users on both campuses have access to holdings of each.

CG 5302: Pentateuch

An introductory survey of the first five books of the Old Testament--as the story of the people of Israel, with emphasis on the historical, literary, theological, and social contexts that shaped the development of the Pentateuch, its foundational importance, and continued relevance

CG 5307: Sacraments in Parish Life

This course is an introduction to the Church's public worship through the seven sacraments. It will focus upon the systematic historical and theological frameworks within which the principles and practice of the sacraments developed. The principles of sacramental theology will be explored with particular regard to catechesis and pastoral practice, with some attention to the relevant canon law.

CG 5312: Patrology

Patrology, or the study of the early Fathers of the Church, is in a very real sense the study of ourselves. The Fathers, not having the benefit of first-hand experience of Our Lord, relied upon testimony of those who had, i.e. tradition. The study of Patrology is the story of our beginnings as a Catholic Church and is an endeavor which connects us to both our earliest traditions and provides us with the foundations of our doctrine.

CG 5315: Gospels

This graduate introduction to the Gospels (Matthew, Mark, Luke and John) will focus on the text of each of these Gospels and their respective literary, historical and social contexts. The course will begin with an overview of the OT traditions that the canonical Gospels build upon. Following an introduction to the canonical Gospels, special attention will be given to key texts that will help to provide a greater understanding of the teaching of Jesus as well as insight into the theological perspective of each of the individual evangelists. Attention will also be given to the origin and growth of these Gospels and the communities they address within the context of early Christianity. Included is the study of how each gospel is fashioned in such a way so as to make them unique and effective in deepening the faith of their own particular churches and of us today as well. This is a Roman Catholic approach to the Scriptures in light of Dei Verbum that makes use of the critical tools of contemporary biblical scholarship of historical, literary, theological (that includes the spiritual) and pastoral interest.

CG 5323: Anthropology/Eschatology

The capstone course, CG 5323 Christian Anthropology and Eschatology explores the human person in the light of Christian revelation: the human person as created in the image of God, intended human nature as corrupted by original sin, its restoration in Christ through grace; and, the doctrines of justification, good works (human cooperation), and merit in the history of theology. This course also explores the destiny of the human person according to the doctrine of Christian eschatology with a view towards the hope of eternal union with God. The capstone experience assesses each student's understanding of themselves in light of the doctrines of anthropology and eschatology and integrates the program's course of study in a written paper.

YLSD 8305: Mariology

Mariology is an investigation of the Church's Marian doctrine with discussion of the elements furnished by Sacred Scripture and Tradition regarding the Virgin Mary, the Mother of God, and the Mother of the Church. A study of Mary's cooperation in the establishment of the Covenant; the truth of her perpetual virginity as inseparable from her divine motherhood; her collaboration in the order of grace; her Immaculate Conception and Assumption; and her place in ecumenical dialogue. Also to be considered are other pious traditions and their relationship to the ecclesial community.

YPC 7303: Introduction to Canon Law

This course provides an introduction to the current body of ecclesiastical law as contained in the 1983 Code of Canon Law. Students will examine the nature and role of law in the life and mission of the Church, the historical development of canon law, and the principles governing canonical interpretation. Particular attention will be given to Books I (General Norms), II (The People of God), and V (Temporal Goods of the Church), with selected canons from Books VI (Penal Law) and VII (Processes). The course will also introduce other important sources of ecclesiastical law where appropriate. Emphasis will be placed on the pastoral application of canon law in parish and diocesan ministry. Through the analysis of practical scenarios, students will develop the ability to interpret and apply canonical norms in a manner that serves justice, good order, and the salvation of souls.

YPL 5304: Sacraments of Initiation

This course is an introduction to the sacraments beginning with the study of symbol and the principles of sacramental theology. Particular attention will be given to the role of Christian initiation in the life of the Church. Theologies of baptism, confirmation and the Rite of Christian Initiation of Adults will be thoroughly examined with emphasis upon their catechetical implications for pastoral practice.

Description

Readd YPL 7302 as an active course.

Rationale

When a few hundred courses were deleted from the Course Catalog in 2024, this course—YPL 7302 Theology of the Ministerial Priesthood—was mistakenly included. It simply needs to be reactivated as it is a required course in the MDiv program and will be offered in Spring 2026.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

YPL 8105: DR: Practicum in Theology of the Sacraments of Reconciliation & Anointing

This course reviews the theology of Reconciliation & Anointing and practices the various circumstances inwhich the sacraments may be celebrated in the parish.

YPL 8301: Eucharist

This course presents an historical survey of Eucharistic worship in the Church from the New Testament to the present. The course will focus upon Eucharistic theology, with an emphasis on the concepts of presence and sacrifice. In addition, key documents of the inter-denominational dialogues concerning the Eucharist will be examined. The structures and texts of the present Roman rite, particularly the Eucharistic prayers, will receive major attention.

Description

New Course Description: Intended for Arch/diocesan Seminarians who have completed two years of theological study, this course introduces the student to the basic elements of pastoral care, ethical considerations, pastoral sensitivity, grief, challenges in pastoral ministry, the use of self in ministry and the development of pastoral authority and identity.

Rationale

Would like to reactivate this course and add it to the 2nd 5wk Summer Session (5W2) session. This is not a required course and does not change the MDiv program in any way. We are modifying the course description from what it previously was, and changing the grading basis to Pass/Fail. This course will take the place of a CPE experience for some seminarians.

Student Outcomes

Students will become familiar with various Pastoral considerations, practical situations, and practices in the life of a Catholic priest.

Description

Ecumenism & Missiology: A study of the binding nature and purpose of ecumenism as based upon Vatican II Decree on Ecumenism, and the Church's developing doctrine, within the guiding concept of communio in current ecumenical dialogue. The missiology portion of the course will consider the Church’s mission, its purpose and implementation, based upon the key and relevant ecclesial documents.

Rationale

It was decided that two hours better meets the objectives for delivery of this course material. It is requested that this 2-hour course be reactivated for use starting this Spring 2027 semester. It will be used in place of the 3-hour offering of the same title.

YPP 8207: Parish Liturgical Music

Course begins with a survey of the history of sacred music, from early practices of chanted psalmody to its manifold expressions in the present-day Church. Particularly, the history and development of Gregorian chant and sacred hymnody will be presented along with related Church documents. Successful implementation of sacred music in a variety of parish settings will be a foundation for discussion.

YPP 8304: Integrative Seminar

The Integrative Seminar course is the Master of Divinity's formal exit course. Its aim is to help students achieve an integration of theological study and pastoral practice. Students will reflect creatively as a knowledgeable pastoral minister, and articulate their own operative theology of ministry in preparation for presbyteral ordination. The primary emphasis of the course is the continuing development of methods for theological reflection appropriate to pastoral ministry, and the desire to bring this theological reflection into serious engagement with the social, cultural, and pastoral context of ministerial life through the use of the tools of hermeneutical and exegetical study. This methodology will also be used to assess the level of the student's theological integration.

YSD 8305: Mariology

Mariology is an investigation of the Church's Marian doctrine with discussion of the elements furnished by Sacred Scripture and Tradition regarding the Virgin Mary, the Mother of God, and the Mother of the Church. A study of Mary's cooperation in the establishment of the Covenant; the truth of her perpetual virginity as inseparable from her divine motherhood; her collaboration in the order of grace; her Immaculate Conception and Assumption; and her place in ecumenical dialogue. Also to be considered are other pious traditions and their relationship to the ecclesial community.

YSD 8308: Mary & Popular Piety

The first part of Mary & Popular Piety is an investigation of the Church's Marian doctrine in an attempt at synthesis founded on the analysis of the elements furnished by the Sacred Scripture and Tradition regarding the Virgin Mary, the Mother of God and the Mother of the Church. A study of Mary's cooperation in the establishment of the Covenant; the truth of her perpetual virginity as inseparable from her divine motherhood; her collaboration in the order of grace; her Immaculate Conception and Assumption; and her place in ecumenical dialogue/ The second part of Mary and Popular Piety is designed to study the principles and guidelines for the celebration and evaluation of the various devotions and rituals which make up the popular piety of the many peoples of the Church and how these ritual celebrations harmonize with the liturgy of the Church. Basing our study on the principles and guidelines found in the Directory of Popular Piety and the Liturgy from the Congregation for Divine Worship and the Disciples of the Sacraments, we will critique the rituals and devotions commonly found today, especially Marian devotion and Eucharistic Devotion.

YSM 7101: Contemporary Issues in Justice

Central to issues in contemporary justice are specific problems and cases that required the application of Catholic social justice teaching. To explore the application of social justice principles to issues common to the laity in the 21st century, this course will explore and analyze cases, applying social justice teaching to their resolution, and investigate the complexities of solutions in the modern world.

YSM 7303: Catholic Moral Theology II: Human Sexuality and Bioethics

Building upon the principles established in Moral Theology I, this course applies Catholic moral theology to questions concerning human sexuality, marriage and family life, and the dignity of human life. Topics include the theology of the body, chastity and the virtues, procreation and infertility, contraception and IVF, abortion, biomedical research, end-of-life care, and Christian funeral practices. Emphasis is placed on pastoral application and fidelity to the Church's magisterium.

YSM 8303: Spiritual Theology

Spiritual Theology explores the truths of divine revelation and religious experience, those aspects of the supernatural life which pertain to its development and practice, as well as the progression through which souls move toward the transformation which brings the spiritual life to its perfection. This course also considers the characteristics of spiritual direction and focuses on key texts that have shaped Christian spirituality from late antiquity to the twenty-first century. The course consists of lectures, case studies, and class presentations with discussion.

YSM 9310: Spiritual Masters of 16th century Spain

These three saints of sixteenth-century Spain are among the most influential spiritual teachers of the Catholic tradition. This course introduces the lives, works, and a few key doctrines of these saints: Ignatius of Loyola on the discernment of spirits and rules for making faith-based decisions; Teresa of Avila on the stages of contemplative prayer; and John of the Cross on the active and passive purifications (or "nights") which are necessary for our spiritual growth.

Description

YSM 9310 Spiritual Masters of 16th century Spain: *These three saints of sixteenth-century Spain are among the most influential spiritual teachers of the Catholic tradition. This course introduces the lives, works, and a few key doctrines of these saints: Ignatius of Loyola on the discernment of spirits and rules for making faith-based decisions; Teresa of Avila on the stages of contemplative prayer; and John of the Cross on the active and passive purifications (or "nights") which are necessary for our spiritual growth*.

Rationale
We are revivifying an inactive elective number [YSM 9310] this semester (which is not strictly part of the MDiv program--therefore no MDiv changes are needed), in order to offer it to our interested seminarians. Name change is also requested to better match content (Spiritual Masters of 16th century Spain)
Relationship to Existing Programs
elective only
Projected Enrollment
8 seminarians

YSS 5303: Pentateuch

This course is a study of the first five books of the Hebrew Bible (Genesis, Exodus, Leviticus, Numbers, Deuteronomy) that are essential for understanding Israelite history and theology and may also provide the lens through which the entire Bible was intended to be read. Greater focus will be placed on key texts in Exodus, their adaptation and development in Deuteronomy, and on the major themes in Genesis. This will include an introduction to the four major sources of this formative biblical tradition.

YSS 5308: Prophets

This course offers a basic foundation in OT prophecy that begins with the narratives in the Deuteronomic Historical Books, especially focusing on important texts in the books of Samuel and Kings. After this introduction, the course then moves to an in-depth study of the classical prophets, both northern and southern, that takes us through the time of Exile and finally, the restoration of Israel. This course looks at all of Israel's prophets, with special emphasis on Elijah, the Major Prophets, Isaiah of Jerusalem, Deutero-Isaiah, Jeremiah and Ezekiel, and the 12 minor prophets. Emphasis will be given to the prophets' message and style of communication as God's spokespersons, as well as the role of the prophets in the NT and in society.

Multi-Disciplinary

IDST 6305: Culturally Sustainable Education, Global Health, and Economic Development Initiatives

This three-credit hybrid elective interdisciplinary study abroad course provides students the opportunity to participate fully as members of a collaborative, global community of practice. The outcome objective focuses on development of global-oriented critical reasoning and in-country cross-cultural service learning, with emphasis on professional and academic development. The study abroad trip will provide ongoing opportunities to engage with global partners and host communities in developing regions of the world. The course consists of: (a) pre-departure academic coursework and travel/mission orientation training, (b) in-country guided service learning field applications with daily written reflections, (c) re-entry faculty guided reflective-debriefing-data mining towards interdisciplinary study abroad course semester project.

MPPA 5302: Decision Making for Public Policy

The focus of the course is on the role of managers and executives in systematically seeking, organizing and analyzing information to address policy problems. It will especially concentrate on the roles of incentives and tradeoffs as they affect both the creation and implementation of public policy. Leaders at all levels will be better prepared to make good decisions by a deeper understanding of incentives, perverse incentives, unintended consequences, and other factors.

MPPA 5309: U.S. Science and Technology Policy

Prior to WW II, the American government played a relatively small role in the support of science, especially outside of its own institutions. That situation changed dramatically with the war and the Cold War that followed. We explore how these events transformed the role of science in American life, vastly enhancing the prestige of scientists, and shaping the extent and the nature of federal involvement in science. These and later developments, including the commercialization of academic research, raise important questions about the appropriate role of science and scientists in a democracy. In particular: How can we reconcile the need for scientific and technological expertise on the one hand, and for the democratic control of science on the other? We consider different theoretical approaches to this issue, and illustrate the dilemmas it poses with a number of empirical examples.

Workload Hours 3.00
Description
This course will ground students in the development of the political order that forms the context for American public policy.
Rationale
Policy isn't merely a neutral mechanism, but part of the political order in which it is nested. To understand competently how and why policy is made the way it is requires understanding the political order of which it is a part.
Relationship to Existing Programs
Core grounding for MPPA
Contribution to UST Curriculum
Establishes a firm foundation and proper context for more particular courses; contributes the ground that makes the program coherent.
Student Outcomes
Students will be able to
1. articulate the fundamental American policy institutions
2. explain the proper ends/goals of policy, according to the American political order
3. describe why policy formation happens where it does within the system (federal and state, Congress's role vs. state legislatures, etc.)
Projected Enrollment
20
Staff and Expenses
Existing or Adjunct. Drs. Wolfe and Stuart are definitely qualified to teach the course.
Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

MPPA 5321: Government Grants & Contracts

This course will survey the rise of contracts and grants as increasingly important modes of public policy and inculcate a better understanding of how to let (or write) and oversee them well.

Workload Hours 3.00

Description

This is a new course that will be used for the POSC-BA/MPPA joint degree proposal.

Rationale

Grants and contracted work have become increasingly significant elements of how government and public policy function. Understanding their role in the landscape and also how to write and oversee them effectively are essential characteristics for effective leaders.

Student Outcomes

1. Demonstrate understanding of how and where contracts and grants are key elements of public policy
2. Demonstrate knowledge of effective specification and management of contracts and grants

Projected Enrollment

This will be a core course, so all students in the program will be required to take it. Additionally, it may have appeal to students in other graduate programs such as business and even the arts (where much of their funding comes from these kinds of instruments).

Staff and Expenses

I have an adjunct faculty member in mind for this course. We have discussed the possibility and he is amenable.

Additional expenses in equipment, teaching resources, etc.

None

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

MPPA 5323: Conscience, Religious Liberty, and the Public Square

Religious Liberty has some of the strongest legal protections and cultural support in American history and society. It is also true that religious institutions and faith-based organizations constitute much of American social fabric. The actions of those organizations in the "public square" and their interactions with public policy are complex and significant. This course will examine the American understanding of religious liberty as it sets the bounds within which faith-based organizations and government interact. The course will explore such areas as conscience protections, navigating first-amendment implications in policy work, and the role played in American life by religious institutions and faith-based organizations.

Workload Hours 3.00
Description
A new course to be added to the MPPA program.
Relationship to Existing Programs
This course would be part of a focus area within the MPPA but also appealing and useful to a variety of other graduate programs including perhaps education programs, the MLA, theology, nursing (especially on matters of conscience) and any program the students of which might find themselves operating at the intersection of faith and public policy.
Contribution to UST Curriculum
Related to the above, this course approaches an area of apprehension for many professionals as they aren't sure where the lines are.
Student Outcomes

1. Demonstrate knowledge of the boundary conditions of religious-liberty jurisprudence and the Constitution
2. Demonstrate knowledge of the role of religious institutions and faith-based organizations in American life

Projected Enrollment
20
Staff and Expenses
This class could be taught by several current faculty members including Stuart, Wolfe, and Furlan.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

MPPA 5324: Catholic Social Teaching

The Catholic Church has a long tradition of thought on social and political questions. This course will explore that tradition in light of contemporary social and policy problems.

Course Component

Seminar

Default Section Size 20

Final Exam

Yes

Workload Hours 3.00

Rationale

Catholic social teaching is one of the distinctive marks of the Catholic intellectual tradition's approach to politics and society. This course is needed to form students in that principled approach to questions of policy.

Relationship to Existing Programs

This course could serve a larger swath of programs than just the MPPA. A catalog search showed no other graduate-level course on Catholic Social Teaching, and I could see it being of interest for those in other programs including MLA, education, theology, Faith & Culture, Evangelization & Culture, and others.

Contribution to UST Curriculum

A graduate-level course on Catholic social teaching would be an enhancement not only to the MPPA program, but potentially to a number of others as well.

Student Outcomes

1. Articulate an ethically informed theoretical framework for public policy

Projected Enrollment

20

Staff and Expenses

There are several current faculty members qualified to teach the course, e.g. Stuart, Wolfe, Furlan, and probably others in the Theology department, too.

Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

Workload Hours 3.00
Rationale
This is a course that we first offered as a 6393 Special Topics course and the students had a good experience with and the course is especially important to a more mission-aligned MPPA, so it is being transitioned to a standing course number.
Relationship to Existing Programs
This course is primarily important for understanding how laws are actually made. It is primarily for MPPA students, but may have interest to graduate students outside of the MPPA who have some need to understand how legislatures produce laws.
Contribution to UST Curriculum
This course is important to achieving the goal of producing competent professionals in the realm of public policy.
Student Outcomes
1. Demonstrate understanding of the formal and the informal processes through which legislation is made
2. Demonstrate understanding of the agenda-setting process for state legislatures

Projected Enrollment
20
Staff and Expenses
We have an existing relationship with an adjunct who has taught this course as the 6393 class and is eager to do so again.
Are there Other impacted Parties that you have spoken with? Please add their information and date discussed.

MPPA 5354: Emergency Management

This course focuses the practice of emergency preparedness and management, with particular attention to the roles of local governments and nonprofit agencies. The course examines the major policy issues, state and local capacity building, and the design and implementation of hazard mitigation policies and programs.

MPPA 5374: Public Organizations: Theory and Behavior

An examination of how bureaucracy has become the central form of organization in terms of how governments administer public policy in a mass society and what makes for effective leadership in such settings. Particular emphasis will be placed on working with and on teams as an essential feature of organizations that influence, craft, and execute public policy (whether governmental or non-profit).

Rationale

Shifting away from the thesis as too vulnerable to LLMs and toward something more professionally oriented (which is fitting for a degree that's professionally oriented).

Relationship to Existing Programs

There is currently a thesis requirement as the degree culmination and this course will serve that same culminating function but oriented more practically/professionally.

Contribution to UST Curriculum

Further hones the mission focus of the MPPA program

Student Outcomes

1. Demonstrated synthesis across the program's curriculum
2. Effectiveness at managing a project of significant size and scope

Projected Enrollment

not more than 5 per semester, typically

Staff and Expenses

This course would be taught much as the thesis course is now, by the program director.

Communication

The Communication Program at the University of St. Thomas prepares students to become creative, thoughtful, and ethical communicators in a world shaped by media and technology - and called to shape culture in return.

Rooted in the Catholic intellectual tradition, the program views communication not simply as a skill but as a vocation: a calling to seek truth, build understanding, and contribute to the common good.

Students explore how words, images, stories, and digital media shape relationships, communal practices, and cultural imagination. Through a blend of theory and practice, students learn to think critically about media while gaining hands-on experience creating it - developing the ability to communicate with clarity, integrity, imagination, and purpose.

Our program integrates a strong Liberal Arts foundation with experiential learning in storytelling, media production, digital communication, and cultural analysis. Students don’t just learn how to use media - they learn how to understand it, evaluate it, and shape it responsibly.

Graduates leave prepared for careers in various communication fields: media, marketing, education, nonprofit work, ministry, public service, and creative industries - or for advanced study. They are equipped not only to succeed professionally, but to contribute to the renewal of culture through truthful, beautiful, and meaningful communication.

COMM 6310: Media, Technology, & Society

This course explores the reciprocal relationship between digital media, society, and technology. Drawing from Marshall McLuhan's theories and the concept of media ecology, students examine how digital media shapes and is shaped by active audience engagement. Through theoretical readings, case studies, and discussions, topics such as identity formation, social relationships, and cultural production are explored. Students gain insights into the holistic nature of media ecosystems and develop a nuanced understanding of the dynamic interplay between digital media and society. The course focuses heavily on the socio-cultural, ethical, moral, and humanistic questions that arise with the advent of new technologies. Practical assignments allow for hands-on exploration of digital media phenomena, equipping students with critical thinking skills for navigating the everevolving digital landscape.

COMM 6318: Documentary Production

This course provides an intensive, hands-on experience in documentary media production, including logistics, research, planning, project-management, and delivery/exhibition. Working in teams, students conceptualize, develop, and implement a documentary film, video, or digital media project over the course of the semester. All students will receive training in core aspects of the documentary production process, but the course will culminate in a team project with students filling specific crew roles based on prior coursework and individual experience – research, producing, directing, cinematography, production sound, and editing.

COMM 6328: Visual Anthropology & Media Ecology

This course in visual anthropology takes a media ecology approach, examining how visual media shape culture. Drawing inspiration from Marshall McLuhan and other media theorists, the course explores the dynamic relationship between visual media and society. Additionally, the course highlights the contributions of a notable anthropologists and media theorists grounded in the Catholic intellectual tradition, including such scholars as Rene Girard (mimesis and the triangulation of desire through media), James Carey (media ethics, community, and ritual view of communication), Walter Ong (sensory inscription and the relationship between orality, literacy, and technology). Course readings provide a theoretical and historical context, while contemporary case studies, guest speakers, and class exercises offer insights into the intersection of visual culture, anthropology, communication, and Catholic philosophy.

COMM 6338: Representing Reality – Mediating Fact, Fiction, and Truth

Filmmaker Werner Herzog famously claims, "Facts create norms, but truth creates illumination." In this course, we explore the important functional distinction between facts, actuality, and truth in representation and human experience by examining documentary film, Reality TV, documentary-realism in fiction media, and other intersections of what Herzog refers to as “stylization, fabrication, and imagination.” We also survey the art and rhetoric of filmmaking by examining some of the most profound documentary films of the past and present, in order to analyze the strategic use of “reality” and “factuality” in media.

The Department of Political Science, International Studies, and Modern Languages

Department Chair: Dr. Yao-Yuan Yeh yehy@stthom.edu

The Department of Political Science, International Studies, and Modern Languages at the University of St. Thomas prepares students to understand the political institutions, public policies, international forces, and cultural differences that shape our increasingly interconnected world. Bringing together political science, public policy and administration, international studies, diplomacy, global affairs, and modern languages, the department provides an interdisciplinary education for students seeking to become informed citizens, ethical leaders, and globally engaged professionals.

MDSA 5301: Introduction to Diplomacy and Strategic Policy

This seminar is intended to provide a deeper, graduate-level analysis of the art and practice of diplomacy, and the statecraft fundamental to the formulation and successful pursuit of persuasive strategic policy. The nature of leaders and their leadership, the psychology which underpins the proclivities of individual leaders, and their ability to communicate persuasively to both domestic and international influencers will be a course focus. We will examine the practical dimensions of diplomacy as practiced in the 21st century: the “special” role of the US; changing diplomatic practices; the growing need to manage public, social media; the increasingly powerful influence of non-state actors; the impact of revolutionary and post-colonial states; the need for moral leadership and innovative concepts such as the “responsibility to protect”; and, finally, alternatives to diplomacy as appropriate means for mediating relations between an ever-growing number of groups and states in a more complex world. The course will utilize a largely case study method, taking a deep dive into 4-6 major issues. One to two will be watershed historical events, to examine how diplomatic tools were used in support of an overall strategic policy. How was strategic policy developed, how was diplomacy used to advance that chosen strategic policy, and what blowback was experienced? Another 3-4 case studies will analyze seminal, central current issues; students will prepare both a strategic policy and negotiations talking points, among other activities. How could or can the strategic policy and diplomacy be deployed for a better result?

MDSA 5303: Advanced Seminar in Diplomacy and Strategic Studies

This course provides an in-depth investigation into one of the essential topics in Diplomacy and Strategic Studies. The potential topics are theories of politics, economics, diplomacy, and/or strategic studies in the decision-making process that generates foreign policy. In addition, students will be exposed to a broad range of contemporary diplomatic events and puzzles in which the United States and other nations have encountered in the past, is facing currently, and will envision in the near future. The key essence of this course is to facilitate a strong understanding of these issues and develop a number of strategic approaches to manage or even resolve them through theoretical and practical perspectives provided in this course. Students are expected to acquire substantial knowledge of a specific topic in Diplomacy and Strategic Studies after finishing this course.

MDSA 6359: Latin America Cultures: Diversity, Paradoxes and Transformation

This course examines how the interplay of cultures affects our daily lives and how values and beliefs can shape cultural regions. While the course will cover broad theory, particular focus will be on Latin America. The key question is: who is the Latin American? This course will review and deconstruct the paradigm of Latin American character and how it impacts and is impacted by the church, work relations, family, race and gender. The influences of particular historical, geographic and socio–economic forces in Latin American build an image of a coherent cultural region. This is an image, however, full of intra–regional diversity. To what extent then does the cultural ideal type accommodate this diversity? Mexico, Brazil and Argentina will be examined for answers to these questions.

MDSA 6360: Perspectives on Modern China

This course presents the history of modern China from 1860s to today. The course begins with China's forced opening to the West after the Opium Wars and concludes with China's transition at the start of the 21st Century. While emphasizing the chronological record of China's development, discussion also focuses on the changing images of China at home in the West over one and a half centuries. Reliance upon text material is accented by frequent use of film to bring these images and events to life.

MDSA 6371: International Human Rights

This course introduces the theoretical, legal and policy issues of importance in human rights discourse. Students will be provided a solid grounding in the key texts, documents and literature on the subject and will be equipped with a knowledge and understanding of the fundamental legal, political and nongovernmental organizations which underpin human rights practice. Emphasis will be international in nature and will focus on the international rules and institutions that address human rights. No prior knowledge of the law or any particular legal system is required.

MDSA 6372: Diplomatic Tradecraft

This course will focus on the mechanics of foreign policy and active diplomacy from the practitioner's point of view. The students will work in a mock embassy setting with each student holding an “account” or portfolio of an embassy officer in a functional eld such as deputy chief of mission, political, economic, consular, management, security, public diplomacy, defense attaché, legal attaché, technology, commercial attaché, intelligence, and aid/development. The instructor will assume the role of Ambassador, Chief of Mission, and working with the “country team,” will work through a number of scenarios, with students witching roles as they work through each scenario. Students will prepare operational memoranda, diplomatic notes, reporting cables, plan mission objectives, and manage crises. This will enable students to experience the nuances of foreign policy formulation from different agency perspectives as they craft a united embassy-wide response to each scenario.

MDSA 6376: Contemporary Taiwan

This course is a survey of the contemporary history, politics, economics, and external relations of the Republic of China on Taiwan, known to most of the world as simply Taiwan. While founded on mainland China in 1912, the Republic of China we know today has been shaped largely by events after 1949. On the verge of total defeat near the end of China's civil war, the Nationalist government reestablished itself on the island of Taiwan. Since 1949, Taiwan has transitioned from abject poverty to one of the wealthiest societies in the world; from fascism to liberal democracy; and from near universal diplomatic recognition to nearly complete diplomatic isolation. This course will explore the immense challenges faced by Taiwan's people and government and investigate the manner in which such an imperiled island managed such a fascinating process of change. Highlighted as well is the prominent role played by the United States in guaranteeing the regional security necessary for Taiwan's ascendance.

MDSA 6377: Government-Business Relations in the Developing World

This course explores the country risks businesses and non–profit organizations face in the developing world, including government instability, the lack of government capacity, insecurity, dysfunctional legal systems, corruption, human rights violations, poverty, poor infrastructure, and a low level of social services, including poor education and health care. Examined will be how such entities evaluate these risks before entering a country and how they manage these risks once on the ground. The course also analyzes the ethical issues encountered in doing business in developing countries.

MDSA 6379: Cyber Warfare

This course overviews the growth and scope of cyber warfare and its impacts on national power in the domains of government, diplomacy, international law, international commerce/economic power, social media/privacy, science/technology, and civil society. It traces the evolution of conflict from traditional information gathering to the development of cyber weaponry with destructive capabilities and the use of those capabilities to advance national foreign policy interests. Through the use of case studies and selective readings from a variety of sources (government policy directives, cyber security industry studies, and defense related academic papers), the course guides students through the emergent quality of the broadening scope of cyber conflict and the multifaceted response to the challenge. Ultimately, students are confronted with the impact of the ongoing threat as they interface with cyberspace in their day-to-day interactions. The goal is for a deeper understanding of the scope and complexity of the cyber domain and the global conflict that is raging out of view.

MDSA 6381: International Security in East Asia

This course will provide a broader understanding of security and geopolitics in East Asia. With the rise of China and the nuclear threat from North Korea, the security dynamics within and beyond East Asian states is of critical importance to both the United States and the world. To better comprehend such complex security dynamics in East Asia, this course will review the historical progress of diplomatic and security related interactions between East Asian countries, and their relations with the United States as well. After a profound understanding of the history is acquired, this course will guide students to analyze the current events and potential changes in this region and derive policy implications and strategic proposals for the East Asian countries and the United States.

MDSA 6382: Taiwan Culture in the Sinophone World

This course guides you through important topics for thoroughly comprehending Taiwan's culture and utilizes it to understand the Sinophone World. To begin, we review the historical development and demographic composition of Taiwan. The second section reviews the four core philosophic/religious doctrines of Taiwan and the Sinophone World: Confucianism, Taoism, Buddhism, and folk religion. The instructor introduces the cultural, religious, and philosophical practices in Taiwan and the Sinophone World, and illustrates how those philosophical doctrines are realized in these practices.

MDSA 6393: Special Topics in Diplomacy and Strategic Studies

Special Topics courses cover varying topics relevant to diplomacy and strategic affairs and are designed to be taught by past or current practitioners or content specialists. Such courses will provide theoretical and technical coverage of regional, country, and/or topic-based content from semester to semester. Special Topics courses allow students to pursue deeper examination of particular issues and areas of their interest. The key essence of these courses is to complement the student's contextual understanding of the prescribed curriculum of the MDSA Program.

Master in Liberal Arts

Mission/Goals

The Master in Liberal Arts is an exceptional opportunity for those who would like to obtain a master's degree and add to their knowledge, especially in areas not covered in their undergraduate education. The MLA program is designed to supplement and enrich a student's previous education in the liberal arts. Unlike conventional graduate programs with their narrower specializations, the MLA program encourages, in fact by its very nature requires, students to expand their knowledge in various disciplines. The program therefore aims not only at a deeper understanding of each subject studied, but also at an integration of the various aspects of knowledge, art, and life.

In an environment infused by the tradition of Catholic higher education, the MLA program at UST gives students the opportunity to stretch their minds to full capacity, to ponder issues that give full meaning to life and to cultivate wisdom. It invites you to undertake the journey of cultivating the mind in light of truth.

MLA 5312: Conducting

The director's role in presenting liturgical choral music, including rehearsal techniques, diction, balance, phrasing, interpretation and working with instruments.

MLARTHI 6335: American Art and Architecture

This course provides a comprehensive survey of American art and architecture from the Colonial period to the present. Students will explore the development of distinctly American artistic and architectural styles as they emerged from European influences and evolved to reflect the nation's changing cultural, social, and political landscape. The course will cover major movements and periods including: Colonial art and architecture (17th-18th centuries); Federal and Greek Revival styles (late 18th-early 19th centuries); Hudson River School and American landscape painting, Victorian era and Gilded Age aesthetics, American Impressionism and Realism, Early Modernism and the Ashcan School, Art Deco and Depression-era art, Abstract Expressionism and Post-War Modernism, Pop Art and Minimalism, and Postmodernism and Contemporary movements. The course utilizes the American Art collections at the Museum of Fine Arts, Houston, The Menil Collection, the Houston Museum of African American Culture, and the Contemporary Arts Museum, Houston.

MLCOM 6310: Media, Technology, & Society

This course explores the reciprocal relationship between digital media, society, and technology. Drawing from Marshall McLuhan's theories and the concept of media ecology, students examine how digital media shapes and is shaped by active audience engagement. Through theoretical readings, case studies, and discussions, topics such as identity formation, social relationships, and cultural production are explored. Students gain insights into the holistic nature of media ecosystems and develop a nuanced understanding of the dynamic interplay between digital media and society. The course focuses heavily on the socio-cultural, ethical, moral, and humanistic questions that arise with the advent of new technologies. Practical assignments allow for hands-on exploration of digital media phenomena, equipping students with critical thinking skills for navigating the everevolving digital landscape.

MLCOM 6354: Documentary Production

This course provides an intensive, hands-on experience in documentary media production, including logistics, research, planning, project-management, and delivery/exhibition. Working in teams, students conceptualize, develop, and implement a documentary film, video, or digital media project over the course of the semester. All students will receive training in core aspects of the documentary production process, but the course will culminate in a team project with students filling specific crew roles based on prior coursework and individual experience – research, producing, directing, cinematography, production sound, and editing.

MLCOM 6361: Project-Based Practicum in Communication

This is a project-based practicum course that focuses on design thinking, leadership/teamwork, and the real-world application of academic and professional skills. Students work in teams of 4-5 to execute an industry sponsored project with the guidance of a faculty mentor. The course consists of a series of structured class meetings, followed by a field practice period of approximately 9 weeks. During the fieldwork phase, students meet weekly to debrief in small groups with a faculty or industry advisor. Students maintain a weekly progress report, as well as an ongoing self-assessment of performance and lessons learned. The course culminates in a Leadership Project Review, which includes a written overview and an oral presentation on the overall project experience and learning outcomes.

MLCOM 6380: Propaganda & Mass Communication

The class gives students a deep understanding of what propaganda is, how it differs from persuasion and what role it has in societies, both past and present. Students gain insights of the historical and social contexts in which various types of propaganda have occurred from a mass communication and media filtered perspective. Students also analyze and research various topic-specific case studies in propaganda, both past and current. Emphasis is also placed on the role of film and documentary making in various propaganda campaigns.

MLCSB 5909: Legal Environment of Business

This course provides a study of law as it relates to organizational activity. Emphasis is placed on current legal problems, together with evolving theories or trends within the law. Primary emphasis is placed on business, the formation of contracts, the problems with sales contracts, secured sales contacts and security interests, and the proper forms of business organizations including sole-proprietorships, partnerships, limited liability companies and corporations. The course introduces the student to the problems that currently beset the business community, the origins of those problems, the consequences anticipated and, basically, what is to be expected in the future. The student should come to an understanding of the dangers to be encountered with such problems as changes in corporate structures, mergers and acquisitions, changes in employment responsibilities, civil rights considerations and violations, harassment problems, early buy-outs, forced retirements, etc. At the end of the course it is hoped that the student will be familiar with not only the problems to be encountered in the business world, but the language and legal thinking surrounding these problems. Prerequisites: None.

MLECO 5371: Free Enterprise and Conscious Capitalism

This course examines the relationship between Free Enterprise and Conscious Capitalism with a focus on entrepreneurial business enterprises that produce positive impacts in society. Students examine the role of organizational leaders in providing opportunities in support of resourceful and sustainable communities. Students consider the relationship between institutional structures and a flourishing social order as a foundation for entrepreneurial success. Students learn to think critically about the system of democratic capitalism, the role of government and dimensions of the free enterprise system. This includes an understanding of the stakeholder model of business, elements of conscious leadership and management of organizations in a way that provides a sense of meaning and purpose. This is the first course in the Free Enterprise and Entrepreneurship minor progression.

MLELEC 5301: Critical Thinking

Critical thinking is an examination of how to determine the differences between effective and ineffective ideas -- between how something does or does not "make sense." This course studies the quality of thinking used in reaching conclusions. Thinking that is clear and accurate results in behavior and communication that is effective, appropriate and responsive to the situation. Thinking that is confused, foggy or distorted can lead to misunderstandings, frustration, inappropriate responses, inconsistency and even ill will.

MLFC 5301: Faith and the Dominant American Culture

This course seeks to develop an appreciation of the strengths and challenges of the dominant American way of life as embodied in the Declaration of Independence and the Constitution of the United States. It studies the roots of the American Republic, the formulation of its worldview, its principal values, representative character, codes of behavior, and institutions. It then views these through the lens of the Gospel. The course is designed to lead students to appreciate what it means to be faithful citizens and American Catholics, enabling them to bring the Catholic voice into the public discourse.

MLFC 5303: Virtue: Personal and Civic

American political life, in attempting to separate religion from politics, has, at times, tried to separate politics from ethics and the development of virtue. The first part of this course will argue that such a separation, however well intentioned, cannot sustain effective civic life, and in fact runs the risk of falling into authoritarianism. In the classical and medieval periods—and in the formation of the United States of America—certain personal virtues have been thought to be foundational for a healthy society. This course will consider how those virtues still constitute that foundation. It will show how various political theories are based in suppositions about human nature, and examine those suppositions critically.

MLFC 6326: Christian Leadership

This leadership course will afford the student the opportunity to study, analyze, and acquire the attitudes and habits of leadership in the style of Jesus of Nazareth. It will provide the student with the vision, values, attitudes, and behaviors that any Christian leader must espouse for effective leadership either in the religious or the secular context. While much good can be found in contemporary leadership management courses, far more than management skills is expected of a leader who follows Christ.

MLHIS 5123: Unborn Child in Western Tradition

This course explores the history of ideas, attitudes, and practices regarding the unborn child in the Western tradition, with a special focus on the Christian tradition and on America as both an articulation of and a departure from that tradition. After outlining pagan, Jewish, and Christian views of unborn life in the ancient and medieval periods, the course moves to a discussion of the “new embryology” of early modernity and its unfolding in American life and thought from colonial times to the present. Because understandings of unborn life have been so often shaped by the broader social circumstances under which such life has come to be, the course also examines issues of fertility and family formation, women’s identity as mothers, the experience of abortion, and the roles of law and medicine. Catholic teaching forms a normative template throughout the course.

MLHIS 5314: History of Strategic Management

Strategic management is the process of setting goals, procedures, and objectives in order to make a company or organization more competitive and innovative. Strategic management has a history that dates back to antiquity. Students in this course gain knowledge about strategic management and leadership by studying historical examples of successful and unsuccessful organizational strategies. This course examines the evolution of strategic management in the 19th, 20th and 21st centuries, but also probes the less discussed sources of strategy in the Ancient world (Greece, Rome)

MLHIS 5322: The Inklings

This course explores the literary works and intellectual legacy of the Inklings, an informal group of writers and scholars who met in Oxford from the 1930s to the 1950s. We will focus on the core members—J.R.R. Tolkien, C.S. Lewis, Charles Williams, and Owen Barfield—while also examining the broader circle of associated figures. The course emphasizes how the Inklings' friendships, discussions, and mutual critiques influenced their individual and collective literary output. By emphasizing both individual achievements and collaborative influences, students will gain insight into the power of literary fellowship and its influence and impact on members' individual works.

MLHIS 5324: Crime & Punishment in America

This course examines the history of crime and punishment in America from colonial times to the dawn of the twenty-first century. It addresses changing theories of crime and punishment and their varying applications, including corporal punishment, the rise of the penitentiary, and the attempted reforms of the late-nineteenth and twentieth centuries. The course also examines changing definitions and categorization of crime in areas such as sexual conduct, economic activity, race, and religion.

MLHIS 5370: The Enlightenment and its Critics

After critical reading of selections from the main thinkers of the Enlightenment, from Descartes to Kant, founders of the ideological currents that lead through modernism to post-modernism, we will consider some important thinkers who have gone against the current of Enlightenment axiomatic beliefs about human nature and human fulfillment, so to speak, with alternative paradigms on the great issues confronting modernity.

MLHIS 6317: St. Francis of Assisi. The Light of the Middle Ages

This course centers on the life, writings, and legacy of St. Francis of Assisi, presenting him as both a product of the extraordinary vitality of the medieval world and a decisive agent of cultural, spiritual, and social transformation. Through close reading of Francis's own writings and early biographical sources, students will examine his radical understanding of poverty—not merely as material deprivation. Francis's vision of fraternity, community, creation as a sign of the Creator, and evangelical life will be analyzed as responses to the profound changes reshaping medieval society. From this foundation, the course expands outward to explore the Middle Ages as a period of remarkable splendor, creativity, and innovation in theology, politics, art, and economic life. Rejecting the notion of the medieval world as static or obscure, the course presents it as a civilization in motion, shaped by demographic growth, urbanization, the birth of city-republics in northern Italy, new economic structures, and evolving forms of political organization. Particular attention is given to the social tensions generated by these transformations, including the emergence of new forms of poverty, inequality, and violence. The course examines the challenges faced by the medieval Church, including the spread of heretical movements such as Catharism, the failures and transformations of crusading ideology, and the institutional responses culminating in the Fourth Lateran Council (1215). Within this context, students will study how the Franciscan and Dominican movements, through distinct charisms, played a crucial role in renewing Christian life, re-engaging urban populations, and reshaping theology, pastoral practice, art, and economic thought. Offered during the 800th anniversary of the death of St. Francis, the course invites students at the University of St. Thomas to encounter the Middle Ages through one of its most luminous figures and to understand why Francis continues to illuminate Western culture.

Description
Course Description

This course centers on the life, writings, and legacy of **St. Francis of Assisi**, presenting him as both a product of the extraordinary vitality of the medieval world and a decisive agent of cultural, spiritual, and social transformation. Through close reading of Francis's own writings and early biographical sources, students will

examine his radical understanding of poverty—not merely as material deprivation. Francis's vision of fraternity, community, creation as a sign of the Creator, and evangelical life will be analyzed as responses to the profound changes reshaping medieval society.

From this foundation, the course expands outward to explore the Middle Ages as a period of remarkable splendor, creativity, and innovation in theology, politics, art, and economic life. Rejecting the notion of the medieval world as static or obscure, the course presents it as a civilization in motion, shaped by demographic growth, urbanization, the birth of city-republics in northern Italy, new economic structures, and evolving forms of political organization. Particular attention is given to the social tensions generated by these transformations, including the emergence of new forms of poverty, inequality, and violence.

The course examines the challenges faced by the medieval Church, including the spread of heretical movements such as Catharism, the failures and transformations of crusading ideology, and the institutional responses culminating in the Fourth Lateran Council (1215). Within this context, students will study how the Franciscan and Dominican movements, through distinct charisms, played a crucial role in renewing Christian life, re-engaging urban populations, and reshaping theology, pastoral practice, art, and economic thought. Offered during the 800th anniversary of the death of St. Francis, the course invites students at the University of St. Thomas to encounter the Middle Ages through one of its most luminous figures and to understand why Francis continues to illuminate Western culture.

Rationale

This course is offered as part of the University of St. Thomas's participation in the international commemoration of the **800th anniversary of the death of St. Francis of Assisi (1226–2026)**. The anniversary provides a unique opportunity to reflect not only on the life and witness of one of the most influential figures in Christian history, but also on the medieval world that shaped him and was, in turn, profoundly reshaped by his presence.

By situating St. Francis within the social, religious, economic, and cultural transformations of the thirteenth century, the course invites students to engage the Middle Ages as a living and dynamic civilization rather than a distant or obscure past. In keeping with the mission of the University of St. Thomas as a Catholic institution committed to intellectual tradition and moral inquiry, the course encourages students to consider how Francis's vision of poverty, fraternity, peace, and care for creation continues to speak to contemporary questions of justice, community, and spiritual meaning.

Relationship to Existing Programs

This course complements and strengthens the History Department's offerings in medieval, religious, and cultural history by providing an interdisciplinary examination of the Middle Ages through the lens of a single, historically transformative figure. It aligns with existing courses on medieval Europe, Church history, and the history of ideas while offering a distinctive focus on the interaction between social change, theology, art, and economic structures. The course also supports interdisciplinary collaboration with Theology, Philosophy, Art History, and Economics, enriching students' understanding of medieval civilization as a unified yet complex historical phenomenon.

Contribution to UST Curriculum

This course contributes to the University of St. Thomas curriculum by advancing its mission to integrate faith and reason, historical inquiry, and ethical reflection. It encourages students to engage critically with primary sources, visual culture, and scholarly interpretation while reflecting on enduring questions of wealth, poverty, community, creation, and human dignity. **Offered during a campus-wide commemoration of the 800th anniversary of St. Francis's death, the course serves as a cornerstone for interdisciplinary dialogue and communal reflection, fostering a deeper appreciation of the Catholic intellectual tradition and its relevance to contemporary cultural and moral challenges.**

Student Outcomes

1. To understand the life and writings of St. Francis of Assisi within the historical context of the High Middle Ages.
2. To examine the Middle Ages as a period of intellectual, theological, artistic, political, and economic innovation.
3. To analyze the impact of Franciscan thought on medieval theology, urban society, political imagination, artistic production, and economic life.
4. To distinguish historical realities from later legends and idealized portrayals of St. Francis.
5. To engage critically with primary sources and secondary scholarship related to St. Francis and medieval culture.

MLHIS 6318: The Medici: Masters of the Renaissance

The Medici family has long fascinated historians and the public alike—a dynasty of brilliant bankers, ambitious rulers, dazzling patrons of the arts, and powerful women who shaped politics and culture behind the scenes. They were celebrated and feared, admired and envied, remembered both as visionaries and schemers. This course explores the rise and decline of the Medici family, tracing their extraordinary role in shaping the cultural, political, and economic life of Florence and Europe from the late Middle Ages to the dawn of the modern era. We will investigate their contributions to art, philosophy, literature, banking, and politics, their influence on the Renaissance, and their pivotal role in the religious and political upheavals of the Reformation, while distinguishing between the myths that surround them and the historical realities. By engaging with primary texts, major works of art, and the scholarship of leading historians, students will gain a deeper understanding of the Medici legacy as both patrons and power-brokers. We will ask: How did a family of bankers come to dominate Florence? How did they influence the Renaissance and open paths to modern thought and reform? And what explains their eventual decline?

MLINS 6359: Latin American Cultures: Diversity, Paradoxes and Transformation

This course examines how the interplay of cultures affects our daily lives and how values and beliefs can shape cultural regions. While the course will cover broad theory, particular focus will be on Latin America. The key question is: who is the Latin American? This course will review and deconstruct the paradigm of Latin American character and how it impacts and is impacted by the church, work relations, family, race and gender. The influences of particular historical, geographic and socio–economic forces in Latin American build an image of a coherent cultural region. This is an image, however, full of intra–regional diversity. To what extent then does the cultural ideal type accommodate this diversity? Mexico, Brazil and Argentina will be examined for answers to these questions.

MLINS 6360: Perspectives on Modern China

This course presents the history of modern China from 1860s to today. The course begins with China's forced opening to the West after the Opium Wars and concludes with China's transition at the start of the 21st Century. While emphasizing the chronological record of China's development, discussion also focuses on the changing images of China at home in the West over one and a half centuries. Reliance upon text material is accented by frequent use of film to bring these images and events to life.

MLINS 6361: Global Energy

This course explores the political, social and economic issues surrounding the global exploration, supply and consumption of energy. The politics of energy examines the national, multinational, and transnational actors that compete for energy resources. The relationship between energy and security is investigated with special attention to the Middle East, China, India, and the United States. The social consequences of the search for and use of fossil fuels is examined, as well as the economics of fossil fuels, biomass, and renewal energy resources. Considerable attention will be granted to studies forecasting future supply and demand, as well as the cost benefit analysis of alternative energy sources.

MLINS 6370: Global Health

The study of global health requires the examination of predominant health issues and current health policy from the local to international perspectives and analysis. The increasingly open flow of resources, including human capital, and the potential of the catastrophic impact of epidemics and pandemics has transformed health from a domestic to a multi–national concern and challenge. Emphasis will be on the international health regime characterized by the institutional rules, norms, and organizations that address global health. Specifically, this course examines and discusses topics in health – and organization–related issues, including a current survey of global health problems, surveillance of diseases and injuries, basic methods for outbreak investigation, international health policies and treaties, and introduction to organizational theories relevant to global health.

MLINS 6376: Contemporary Taiwan

This course is a survey of the contemporary history, politics, economics, and external relations of the Republic of China on Taiwan, known to most of the world as simply Taiwan. While founded on mainland China in 1912, the Republic of China we know today has been shaped largely by events after 1949. On the verge of total defeat near the end of China's civil war, the Nationalist government reestablished itself on the island of Taiwan. Since 1949, Taiwan has transitioned from abject poverty to one of the wealthiest societies in the world; from fascism to liberal democracy; and from near universal diplomatic recognition to nearly complete diplomatic isolation. This course will explore the immense challenges faced by Taiwan's people and government and investigate the manner in which such an imperiled island managed such a fascinating process of change. Highlighted as well is the prominent role played by the United States in guaranteeing the regional security necessary for Taiwan's ascendance. Prerequisite: 60+ credit hours

MLINS 6377: Government-Business Relations in the Developing World

This course explores the country risks businesses and non-profits face in the developing world, including government instability, the lack of government capacity, insecurity, dysfunctional legal systems, corruption, human rights violations, poverty, poor infrastructure, and a low level of social services, including poor education and health care. We will look at how entities evaluate these risks before entering a country and how they manage these risks once on the ground. We will also discuss the ethical issues encountered in doing business in developing countries. The course will provide a foundation for anyone interested in doing business or otherwise working in developing countries. While the course is organized around specific risks, it will also review the broader issues common to developing countries. Prerequisites: INST 1351 and INST 1352

MLINS 6378: Seminar in Social Entrepreneurship

This course examines the potential of the private sector to foster human development on local and global scales. We examine what different corporations and small entrepreneurs are doing to make a profit and better our planet. The course also offers perspectives about what enterprises could or should be doing to promote sustainability, and it explores how corporate social responsibility can be a useful tool for business men and women around the world navigate across cultures and classes; make a living' and promote sustainable economic development. The course is also an informal invitation to become social entrepreneurs with real social values at the course of our goals and objectives. The course will foster our own social entrepreneurship principles, based on the idea that the market can be a tool for delivering profit while also generating many other values with real and substantial marginal social benefits.

MLINS 6379: Cyber Warfare

This course overviews the growth and scope of cyber warfare and its impacts on national power in the domains of government, diplomacy, international law, international commerce/economic power, social media/privacy, science/technology, and civil society. It traces the evolution of conflict from traditional information gathering to the development of cyber weaponry with destructive capabilities and the use of those capabilities to advance national foreign policy interests. Through the use of case studies and selective readings from a variety of sources (government policy directives, cyber security industry studies, and defense related academic papers), the course guides students through the emergent quality of the broadening scope of cyber conflict and the multifaceted response to the challenge. Ultimately, students are confronted with the impact of the ongoing threat as they interface with cyberspace in their day-to-day interactions. The goal is for a deeper understanding of the scope and complexity of the cyber domain and the global conflict that is raging out of view.

MLINS 6380: Global Conflict Resolution

This course begins with the premise that conflict is a part of everyday life that spans across every inch of the globe and is found in all careers and relationships, so it is designed to be a practical course that provides a comprehensive overview of conflict resolution from a micro (person-to-person) to a global perspective. This course reviews the theoretical components while exploring conflict within different contexts, including intergroup, interpersonal, cross-cultural, legal, and international, by analyzing select global conflicts and learning to identify its primary and secondary participants. This course introduces positive conflict management skills, including active listening, communication skills, principled negotiation, facilitation, and peacekeeping skills. This skill-based course will explore how these variables and behavioral attributes have, and can, influence global conflicts through escalation and de-escalation. Upon completion of this course and attendance in class for at least 40 hours, as designated by Texas State Statute, graduate and undergraduate students will be able to mediate globally with their basic mediation certificate.

MLINS 6381: International Security in East Asia

This course will provide a broader understanding of security and geopolitics in East Asia. With the rise of China and the nuclear threat from North Korea, the security dynamics within and beyond East Asian states is of critical importance to both the United States and the world. To better comprehend such complex security dynamics in East Asia, this course will review the historical progress of diplomatic and security related interactions between East Asian countries, and their relations with the United States as well. After a profound understanding of the history is acquired, this course will guide students to analyze the current events and potential changes in this region and derive policy implications and strategic proposals for the East Asian countries and the United States.

MLIRS 5303: Irish Culture and Traditions

This course examines contemporary Irish culture and traditions, by tracing their origins and evolution through the varied circumstances of Irish historical and political events. The course considers the impact these events had on the molding of distinct cultural practices in the fields of language, literature, sport, music, and folk traditions. By the end of the course, students will be able to identify, explain, and distinguish between Irish cultural practices and traditions, as well as analyze the conditions that contributed to their formation.

MLIRS 5366: Historical and Political Perspectives on Irish Law and Culture

This course is a study of the indigenous Irish culture and how political and religious movements in Ireland and around the world shaped the Irish identity and history. Emphasis will be placed on Ireland in an international context, including the effects of Christianity, conquest, imperialism, war and rebellion, nationalism, independence and self-government on the Irish identity and history. This course explores how law reflects society and provokes change among people of different racial, political, cultural and religious backgrounds.

MLIRS 5367: Irish Diaspora: Irish American Experience

This course will examine the causes of transatlantic migration of the Irish and Northern Irish people and the development of a subculture of Irish Americans in the United States in the context of key periods of departure. The course will address the political, social, legal, cultural and economic aspects of life in Ireland and Northern Ireland that gave rise to emigration. We will investigate how the Irish and Northern Irish made a mark on American society, politics, law and culture. We also will use the Irish American experience as a case study for other immigrant experiences today.

MLIRS 5368: Northern Ireland: Conflict and Peace

This course is divided into three parts: (i) Historical Context, (ii) the "Conflict", and (iii) the "Peace". The historical context explores some of the key events that led to the conflict and the current situation in Northern Ireland. This part begins with a look at the British plantations and settlements throughout Ireland, Britain's first colony. The historical context reviews some of the laws imposed upon Ireland to subvert Irish heritage and culture, such as outlawing the Catholic religion and the Irish language as well as taking away Irish Catholic civil rights. The course reviews the conquest of Cromwell, the rebellions of the Irish, such as the United Irishmen, and the laws imposed on the Irish by the British in response. The course explains the Act of Union, which made Ireland part of the United Kingdom and took away Ireland's Parliament, Ireland's desire for self-determination, the 1916 Easter Rising seeking independence, the partition of Northern Ireland from Ireland and the Irish Civil War of 1922. The Conflict portion reviews the current dispute between the various political parties in Northern Ireland and the groups they represent: nationalists (who want to reunite Northern Ireland with Ireland) and unionists (who want to keep Northern Ireland separate from Ireland and united with Britain). The Conflict also reviews the use of physical force (violence) to achieve these goals versus constitutional, peaceful means (the ballot box & dialogue). The Peace portion discusses the various agreements and movements among Britain, Ireland and Northern Ireland from 1922 to today to stop the violence and to bring peace to Northern Ireland, as well as Britain and Ireland. The course also coves current events in Northern Ireland, such as ongoing elections and other governmental, political, social and cultural issues.

Description

This course examines the foundations of Western Civilization in the cultures of ancient Greece, Rome, and early Christianity. Central to the course is a selection of great works from the period. The course is taught by faculty from a variety of disciplines. The specific topic is chosen by the instructor.

Rationale

This course will serve as one of four required great texts courses in the new MLA concentration in Classical Education. This course is delimited by the historical period of antiquity. The specific topic will be chosen by the instructor.

Relationship to Existing Programs

This course will be one of four required great text courses in the new MLA concentration in Classical Education. It will also be available as an elective to other MLA students and to graduate students in other UST programs with the consent of the MLA director and the instructor. The course will not be crosslisted with any undergraduate course.

Contribution to UST Curriculum

This course supplies needed graduate instruction in the great texts and the pedagogy of classical education.

Student Outcomes

As a result of this course, students will:

1) Grow in their understanding of the foundations of Western Culture in the Greek, Roman, and early Christian traditions;

2) Increase their competence in the close and sensitive reading of great texts from the classical world;

3) Enhance their ability to articulate in both speech and writing important themes of ancient

texts; and

4) Enhance their ability to teach ancient texts in classical education settings.

Projected Enrollment

10.

Staff and Expenses

The course will be offered once per year and staffed either by adjuncts or by full-time faculty, either in-load or as an overload. Thus the expense of the course will be either $0 (in-load full-time faculty) or $3,000 (adjunct/ faculty overload).

Additional expenses in equipment, teaching resources, etc.

None.

Workload Hours 3.00

Description

This course is an in-person summer seminar on a selected topic in classical education. It may be taken up to three times.

Rationale

This course provides MLA students with an in-person summer classroom experience. It is especially intended for students who have chosen the MLA in Classical Education degree option. For these students, the course will offer some direct personal contact with professors and other students in the program to complement their substantial experience (18 credit hours) taking the required six courses online. As the topics will change, the course may be repeated for credit.

Relationship to Existing Programs

This course serves as an elective in the MLA and especially in the MLA in Classical Education degree option.

Contribution to UST Curriculum

This course supplies needed graduate instruction in the great texts and the pedagogy of classical education.

Student Outcomes

As a result of this course, students will:

1) Grow in their understanding of the purposes and challenges of classical education;

2) Enhance their ability to teach great texts in classical education settings; and

3) Increase their social ties and contacts with other students and professionals in the classical education world.

Projected Enrollment

20.

Staff and Expenses

The course will be offered once per summer and staffed either by adjuncts or by full-time faculty, either in-load or as an overload. Thus the expense of the course will be either $0 (in-load full-time faculty) or $3,800 (adjunct/faculty overload).

Additional expenses in equipment, teaching resources, etc.

Up to $1,000 for guest speakers and events-related expenses such as food.

MLMLA 6360: Renaissance Culture&Society

The course studies the period 1300-1550 in order to ascertain its specific nature as a period of European history and its contributions to the development of Western civilization. The course will examine the contributions of this period in the areas of scholarly pursuits (Humanism), philosophy, political thought and religion, as well as in the literary and fine arts. An attempt will be made to place these developments in their political and socio-economic contexts.

MLPHL 5350: Contemporary Logic

This course aims to introduce students to the significant philosophical advances made in the past 150 years in the field of logic. Some of this material can be grouped under the rubric of symbolic logic, but this course will go beyond the field of mathematical logic by discussing theories of modal and tense logic, and, more generally, by discussing why 20th century philosophers see such formal logic as the most suitable tool for the discovery and development of logical truth.

MLPOS 6379: Cyber Warfare

This course overviews the growth and scope of cyber warfare and its impacts on national power in the domains of government, diplomacy, international law, international commerce/economic power, social media/privacy, science/technology, and civil society. It traces the evolution of conflict from traditional information gathering to the development of cyber weaponry with destructive capabilities and the use of those capabilities to advance national foreign policy interests. Through the use of case studies and selective readings from a variety of sources (government policy directives, cyber security industry studies, and defense related academic papers), the course guides students through the emergent quality of the broadening scope of cyber conflict and the multifaceted response to the challenge. Ultimately, students are confronted with the impact of the ongoing threat as they interface with cyberspace in their day-to-day interactions. The goal is for a deeper understanding of the scope and complexity of the cyber domain and the global conflict that is raging out of view.

MLPOS 6380: Global Conflict Resolution

This course begins with the premise that conflict is a part of everyday life that spans across every inch of the globe and is found in all careers and relationships, so it is designed to be a practical course that provides a comprehensive overview of conflict resolution from a micro (person-to-person) to a global perspective. This course reviews the theoretical components while exploring conflict within different contexts, including intergroup, interpersonal, cross-cultural, legal, and international, by analyzing select global conflicts and learning to identify its primary and secondary participants. This course introduces positive conflict management skills, including active listening, communication skills, principled negotiation, facilitation, and peacekeeping skills. This skill-based course will explore how these variables and behavioral attributes have, and can, influence global conflicts through escalation and de-escalation. Upon completion of this course and attendance in class for at least 40 hours, as designated by Texas State Statute, graduate and undergraduate students will be able to mediate globally with their basic mediation certificate.

MLPOS 6381: International Security in East Asia

This course will provide a broader understanding of security and geopolitics in East Asia. With the rise of China and the nuclear threat from North Korea, the security dynamics within and beyond East Asian states is of critical importance to both the United States and the world. To better comprehend such complex security dynamics in East Asia, this course will review the historical progress of diplomatic and security related interactions between East Asian countries, and their relations with the United States as well. After a profound understanding of the history is acquired, this course will guide students to analyze the current events and potential changes in this region and derive policy implications and strategic proposals for the East Asian countries and the United States.

Psychology

Department Chair: Dr. Crystal D. Tran, trandn1@stthom.edu

Psychologists use the scientific method to study behavior and mental processes. The Psychology Department offers courses that develop students' understanding of human nature and functioning, train students in the methods of scientific psychology, and prepare them to solve important human problems. The department provides:

- A curriculum that integrates scientific, ethical and social justice perspectives on the nature of humans.
- A program of undergraduate study in psychology that emphasizes empirical research methods, focuses on social justice issues, and prepares students for employment and graduate or professional training.

PSYC 5310: Designing Mental Skills Training

This course focuses on teaching students how to design mental skills training programs for groups, teams, and individuals. Students will explore program development, evaluation, and have the opportunity to gain practical experience working in performance settings and designing mental skills training. This course will provide students with a hands-on experience working with individuals seeking to improve their mental skills. Mentorship pours earned during this class will partially fulfill the requirements for the CMPC certification.

PSYC 6355: Practicum in Applied Sport and Performance Psychology

The practicum is designed to provide a structured practical experience in the field of sport and performance psychology. During practicum, students will gain field-based experience in a sport performance environment. The experience will challenge graduate students to apply psychological skills training programs to teams and/or athletes. The goal of this course is for students to demonstrate a mastery of the knowledge, skills, and abilities associated with being an effective professional in field of applied sport and performance psychology.

PSYC 6399: Capstone

The capstone requirement is designed to serve as a reflective project that tracks the progress of the CMPC certification process. Throughout the program, students will work directly with athletic and/or performing arts populations. As part of the applied work, students will reflect on their observation and consultation experiences. This project will be submitted as a portfolio and will include student's reflections on their experiences applying performance knowledge to teams and individuals.

Cameron School of Business

Vinita Ramaswamy, Associate Dean, vinitar@stthom.edu

The Cameron School of Business educates students from diverse backgrounds, teaching them professional skills necessary for a changing global economy and instilling in them a deep appreciation for ethical behavior. The comprehensive curriculum of the undergraduate program is designed in keeping with current trends in business education and with the Basilian tradition of educating the whole person.

The undergraduate program of the Cameron School provides students with the knowledge and functional skills required to meet the varied and complex responsibilities managers face in the workplace. Students learn effective business practices though an in–depth examination of business principles coupled with hands–on projects and case analyses that require the application of these principles. Students can also participate in internship opportunities that complement their in–class studies and help them to gain valuable practical experience. In addition, the University offers study abroad programs for business students; these programs broaden students' horizons by acquainting them with other cultures and business practices.

Many professional opportunities are available to business majors upon graduation. Large corporations, small businesses, not–for–profit organizations, and government agencies seek employees with the skills and knowledge possessed by business graduates. The Cameron School offers a broad–based education which prepares its graduates for these opportunities. With the solid foundation in business understanding provided through a well–designed curriculum, the various programs at CSB also prepares students for post–graduate education, principally in the fields of business and law. Students can also complete their bachelor's and master's degrees at the Cameron School of Business, in a streamlined program combining undergraduate and graduate studies.

Mission Statement

Inspired by the Basilian Fathers' motto of Goodness, Discipline and Knowledge, *and supported by scholarship*, the Cameron School of Business provides a comprehensive, high quality, ethically oriented business education to a diverse student body that enables graduates to serve as leaders of faith and character in a global economy.

Accrediting Agencies

The University of St. Thomas holds accreditation from the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC). In addition, the Cameron School of Business has achieved accreditation from the Association to Advance Collegiate Schools of Business (AACSB).

Degree Requirements and Assurance of Learning

Based on its mission, the Cameron School of Business has developed learning goals for undergraduate degrees in business. These goals are addressed and assessed across the courses in the undergraduate degree programs through a systematic and ongoing improvement process that assures student achievement of these learning goals.

Bachelor's Degree Learning Goals & Objectives

When students complete the BBA program at the University of St. Thomas,

- Goal 1: Students communicate effectively.
  - Objective 1: Students deliver a compelling oral presentation.
  - Objective 2: Students use technology to convey a clear message and engage an audience.
  - Objective 3: Students write professional quality documents.
- Goal 2: Students are adept at critical thinking.
  - Objective 1: Students analyze problems in depth
  - Objective 2: Students analyze data thoroughly using technology
  - Objective 3: Students present feasible solutions for the problems
- Goal 3: Students work effectively in teams.
  - Objective 1: Students work collectively towards team objectives
  - Objective 2: Students demonstrate professional interpersonal relations with other team members.
- Goal 4: Students are ethical decision makers.
  - Objective 1: Students recognize the ethical issues implicit in a business decision
  - Objective 2: Students describe and use ethical frameworks applicable to business situations
- Goal 5: Students are knowledgeable about fundamental business issues, processes, and global business.
  - Objective 1: Students demonstrate knowledge of business concepts and principles in a global environment.
  - Objective 2: Students demonstrate knowledge in the areas covered by the required courses in their major.
  - Objective 3: Students apply business theories and concepts to address business problems

MHA 6392: Directed Reading/Independent Study in MBA

Student research on a selected problem in the field pursued under the guidance of an assigned member of the faculty. (to be determined in consultation with department chair or faculty supervisor); prior written approval of chair and instructor; minimum GPA of 3.0.

MCTM 5311: Introduction to Clinical Translation Management

The course will draw from diverse academic science and business disciplines to explore the evolving landscape of biotechnology from the standpoint of entrepreneurial ventures. The course will focus on changes and challenges in the industry, as well as opportunities for startups and new entrants. Students will learn about the different stages and processes associated with the translation of life science research into applied products/services and the commercialization of technologies.

MCTM 5326: Introduction to Statistics and Clinical Research

This course is designed to provide the student with a background and fundamental working knowledge in applied statistics for use in health, science, government, and technology based research. The course will emphasize the statistical tools required to analyze and test the quality and integrity of research data. Students will also learn how this analysis integrates with the steps involved in conducting clinical research. The course will review and evaluate the main study designs used in clinical research: case-control, cohort, clinical trials, and practical examples of statistical analyses of clinical research studies. Time permitting students will prepare and review a research project. Introduction to Statistics and Clinical Research

MCTM 5331: Ethics of Translational Medicine

Moving a compound from pre-clinical studies into humans is a necessary step in the translational process. The current system of demonstrating safety and efficacy in animals, then first-in-human phase I trials, to larger cohorts and multi-center trials has many scientific and ethical decision points and challenges that investigators, review boards, and regulatory agencies must address in readying a novel therapeutic for wide- spread use. Importtant consideration will be given to conflicts of interest that involve both clinical issues of ethics, existing guarantees for clinical trials participants , and how anticipated risks are weighed against predicted benefits to society. Students will evaluate case studies of actual clinical trials to see wht contributed to the outcome.

MCTM 5366: Idea to Clinic II -- Into the Clinic

The course will cover Clinical trials: Phase 0 through IV; utilizing special regulatory considerations as: Regenerative Medicine; Biomarkers; In Vitro Diagnostics; Contrast Agents. The students will learn about funding strategies for clinical trials and begin work on a new model: The Translational Research Initiative. This type of study will enhance the students' strategic perspectives on clinical trials from the point of view of the academic, major corporate, and biotech spin-off worlds. Students will learn about the profiles of key personnel roles in all phases of the Idea-to-Clinic transition; as well as the options for entrepreneurship and leadership in translational management.

Healthcare Administration

MHA 6307: Leadership and Governance of Healthcare Organizations

This course will focus on the foundation and principles of leadership and governance roles and their application to health service organizations. The foundation and principles of leadership are emphasized and their impact on organizational functionality. Students will examine methods and tools for managing quality in health facilities, physician practices, managed care, patient satisfaction and their impact on organizational functionality. In addition, students will explore governing boards' primary roles and responsibilities to ensure organizational standards for patient care quality are met. Students will gain insight addressing governing boards' responsibility for the overall operation of a healthcare facility and additional issues that affect care and shareholders

Accounting

Department Chair: John Leavins, leavinj@sttom.edu

The accounting degree programs offer a broad–based education and promising employment prospects for future business leaders by equipping students with the business and accounting knowledge necessary to obtain professional positions after graduation, providing a sound knowledge base for continuing progress in the accounting profession, and creating an environment within which students and faculty exchange ideas and critically evaluate the profession and its role in society.

The undergraduate accounting curriculum is designed to provide learning and decision–making skills that will be invaluable throughout the graduate's career. Accordingly, the curriculum incorporates both accounting theory and practice. The BBA prepares students to sit for the CPA exam under the current regulations. Students who do not wish to sit for the CPA exam can use the degree in the following careers:

- Corporate
- Nonprofit

- Government accounting

Students interested in public accounting and planning to be certified as a CPA must successfully complete 150 hours of college credit. Our BBA/MBA degree is designed to help students to sit for the exam. The Texas State Board of Accountancy makes the final determination regarding a CPA candidate's courses and other qualifications to sit for the CPA exam. The requirements are listed on their website at www.tsbpa.texas.gov.

ACCT 5910X: Understanding and Interpreting Financial Statements

The purpose of this course is to introduce the students to the basic financial statement of a business entity. The course emphasizes the understanding, interpretation, and analysis of financial reporting.

ACCT 6335: AI Vibe Development & Automation for Business Leaders

This course explores how managers and business leaders can leverage AI-assisted development (“vibe coding”) and no-/low-code platforms to rapidly design, deploy, and scale digital solutions that improve organizational performance. Students learn to translate business requirements into functional applications, workflows, dashboards, and automations using natural-language prompting and AI copilots. Emphasis is placed on evaluating use cases, managing tradeoffs between custom development and automation platforms, and governing AI-enabled productivity tools across functions such as operations, accounting, marketing, and finance. The course integrates hands-on labs with strategic analysis, exposing students to leading AI development and automation platforms (e.g., ChatGPT, Gemini, Copilot, n8n/Zapier/Make) while examining organizational readiness, risk, and ROI.

Description

This course explores how managers and business leaders can leverage AI-assisted development ("vibe coding") and no-/low-code platforms to rapidly design, deploy, and scale digital solutions. Students learn to translate business requirements into functional applications, workflows, and automations using natural-language prompting and AI copilots, while examining organizational readiness, risk, and ROI.

Rationale

AI-powered development tools have democratized application building, enabling non-technical leaders to create business solutions rapidly. Leaders need competencies in evaluating AI automation platforms, managing build-versus-buy tradeoffs, and governing AI-enabled productivity tools across business functions.

Relationship to Existing Programs

Complements CSB curriculum by providing AI based practical implementation skills.

Contribution to UST Curriculum

Positions Cameron School of Business as a leader in practical AI business education, addressing employer demand for leaders who can rapidly build and deploy AI-powered solutions.

Student Outcomes

Learning Objective 1: Design and deploy AI-assisted applications, workflows, and automations using natural-language prompting and no-/low-code platforms to address business requirements.

Learning Objective 2: Evaluate AI automation use cases, platform tradeoffs, and governance considerations to drive organizational productivity and ROI.

ACCT 6340: Data Analytics Applications in Accounting and Finance

This course explores how data analytics transforms the practice of accounting and finance by converting raw financial and accounting datainto meaningful insights that enhance decision-making, improve business processes, and strengthen internal controls. Emphasis is placed on how finance professionals and accountants source, structure, and interpret financial and accounting data to support financial reporting, auditing, managerial decisions, and tax planning. Students will learn to ask the right analytical questions, prepare and validate accounting and financial datasets, and apply structured analytical methods to evaluate results. Through hands-on work, students gain practical skills using programs such as Excel, Power Query, Tableau, Alteryx, and UiPath, N8N (AI based automation) using examples tailored to accounting and finance problems.

Description

This course explores how data analytics transforms accounting and finance by converting raw financial data into meaningful insights that enhance decision-making, improve business processes, and strengthen internal controls. Students gain hands-on skills using software programs applied to financial reporting, auditing, managerial decisions, and tax planning.

Rationale

There have been major changes regarding the education requirements for the CPA Exam.

Data Analytics will be integrated as a major part of the exam.

This proposed change is designed to better prepare students for the newly structured exam.

Relationship to Existing Programs

Complements existing graduate accounting and finance courses by adding data analytics competencies increasingly required by the profession.

Contribution to UST Curriculum

Addresses the growing demand for analytics-skilled accounting graduates, strengthening Cameron School of Business's accounting program with practical technology skills employers actively seek.

Student Outcomes

Learning Objective 1: Apply data analytics methods to source, structure, and interpret accounting and financial data for improved decision-making and reporting.

Learning Objective 2: Utilize analytics tools to prepare, validate, and evaluate financial datasets across accounting and finance domains.

Economics and Finance

Department Chair: Dr. Joe Ueng, ueng@stthom.edu

The economics degree programs expose students to social science concepts central to business and governmental decision–making, society's allocation of resources, international relations among competing economies and ethics in commerce. The economics program encompasses micro and macroeconomics, international economics, money and banking, labor markets, cost benefit analysis, economic development and theory. Career opportunities for economics majors include the following:

- Consulting
- Commercial banking
- Investment banking
- Economic research

The finance degree programs provide a solid body of theoretical and practical knowledge of domestic and international finance in the areas of corporate finance, risk management, investments, portfolio management, financial markets, financial planning, financial forecasting and financial institutions. The program prepares students for careers in the field of finance including:

- Financial management
- Risk management
- Portfolio management
- Post-baccalaureate study in business or law

FINA 5904X: Fundamentals of Finance

This course provides an introduction to financial concepts and principles for students required to take the proficiency course in Finance. Special attention is given to the role of the financial system in the economy, the fundamentals of investment analysis, and the financial decisions of business firms as related to capital budgeting, capital structure, and responsibility in the conduct of business financial operations. Management/Marketing

Department Chair: Elham Mousavidin, mousave@stthom.edu

Management programs give students a diversified business background combined with focused areas of expertise. Students interested in pursuing careers with corporations or governmental entities or in operating their own businesses are provided exposure to a range of business disciplines.

Marketing programs prepare students for careers developing products and services to satisfy customers' needs and making them available through efficient distribution and optimal pricing strategies. It provides students with an understanding of fundamental concepts, principles, theories, tools and techniques in the following areas:

- Marketing management
- Product design and development
- Distribution
- Pricing
- Promotional techniques and strategies

Success in marketing requires understanding fundamental concepts, principles, theories, tools, and techniques in the areas of product promotion, distribution, and pricing. The Cameron School curriculum is designed to provide this knowledge and to develop competencies which will benefit its graduates throughout their careers.

HSM 5300: Professional Communication in Human Services Management

MBA 5909X: Legal Environment of Business

This course provides a study of law as it relates to organizational activity. Emphasis is placed on current legal problems, together with evolving theories or trends within the law. Primary emphasis is placed on business, the formation of contracts, the problems with sales contracts, secured sales contacts and security interests, and the proper forms of business organizations including sole-proprietorships, partnerships, limited liability companies and corporations. The course introduces the student to the problems that currently beset the business community, the origins of those problems, the consequences anticipated and, basically, what is to be expected in the future. The student should come to an understanding of the dangers to be encountered with such problems as changes in corporate structures, mergers and acquisitions, changes in employment responsibilities, civil rights considerations and violations, harassment problems, early buy-outs, forced retirements, etc. At the end of the course it is hoped that the student will be familiar with not only the problems to be encountered in the business world, but the language and legal thinking surrounding these problems. Prerequisites: None.

MBA 6328: Cross Cultural Negotiation and Conflict Management

Participants will learn through role plays, simulations and case study analysis how to be more prepared for the next negotiation with their peers at work at school or on their daily life. The best practices applicable in today's environment from the most famous negotiators of ancient history ("the Phoenicians") will be described, analyzed and given to participants as a methodology to apply on their future negotiations. The role of a third party to a conflict resolution will be discussed and practiced. Negotiations from single issue to multiple issue, and cross cultural elements will be analyzed and discussed. Participants will learn by doing and reading cases and research materials. This course will help participants discover how to reach agreements not only within their own culture, but also with different cultures.

MBA 6345: Non-for-Profit Management: Principles and Practice

This course introduces students to non-profit management at the graduate level by combining an overview of management practices in the profession with an exploration of the student's interest areas (e.g. case management; child advocacy; social and community services management). Students also explore aspects of managing self, employees, and relationships with external stakeholders. This interactive course provides students with real-life learning opportunities through readings, lectures, and class discussions.

MBA 6357: Management Information Systems

This course presents the major issues in the realm of managing cross-functional information in complex organizations. Topics include planning, designing, acquiring, evaluating, and financing information systems and technologies. Students will understand competing perspectives of the end-user client and the information system manager with opportunities to work together to improve competitive advantage through effective management of information. The course is largely a discussion-based class with a case study emphasis including extensive Internet research to solve business problems and make decisions. Assignments include written and oral presentations.

MBA 6382: Artificial Intelligence for Strategic Advantage

This course examines the strategic and managerial implications of artificial intelligence (AI) for business leaders. Moving beyond technical foundations, the course focuses on how executives can leverage AI to drive innovation, create competitive advantage, and transform organizational models. Students will explore frameworks for aligning AI initiatives with business strategy, managing data and analytics capabilities, evaluating AI investment opportunities, and addressing organizational change. Key themes include AI-enabled decision-making, intelligent automation and workforce redesign, AI in customer and stakeholder engagement, risk management, and the ethical governance of emerging technologies.

Description

This course examines how business leaders can strategically deploy artificial intelligence to drive competitive advantage and organizational transformation. Students explore frameworks for AI-enabled decision-making, intelligent automation, workforce redesign, customer engagement, and ethical governance of emerging technologies.

Rationale

AI is reshaping every industry, yet most MBA programs focus on technical foundations rather than strategic leadership. Business executives need frameworks for evaluating AI investments, managing organizational change, and governing AI responsibly—skills this course directly addresses.

Relationship to Existing Programs

MBA students and working professionals seeking to lead AI initiatives without requiring deep technical expertise. The course bridges the gap between technical AI knowledge and executive decision-making.

Contribution to UST Curriculum

Complements existing MBA strategy and analytics courses by adding AI-specific strategic frameworks.

Student Outcomes

Learning Objective 1: Evaluate the strategic and managerial implications of artificial intelligence for driving innovation, competitive advantage, and organizational transformation.

Learning Objective 2: Apply frameworks for AI governance, ethical decision-making, and managing organizational change in technology-driven environments.

Projected Enrollment

30

MBA 6383: Strategic AI Governance, Law, and Ethics

This course examines the governance, legal, and ethical dimensions of artificial intelligence from a managerial and enterprise perspective. Emphasizing Responsible AI frameworks, students analyze how organizations design, deploy, and oversee AI systems in compliance with evolving legal standards and societal expectations. Topics include managing algorithmic bias and fairness risks, intellectual property and copyright challenges in generative AI, data privacy and regulatory compliance (e.g., GDPR, CCPA), and the strategic implications of AI accountability. The course also explores executive-level governance models, including AI steering committees, board oversight, and risk management structures that enable scalable, ethical, and compliant AI adoption. Through case studies and applied frameworks, students develop the leadership skills required to guide AI strategy responsibly within complex organizational and regulatory environments

Description

This course examines the governance, legal, and ethical dimensions of artificial intelligence from a managerial and enterprise perspective.

Rationale

Organizations face mounting regulatory scrutiny and reputational risks from AI deployment. Leaders need competencies in navigating evolving AI legal standards, managing AI fairness and bias, and establishing AI governance structures.

Relationship to Existing Programs

Complements CSB curriculum by deepening focus on Artificial Intelligence governance and compliance.

Contribution to UST Curriculum

Addresses critical market demand for AI governance expertise, differentiating Cameron School of Business through specialized responsible AI leadership training.

Student Outcomes

Learning Objective 1: Analyze the legal, ethical, and regulatory landscape of artificial intelligence to ensure compliant and responsible organizational AI deployment.

Learning Objective 2: Design enterprise-level AI governance structures and risk management frameworks that enable scalable, ethical, and accountable AI adoption.

EDUC 8322: Leadership and Social Change

This course consciensitizes leaders to see beyond the four walls of their organization and examine the U.S. as a 'nation of immigrants' and the complex interactions of a linguistically and culturally pluralistic society in the USA. A focus is placed on individuals discarded by the global economy. This course aims to achieve the following: a) Reflect on the moral and ethical issues raised by examining their personal beliefs in relationship to social justice teachings to address and mitigate inequities; b) Examine, through Critical Pedagogy Lens, the decisions institutions make that perpetuate inequalities and disenfranchise individuals; and c) Advocate for all people through systematic change that promotes success for all stakeholders.

EDUC 8330: Social Justice Principles

With an emphasis on human dignity and social movements for justice, this course surveys social justice through an examination of multiple perspectives, education theory, research and practice in historical and ideological contexts. Making the theoretical and conceptual argument that social justice matters, students explore primary themes of social justice such as: international perspectives of social justice, race, ethnicity, language, gender, sexuality, social inequalities as well as the politics of social justice. Students also investigate the role of power in society, which serves to produce inequalities in the abilities of individuals and social groups to define and realize their needs.

EDUC 8340: Policy Development & Advocacy

This course engages students in critical analyses of organizational policy at the local, state, national and international levels. Policy structures and processes are examined to understand how inequities are perpetuated in systems. In addition, examination of advocacy behind ethical consequences, moral dilemmas, social justice and equity issues resulting from policy are closely analyzed. Students will understand how public policy is generated using critical thinking and analytic reasoning in examining a current problem and recommending policy-framing skills for continued renewal and change for the betterment of institutions.

EDUC 8350: Technology Leadership

This course investigates the complex and rapidly changing nature of technology and how the digital divide impacts organizations and society in the 21st Century. The digital divide represents the gap between underprivileged members of society such as the poor, rural, elderly, and individuals with disabilities sectors of the population who do not have access to computers or the Internet. An introduction to the study of technology leadership with an emphasis on leaders developing a shared vision, planning, and promulgating policies and utilizing resources for the comprehensive integration of technology to address the digital divide are addressed. Learned skills include technology planning and leadership that incorporate instructional design, curriculum integration with standards, logistics of technology implementation, professional development, and the modeling of responsible digital citizenship. Students will develop an understanding of how to create and support technological change through a systems approach by learning management systems, social media, webinars, image repositories, and document sharing.

EDUC 8351: The Polymathic Leader: Modeling the Unity of Life in a Fragmented World

This course invites students to consider leadership as a personal and cultural vocation rooted in the integration of life, knowledge, and action. Drawing from the Catholic intellectual tradition, classical sources, and interdisciplinary insights, students will explore how the fragmented nature of modern life—divided by specialization, relativism, and disconnection—calls for leaders who model a unity of life. Emphasis is placed on cultivating moral imagination, synthesizing knowledge across disciplines, and practicing habits of reflection and action. Students will engage great texts, case studies, and personal discernment to develop a model of leadership that serves the common good and embodies integrity, wisdom, and purpose.

EDUC 8360: Proposal Seminar

This course navigates the student through the proposal development process. With a focus on describing the problem statement, critically exploring the multiple perspectives in the literature and presenting a discussion on the appropriate methodology to conduct inquiry. During this course, the student demonstrates a command of both the topic area and the methodologies involved in conducting the research project. The student is guided to bring together the knowledge, skills and insights to develop a full dissertation research proposal. This course is designed to ensure the research design includes scholarly references, demonstrates a thorough understanding of research design and analysis, and clearly identifies the gap in the literature that is being addressed with the research.

EDUC 8370: Residency I

The purpose of the residency is to provide students the opportunity to increase their knowledge and understanding of the areas they encounter in practical and problem-filled situations in everyday practice. It is a supervised field-based experience on engaging the mission of the organization, centering on systemic reform, strategies organizations can use to advance the goal of equity, and financial planning and budgeting to maximize use of resources. In addition to being enrolled in graduate school, a student must include activities approved by his/her doctoral advisor that are both research and scholarly based. A final reflective paper will be submitted at the end of the residency.

EDUC 6305: Counseling Internship

Counseling Internship is the second of two semesters required for the capstone experiences. Students will be enrolled in a 3-credit counseling internship class which meets once a week for one semester. This courses requires completion of a supervised internship of 600 clock hours in students' designate program areas, begun after successful completion of the counseling practicum. The internship is intended to reflect the comprehensive work experience of professional counselors appropriate to the designated program areas. Students' internship includes all of the following: (1) At least 240 clock hours of direct service, including experience leading groups. (2) Weekly interaction that averages one hour per week of individual or triadic supervision throughout the internship performed by the onsite supervisor. (3) One class per week in the 3-credit Counseling Internship class. (4) The opportunity for students to become familiar with a variety of professional activities and resources in addition to direct services (for example, record keeping, assessment instruments, supervision, information and referral, in-service and staff meetings. (5) The opportunity for students to develop program-appropriate DVD recording for use in supervision or to receive live supervision of their interactions with clients. (6) Evaluation of students' counseling performance throughout the internship, including documentation of a formal evaluation after students complete their internship by the professor of the counseling internship class in consultation with the onsite supervisor.

EDUC 6341: Instructional Technology Methods

Using technology in the classroom is not something that can just be “done” because we have technology and therefore must use it. It must be planned. Teachers must have understanding of students and their abilities in order to effectively integrate technology into the classroom. Teachers must be prepared for anything that can happen when using technology, such as device failure, ethical use, evaluation of tools, reducing off-task behavior, and best practices for use. This course explores best practices in technology integration in teaching and learning.

EDUC 6350: Pedagogy in Catholic Education

This course is designed to introduce participants to a range of current methodology and curriculum associated with teaching in a Catholic school system. Emphasis is placed on inclusiveness and diversity as opportunities for teaching and learning. Participants will discuss and practice strategies and techniques that incorporate best practices, principles of faith, and a theology of education. The course will look to the person of Jesus Christ primarily and other exemplary models for teaching and learning, discovery and transformation. Christian pedagogy enables the student to “assimilate skills, knowledge, intellectual methods and moral and social attitudes”, all of which help to develop the personality and lead the student to take their place as an active member the community…” The aim of Christian pedagogy is not merely the “attainment of knowledge but the acquisition of values and the discovery of truth (The Catholic School, The Sacred Congregation for Catholic Education).”

EDUC 6355: Principalship in Catholic Education

This course will provide an overview of the role of the Catholic school principal as spiritual, educational, and managerial leader in the elementary, middle/intermediate, or high school setting. Exercises will be provided in decision making, maintaining required documents, and strategic planning, similar to what principals encounter on site. Special attention will be given to instructional supervision, instructional evaluation, and professional development, with an emphasis on the integration of Catholic identity in the curriculum. An overview of the Catholic school system, primarily within the Archdiocese of Galveston-Houston, will also be provided. Other private school systems are to be explored as necessary. Students will also delve into how the principal relates to teachers, pastors, parents, and the larger community. The course will presume an understanding of the distinctive nature and unique mission of Catholic schools and therefore seek to prepare the principal for effectiveness and success within this context.

COUN 5368: Counseling Practicum

Counseling Practicum is the first of two semesters required for the capstone experiences. Students will be enrolled in a 3 credit counseling practicum class which meets once a week for one semester. Students must complete supervised practicum experiences that total a minimum of 100 clock hours during the semester. At least 40 clock hours of direct service with actual clients will contribute to the development of counseling skills. Weekly interaction that averages one hour per week of individual or triadic supervision with a site supervisor is required. Consultation regarding counselor practicum students between the counselor educator and onsite supervisor is required every two weeks. Evaluation of the student's counseling performance throughout the counseling practicum, including documentation of a formal evaluation after the student completes the practicum.

COUN 6305: Counseling Internship

Counseling Internship is the second of two semesters required for the capstone experiences. Students will be enrolled in a 3-credit counseling internship class which meets once a week for one semester. This courses requires completion of a supervised internship of 600 clock hours in students' designate program areas, begun after successful completion of the counseling practicum. The internship is intended to reflect the comprehensive work experience of professional counselors appropriate to the designated program areas. Students' internship includes all of the following: (1) At least 240 clock hours of direct service, including experience leading groups. (2) Weekly interaction that averages one hour per week of individual or triadic supervision throughout the internship performed by the onsite supervisor. (3) One class per week in the 3-credit Counseling Internship class. (4) The opportunity for students to become familiar with a variety of professional activities and resources in addition to direct services (for example, record keeping, assessment instruments, supervision, information and referral, in-service and staff meetings. (5) The opportunity for students to develop program-appropriate DVD recording for use in supervision or to receive live supervision of their interactions with clients. (6) Evaluation of students' counseling performance throughout the internship, including documentation of a formal evaluation after students complete their internship by the professor of the counseling internship class in consultation with the onsite supervisor.

CMHC 5325: Psychopathology and Psychopharmacology

This course builds upon foundational knowledge of abnormal behavior by expanding students' understanding of mental disorders, diagnostic processes, and treatment considerations in counseling practice. Students engage in deeper exploration of psychopathology, differential diagnosis, and case conceptualization. The course also introduces the role of psychopharmacology in the treatment of mental disorders.

CMHC 5333: Abnormal Behavior

This introductory course examines the foundations of abnormal behavior and psychopathology. Students explore psychological distress, impairment, and dysfunction through biological, psychological, social, and cultural perspectives. The course introduces students to the Diagnostic and Statistical Manual of Mental Disorders and other frameworks for conceptualizing mental health conditions. Emphasis is placed on understanding classification systems, major categories of mental disorders, and the role of context and culture in diagnosis.

Description

The Texas Behavioral Health Executive Council (BHEC) requires students in Professional Counseling Programs to complete coursework in Abnormal Beahvior. This course will be an introductory course to CMHC 5325 Psychopathology & Psychopharmacology.

Rationale

The Texas Behavioral Health Executive Council (BHEC) requires students in Professional Counseling Programs to complete coursework in Abnormal Beahvior. This course will be an introductory course to CMHC 5325 Psychopathology & Psychopharmacology.

Relationship to Existing Programs

Introdcutory course within the Clinical Mental Health Counseling program

Contribution to UST Curriculum

Introdcutory course within the Clinical Mental Health Counseling program

Student Outcomes

Students will implement basic diagnostic criteria to better understand abnormal human behavior.

Projected Enrollment

30 students per semester

Staff and Expenses

None

Additional expenses in equipment, teaching resources, etc.
None
Please attach any supporting documents

CMHC 5340: Introduction to Play Therapy

through the process of counseling. The content of the course introduces a distinct group of interventions including play and communication skills as integral components of the therapeutic process. A major focus of the course involves instructional and experiential opportunities for the student counselor to develop skills that provide children with appropriate developmental materials and facilitate a safe relationship for the child to express models that can be applied to elementary age children. This course provides an overview of the essential elements and principles of play therapy, including history, theories, modalities, techniques, applications, and skills. Further, an experiential component focuses on basic play therapy skill development within the context of ethical and diversity-sensitive practice. It also includes assessment and techniques for working with children and adolescents in personal and family systems along with parent/guardian involvement interventions.

CMHC 5342: Pre/Adolescent Counseling Techniques

This course will prepare counselors to work with pre/adolescents ages 12-21 and develop effective counseling strategies. The course will utilize class discussions, peer group work, lecture, demonstration, videotaped materials, and interactive/experiential activities. Topics explored will include trauma, grief, sexuality, substance abuse and legal and ethical issues in working with minors. In this course, the student should begin to integrate all their previous course learning in preparation for applying that learning for working with adolescents in a variety of settings.

CMHC 5345: Trauma: A Holistic Perspective

This course provides students with an understanding of the personal and systemic impact of trauma-causing events on individuals, couples, families, and communities. Students will learn specialized response models that encompass sensory-kinesthetic, perceptual, emotional, cognitive, social-relational, and spiritual dimensions of experience, with a focus on body- and brain-based approaches to treatment. Also included in this class is the exploration of the counselor's response to trauma and vicarious traumatization. The instructor uses a life-span developmental holistic perspective in presenting the course material.

CRIM 5328: Cyber Crime

This course offers an introduction to the world of cybercrime in the age of globally networked digital, information, and communication technologies (ICT). The course takes a Catholic social justice-legal approach to the study of cybercrime, viewing cyberspace as a novel environment that is having a profound impact on how both legal and illicit social interactions take place, as well as transforming the scope, scale, and relations between victims and offenders.

Description

Forensic psychology is an area of interest within the criminal justice system.

Rationale

This course is not offered in the UST Psychology Department

Relationship to Existing Programs

This course will expand offerings at the graduate level. It will be open to all graduate students.

Contribution to UST Curriculum

Provide a course that is contemporary and in demand.

Student Outcomes

1. Describe the role and impact of a forensic psychology professional on the legal system.

2. Examine methods forensic psychologists use to assist law enforcement.

3. Analyze theories and treatment modalities of victims and perpetrators.

4. Differentiate the methods and objectives for forensic psychology assessments.

5. Integrate Catholic Social Justice concepts that should be utilized by a competent forensic psychology professional.

Peavy School of Nursing

Executive Dean: Claudine Dufrene, PhD, RN-BC, GNP-BC, CNE, dufrenc@stthom.edu

Mission

Building on the mission of the University of St. Thomas and its Founders, the Basilian Fathers, and nourished by the historic traditions of Catholic nursing education and service, the University of St. Thomas Carol and Odis Peavy School of Nursing will educate nurses intellectually, morally, and spiritually in the art and science of nursing as a compassionate healing ministry.

Vision

The UST Carol and Odis Peavy School of Nursing (PSON) will be nationally recognized as an educational community that is an exemplar in the formation of nurses for holistic healing ministries in the 21st century healthcare environment.

Philosophy

UST's deep conviction about the nature of nursing as a healing ministry shapes the philosophy of the Peavy School of Nursing and serves as the standard measuring, intent and outcomes of all the school's endeavors. With this undergirding, we frame and describe the essential elements of the healing ministry we pursue and make manifest:

The concepts of person, nursing, health and environments were defined as follows for the UST nurse and are further discussed in Standard III in the conceptual framework presentation.

1. For the UST Nurse, Person is the ineffable expression of "God among us" that is the unique, complex multidimensional mystery of each human. Both nurse and patient, as persons, bring to healing encounters their self–awareness, intentionality and consciousness; these human capacities create the conditions for healing.
2. For the UST Nurse, Nursing is a professional discipline and practice, both an art and a science, manifest as a healing ministry expressing the presence of God. Nurses bring to their relationships with people a conscious, intentional and relational presence. Using their knowledge and skill, nurses express their therapeutic capacity through their unique spiritual calling and commitment, guiding others to a desired wholeness.
3. For the UST Nurse, Health is optimal wholeness of persons achieved through the full expression of individual and communal healing practices made possible through nursing, by nurses. Health is a multidimensional state of being that encompasses body, mind and spirit for the nurse and the patient in their shared encounters focused on care.
4. For the UST Nurse, Environment is the totality of all forces and factors that shape the nurse-to-patient encounters that make healing possible. Each encounter offers an unrepeatable moment, as the environment is a constant state of change. Nurses enter the care environment to create the conditions and relationships necessary for healing.

All members of the UST/PSON community, in embracing these fundamental understandings of the essential elements of nursing, create and participate in education, scholarship, service and care initiatives that make the healing presence of God manifest. They are guided by the human capacities for compassion, justice, tolerance, reflection, creativity, and moral choice.

NURS 7217: Behavioral Neuroscience

The course will provide the student a basic introduction to the fundamental aspects of common diseases affecting the brain. The latest developments in neuroscience and genetics related to psychiatric symptom expression and symptom management throughout the lifespan will be discussed. Complements the concepts in neuroscience and the clinical management of targeted psychiatric symptoms, related to the treatment of various psychiatric disorders and reflects current scientific knowledge of neuroanatomy, neurophysiology, and neurochemistry, and its application to clinical problems seen in a variety of settings.

NURS 7014V: Clinical Applications Practicum

This course provides students with planned clinical practicum experiences designed to demonstrate skills and knowledge learned in the classroom through self-designed clinical experiences in collaboration with selected clinical partners and their clinical practice coaches. Students will focus their clinical experiences on the roles and competencies of transformational nurse leaders creating healing environments for a self-selected patient population. The clinical practicum provides students with an opportunity to integrate the diverse dimensions of their DNP learning experiences in a “real world” situation and capture for themselves the meaning of these experiences through self-reflective journaling and maintenance of a clinical log. Students will work collaboratively with their clinical partners to ensure all practicum experiences concurrently benefit the student and the clinical partner through the creation of healing environments.

NURS 7113: Transformational Nursing Leadership: Clinical Applications Seminar

This course provides DNP students with a structured platform for exploration and integration of their experiences in their DNP courses, their applications in clinical practice and their individual population health specialization initiatives. Through group discussion, guided by faculty coaching, students will revisit the core conceptual threads of the DNP program and refine their integration of the threads into their clinical experiences and program specialization activities. The seminar is required when students are enrolled in the clinical practicum course (7X14), and provides a mechanism for managing progression through DNP clinical practice experiences and a focused process facilitating students in identifying and analyzing the challenges associated with transformational nursing leadership.

NURS 7202: Diversity, Equity, Inclusion; Social Justice Dimensions of Transformational Healing Relationships

This interdisciplinary course provides the student with an opportunity to embed the distinctive themes of the UST DNP program within a working framework of ethical principles and practices that enable the creation of transformational healing relationships among diverse persons involved in a given setting, situation or culture. Using the professional nursing Code of Ethics and the four pillars of the DNP program's conceptual framework, students will explore the ethical dimensions of a holistic healing ministry for nurses in the diverse and complex 21st century healthcare environment, where the nurse serves as an instrument of healing, committed to social justice and healthcare equities pursued through transformational healing relationships. Expansion of consciousness and self-awareness as essential components of ethical healing relationships will be emphasized, giving students an opportunity to craft a personal narrative about these expanding capacities as a dimension of transformative nursing leadership that pursues social justice for their patient populations. Students will have an opportunity to identify and explore the potential ethical challenges implicit in the planning and implementation of their DNP projects and design potential responses to these challenges.

NURS 7211: Interprofessional Collaboration as Transformational Nursing Leadership

This course provides the student with a structured process for establishing informed relationships with diverse members of interprofessional health care teams and through the lens of the Catholic intellectual tradition, developing collaborative approaches to transforming health care practices in complex practice, political and organizational settings. A variety of health care professionals will serve as guest faculty to provide students with an expanded understanding of potential collaborations on all aspects of population focused health care programs. Students will experiment with leadership initiatives grounded in an analysis of complex population health care challenges and the design of interprofessional responses to these challenges. The synergistic impact of interprofessional teams on the outcomes of population health initiatives will be documented through student learning experiences.

NURS 7301: Creating Healing Environments: Foundations of Nursing Art and Science

This course provides the student with an introduction and orientation to the distinctive characteristics of the UST DNP shaped by the Catholic intellectual tradition. Students explore the conceptual threads of the program of study and link these to the theoretical and scientific grounding of the practice leadership in professional nursing. Conceptual threads include the UST Nursing philosophy, pillars and framework; the IOM Future of Nursing report and its emphasis on transformational leadership; the conceptual model of complex adaptive systems including diversity as its source of creativity and as an innovative patient care context; interprofessional and clinical partnerships; and nurses' engagement in health care environments to create the conditions, relationships, partnerships and practices necessary for healing outcomes for a specified population's health.

NURS 7303: Translating Research into Practice: Transformational Leadership in Enhancing Healing Environments

his course provides the student with a systematic exploration of the nature of research, both in nursing and related disciplines, and its role in creating healing environments in complex adaptive systems through transformational leadership. Grounded in an analysis of the formal processes of inquiry, students will explore clinical research, evaluation research, evidence based practice processes, and quality improvement protocols. Differentiation of these knowledge resources will be analyzed as essential to transformational leadership initiatives, shaped by the creative use of health care information systems and technologies available in healthcare environments. Students will explore potential inquiry-guided leadership initiatives that create change toward best practices and the crafting of transformational policies responsive to patients' and their unique needs. Dissemination of outcomes will be discussed as a final expression of inquiry processes, linking them to transformational leadership research and the potential for expanding the spread of healing environments and the healing ministry of nurses.

NURS 7304: Relational Dimensions of Healing: Communication and Conflict Engagement

his course provides the student with a systematic exploration of the role of right relationship in the creation of healing environments for specific populations. Grounded in an evidence-based analysis of current disruptions in health care environments and their impact, students will explore the ethical, fiscal, quality control, safety and personal cost of such disruptions, and examine and practice specific competencies essential to addressing these disruptions and engaging effectively with relevant participants. Models of collaboration and teamwork as alternatives to or enhancements of current practices will be explored, linking them to the unique value focus of the UST program of study. Unique traits of complex adaptive systems will be linked to communication patterns, diversity as opportunity, and conflict engagement processes. Through the lens of the Catholic intellectual tradition, the role of the transformational nurse leader in pursuing social justice; enhancing quality, cost effectiveness, and patient safety through competent right relationship; creating collaborative partnerships and engaging others in skillful advocacy for patients will be emphasized through group and individual course experiences.

NURS 7306: Healing Environments in Complex Adaptive Systems

This course provides students with a systematic analysis of existing conceptual maps descriptive of health care organizations and systems, identifying their characteristics and outcomes as these relate to nursing as a healing ministry. With this backdrop, an in depth exploration of the specific conceptual map of complex adaptive systems (CAS) shapes the course as students investigate the creative and humanizing impact of this mental map. Students explore implications of the map for managing diversity, ensuring interprofessional collaboration, reframing policy and practices, initiating transformational changes, and ensuring desired outcomes. The role of healthcare informatics, social media and rapidly changing technologies will be examined within a CAS framework of meaning, both as challenges and opportunities. This examination, informed by the Catholic intellectual tradition, will focus particularly on challenges and opportunities as they relate to issues of social justice in health care. CAS will be discussed as a mental map to relate to and understand communities, environmental and occupational health, cultural variances and the unique needs of the students' self-selected populations of interest.

NURS 7307: Transformational Leadership in Healing Environment

This course is designed to prepare students to deal with the intellectual and practical responsibilities and accountabilities of transformational leadership in healing environments, informed by the Catholic intellectual tradition. Students will learn how to use evidence-based practices to apply nursing's hierarchy of knowledge to real world patient problems, focusing on health care delivery phenomena. These explorations will include the fiscal, risk management, quality control, outcome and safety dimensions of care systems in diverse organizations. The practical processes of development, implementation, refinement and evaluation of practice models and guidelines, standards of care and peer review procedures will be explored through simulations and case studies, providing students with experiences focused on culture sensitive problem solving and the real world challenges of ensuring that nurses can embrace their unique ministry Students will have the opportunity to apply these experiences to their self-selected population, focusing on health promotion, disease prevention, access to care and gaps in current services. Innovative strategic decision-making will be tested through this process of application.

NURS 7308: Financial Management in Health Care

This course provides the student with a comprehensive review of financial concepts and principles applied to the financial decisions of health care agencies including capital budgeting, capital structure, and budgeting for personnel. Concepts informing financial management in health care include financial performance evaluation, asset valuation, capital budgeting, and both short-term and long-term financial planning, budgeting and forecasting. Students will study the development and interpretation of accounting information as a managerial tool for decision-making. Students will have the opportunity to apply their learning to financial management issues confronting those who lead care programs for their self-selected populations. In addition, the course emphasizes the importance of ethical responsibility in the conduct of business financial operations in health care.

NURS 7310: Transforming Ethics, Law, and Policy Toward Healing Environments

This course is grounded in and shaped by the relationship between the IOM Future of Nursing report of 2010 and the distinctive mission and vision of the School of Nursing and the unique characteristics of the UST DNP program. An evidence-based analysis of extant policy patterns, both nationally and locally, will serve as a backdrop to the students' exploration of policies shaped by the goal of creating healing environments. Grounded in the Catholic intellectual tradition and Catholic social teaching, students will have the opportunity to investigate a policy issue specific to their self-selected populations and field test a policy role they can assume to address this issue, including germane financing, regulatory, ethical and delivery issues. Students will take the initiative with diverse stakeholders to advocate for the policy and nursing's role in reframing extant health policies. These diverse policy activities will be linked to the students' role as a transformational nurse leader.

NURS 7312: Informatics and Technologies in Health Care

This course provides the student with a comprehensive understanding of the essential role of informatics and health care technologies in the transformation of population focused health care services. Students will develop skill in analyzing and communicating to interprofessional teams, patients, and families information necessary to optimize the use of available technologies and information extracted from health care databases and information systems that may benefit a patient population. Guided by the Catholic intellectual tradition, the emergent ethical dilemmas shaped by the rapid development of complex technologies, digital data sources and social media will be explored, and students will identify and demonstrate transformational leadership competencies essential to grappling with these issues guided by the ANA Professional Code of Ethics. Criteria for the evaluation of available information systems and patient care technologies will be explored by students who will craft professional measures to guide future leadership decision-making.

NURS 7405: Epidemiology: Optimizing Population Health

This course provides the student with a review of the basic concepts, principles and methods of epidemiology applied to population focused health care and nursing practice for evaluation and implementation of evidence-based decision-making in health care to investigate inequities, enhance quality, control cost, and predict and analyze outcomes. Emphasis is placed on the use of epidemiologic reasoning in deriving inferences about the multi-factorial etiology of health phenomena from population data and in guiding the design of responsive health service programs. Attention to demographic, cultural and social dimensions of health problems and programs will focus on the ethical use of epidemiological reasoning. Through this course the student will be able to critically read and evaluate epidemiological data, extract implications of these data, and apply their knowledge to decision-making using epidemiological principles. Additionally, this course is designed to widen the lens students use to understand population health, expanding boundaries to capture global health issues, creating context for national, regional, state, city and local community perspectives as potential healing environments. Study of specific international organizations and NGOs such as WHO and UNICEF, with a focus on creating healing environments will be complemented by the roles played globally by nurses through organizations such as ICN and STTI. Nationally, comparable analyses will include the PPACA, CDC, EPA, etc. and the ANA, AACN, AONE and the NLN. State and local expressions of these resources will be identified and explored for intent, impact, and potential partnerships. Guided by the Catholic intellectual tradition and Catholic social teaching, the role of the transformational nurse leader as an actor in these formal structures will be explored, along with the effective use of resources such as epidemiological studies; global, national, state and local data bases; models of and opportunities for inter-professional collaboration; emergent technologies and policy crafting opportunities; and innovative approaches to unanticipated challenges.

St. Mary's Seminary

YSD 9351: Medieval Sacramental Theology

Though the Patristic Era saw the beginnings of the Church's theological reflection on the sacraments, it was the Medieval Era that saw these reflections reach a clarity that culminated in the sacramental articulations at the Council of Trent. This elective course is for the student who desires to explore in greater detail the works of authors such as Radbertus, Ratramnus, Hugh of St. Victor, Peter Lombard, Thomas Aquinas, Bonaventure, and Duns Scotus. Topics to be explored include: the numeration of the sacraments, their relationship to grace, categories of minister and recipient, and how contemporary philosophy influenced these discussions. Finally, the course will look briefly to the East to examine how sacramental theology was being done concurrently as that of the West.

Description

Though the Patristic Era saw the beginnings of the Church's theological reflection on the sacraments, it was the Medieval Era that saw these reflections reach a clarity that culminated in the sacramental articulations at the Council of Trent. This elective course is for the student who desires to explore in greater detail the works of authors such as Radbertus, Ratramnus, Hugh of St. Victor, Peter Lombard, Thomas Aquinas, Bonaventure, and Duns Scotus. Topics to be explored include: the numeration of the sacraments, their relationship to grace, categories of minister and recipient, and how contemporary philosophy influenced these discussions. Finally, the course will look briefly to the East to examine how sacramental theology was being done concurrently as that of the West.

Rationale

This elective course will be offered to second year seminarians to serve as a compliment to other Medieval studies they may have had with the focus here being on Medieval Sacramentality.

Relationship to Existing Programs

Elective in the Master of Divinity Program

Student Outcomes

This course will enhance seminarian understanding of the significance and impact of Sacramental Theology as was understood and developed in the Medieval Era.

Projected Enrollment

8
